

Third Exodus Assembly

# The Four Horses Of Death

Pastor Vinworth A. Dayal  
**19<sup>th</sup> November, 2000**

## **The Four Horses Of Death** **Sunday 19<sup>th</sup> November, 2000.**

Amen, praise Him with a loud voice, give Him honor and glory. Because when we think of this great mighty God that we serve, how He could meet every situation, take care of every circumstance in our lives. Amen, we know that there is none like Him in all the earth. Amen. Blessed be His wonderful name. Certainly happy to be in His house today. This Sunday morning coming to worship Him, coming hastening into His house in anticipation knowing that what a great appointment this is to meet with the most High God. Amen. I was glad when they said unto me.

The Bible said, when they were going up to Jerusalem they had special songs that they would sing as they would approach this great city of God. They plait the city of the great king, such a beautiful city; she's the joy of the whole earth, perfection of beauty. A place where God has appointed that He was going to meet with them. They would come three times a year-the time of the Passover, the time of the Pentecost, in the time of The Feast of Tabernacles. It was something for them. Going up to the house of God was a promise that God had made, something that was special only to those who were called out by that Exodus prophet. Those were the elect, the chosen people of God in their age. There wasn't any nation like them. God chose them to be a special nation from above all other nations.

So you are a chosen generation, a royal priesthood, a peculiar people. Oh may we catch that today. That's why He said, come out of her my people, come out of Babylon, Babylon is fallen, her sins are come up to heaven and strong is the Lord that judgeth her. But behold the marriage of the Lamb is come and His wife has made herself ready. It has been granted unto her to be arrayed with fine linen clean and white. To think that there was an angel who revealed the mystery of the great harlot. And that same angel revealed the mystery of the Lamb's wife. Hallelujah. Putting judgment upon one and putting a blessing upon the other in this great age. Hallelujah. Oh my! When you see the reality in the Bible it's not just church for us friends. We didn't come like people

come to denomination this morning, we come like a people walking in evening light. Amen. We have been washed from the faith of organization, we have been brought into the only provided place of worship, we have been enlightened to the promise of the hour. A people who have come into union with God. A people who understands what true fellowship through the blood is, amen. Glory be to God in the highest.

Makes me want to shout, makes me want to praise God, amen. When I think of a God who can come down and create squirrels and say don't be afraid, there's a man that can turn on the light. No matter how dark and gloomy it gets, makes me want to sing Hallelujah, praise His name. When I think of that name revealed in the Seven Thunders. Hallelujah. Makes me want to shout like John when I see my name in the Book, that I'm part of the mystery. Oh, glory be to God. I think we could sing it again. When I think about the Lord how He saved me in this day, when I think about that mighty angel that come down, open the Book and delivered the named found written in the Book, amen.

How He raised me up in heavenly places, how He filled me with the Holy Ghost. When I think of the great healing revival and the Son of righteousness arose with healing in His wings on the great Jehovah Rapha, said, I will be your refuge, amen. In this age of pestilence, come in to me. When I think of a prophet that lifted the Son of Man and say look and live. Hallelujah, oh and He picked me up, turn me around. I was going to Tibet and he picked me up and turned me around. Plant my feet on solid ground. It makes me want to shout, amen. It makes me want to shout. Lets sing it.

Congregation sings: : When I think About the Lord.

Hallelujah, you are worthy, all the honor, all the glory and all the praise and we give it back to You Lord because you are deserving of it. You are the only one oh God that deserves worship Father. Because you are the only one that can prove and prove day after day that you are The Mighty Conqueror, the all-sufficient God in the midst of His people. Blessed be your wonderful name today. We exalt you, we lift You up oh Lamb of God for Thou alone are worthy to receive all honor and glory and praise and might and dominion and blessing and power. Hallelujah, you took your place, You opened the Seven Seals. You gathered us, You

lifted us up into heavenly places. You put us in an only provided place and here you are inhabiting our praises, working among us, ready oh God to meet every situation. Lord Your children look to you and confess. You are more than able to do the exceedingly abundantly above all that we could ask or even think today. Hallelujah, thank You Jesus, oh glory be to God in the highest, thank You Lord.

Turn around, greet your brothers and sisters, tell them God bless them. Amen. Say brother isn't it good to be in the house of God? Sister isn't it wonderful to be in His presence? Oh I'm so glad, amen. When I think what I would have been today have not been for this great one, this one who has passed my way. Hallelujah. Hallelujah.

I'd like to open the scriptures this morning into Ezekiel 14. I just love Jesus, amen. Who else can we love and worship? Who else could take care of our situation? Who else could give us the peace and the assurance. Amen. There's none like Him friends. Blessed be His wonderful name. There's none like Him, not even worthy to be compared. What a blessed privilege we have to know we serve the true and living God. He's unveiled, this mighty God who has unveiled Himself to us. Brought us into union with Him. These are not slogans. These are not just little nice words to say. This is a reality where we can walk in victory. We can live in the power of the spirit. Amen, lets just pray before we read. And you have faith and believe knowing that the Word is the greatest thing there is in the universe. The Word of Almighty God who is Himself is the Word, who Himself is the Spirit. God is the Spirit and God is the Word and the Word and the Spirit is the self same person. Hallelujah. Believe Him. Everything that you have need of is in Christ, the Word of the living God.

Almighty God, author of life and giver of every good and perfect gift. We bow in your great magnificent holy presence. And as we worship you, we worship you in spirit. In the Spirit of the living God that has been given to us to lift us up, to raise us up, to know You, to experience Your realities that we can worship, Lord, with revelation. You said you seek those to worship in spirit and in truth. We know dear God when we sing these things, we confess these things. Lord it's not just something to do in a church service as part of a ritual, but that's our lives, because we sing while we

travel, we sing in our homes, we sing on our jobs because You put a song in our souls making a melody in our heart, singing spiritual hymns and psalms dear God.

Lord, knowing that this is acceptable because we are high priests continually offering the fruits of our lips, giving praise and thanks unto you. Because you have brought us into your mighty presence beyond the veil and we are grateful for that Father, to see what you have made us, to see who you are, to see dear God what you have promised and to see how you are bringing us into these things. We rejoice with joy unspeakable and full of glory. Truly you said, hurt not the oil and the wine and bring stimulation. Makes us want to shout because it gives vent, Lord, as the wine begin to ferment and expand and move inside of us. We thank you for the oil that gives us flexibility oh God, that we are not parched and dry. Oh God, but we can move under the power of the Spirit. Hallelujah. Lord whether we look odd or crazy to people, that matters not because we've crossed over Jordan to Canaan's fair land and this is like heaven to us. Hallelujah. Blessed be your wonderful name.

We pray dear God today as we come into Your house and gather under the power of the Spirit and Your Word that You will speak to us in such a way and deal with our hearts and continue Lord to influence our lives and keep us under this divine realization as it gets more and more refined and as You make it clearer to us Lord and faith rises and empowers us to pull down every stronghold and dear God to carry out the Word with a sacred responsibility. Oh God, knowing that it becometh us to fulfill all righteousness. This is the Father's business; this is the secret of the message. This is why you have called us Lord to make us co-workers to go hunt our lost fallen brothers and sisters to finish this great plan of redemption. Let not this realization leave us but Lord let it grow greater and stronger and grip us, govern and influence us Lord and everything we say and do can reflect you that truly you said we are written epistles read of all men.

Bless all that is gathered today. Lord I pray that you drive away every negative spirit, every pessimistic thing, everything that makes people doubt. Is there anything too hard for the Lord? He said. With God there is nothing impossible. I pray faith will be stimulated Lord. Lord I pray oh God, the way would be made

clear. I pray the urgency of the message, the desperation would set in the hearts of men and women that they will redeem the time dear God, they will move right up closer into Your presence and get into the rhythm of the Word that they can move and live under the divine leadership of the Holy Spirit. May you grant it Lord, because it is vain for a man to trust in his own ability and try to depend on his own might and power, oh God, but may we see Lord, what you have made us accessible to. And may we know how to take a hold of that and live in the enjoyment and benefit of it. That truly oh God we can be the light of the world and the salt of the earth because this is pleasing unto you.

Remember those in Tobago, in Grenada dear God, we bring them before you. We pray dear God that Father, even as we feel Your presence so mighty in Your Word, so powerful in our hearts, Lord here in the service we pray that it would be the same for them dear God and You would meet every need and the Word would be like a radar searching their hearts, meeting their needs, ministering as Your children have need of that the church might be built up in this great holy faith for the rapture dear God.

Even the strangers and visitors in our gates we ask dear God that you will take them behind the veil, ecclesiastical veils that might be upon them. It is written while the scripture is read, Lord God, the veil is still on their hearts, Lord, of many oh God but tear away that veil today that they might come into Your presence to see the fulfilling of the Word that their eyes can become open dear God like You opened the scriptures and open the understanding of those dear God that they can go beyond the camp to be identified with the Word, not being ashamed of You but willing to bear the reproach. Grant it dear God.

Lead and direct us dear God. Break the bread of life. Bless our hearts today. Show us how to serve You Lord, show us how to stand, show us how to carry out the responsibility. Give faith for healing, give faith for deliverance. Whatever your children is lacking let them see that how all sufficient you are. How oh God to these things that seem like a mountain, it's minor things, it's nothing dear God in the sight of the great awesome God that rules the universe by His very Word. You cast out devils by your very finger dear God. I pray dear God that that faith could strike that they can confess these realities Lord and go to praising you and

glorifying you, making ready to receive all that you have given because you are the true giver of every true and perfect gift. Grant it Lord. Now bless us in Your Word as we commit ourselves and the service into your hands. For we give you thanks in advance, praying and believing in the precious name of Jesus Christ. Amen. Amen.

Let's just open up, Ezekiel 14. I trust that you've been reading Ezekiel and Jeremiah and reading over in Kings and Chronicles and Zephaniah and you are getting in the spirit of the director who is in the spirit of the Composer, then you can see the symphony unfold this great drama that it could become real to you that when we open anywhere like that, right away your mind goes to clicking and ticking. If not you're just going to sit down there and just be in church. But if you're flying in the Word, then you know we've been looking at The Beginning of the Gentile Dispensation and how Babylon became the world power and how they conquered the mighty and then conquered the holy people.

And the same way the Gentile dispensation came in is the same way it goes out. And we are trying to prove to you how all these things are happening and is promised to happen in this hour that you can understand better the things that is prophesied; see how it is taking place and I know it will help you to inspire your faith, it will show you where you're at. It will show you what is taking place, it will give you understanding, to make you know how to prepare and it will be like that for you.

Verse 12, Ezekiel 14. Ezekiel lived in the same time as Zephaniah, lived in the same time of Jeremiah. They all saw the Babylonian king and his forces invading and devouring and breaking up the earth, causing craft to prosper, destroying the mighty and the holy people. They saw it all. How it came into a new world order. And verse 12 says...

*The word of the Lord came again to me, saying,  
Son of man, when the land sinneth against me by  
trespassing grievously, then will I stretch out my  
hand upon it, and will break the staff of the bread  
thereof, and will send famine upon it, and will cut off  
man and beast from it:*

You get that. He said when the land sin against me, when you see crime on the increase, when you see teenage pregnancies, when

you see broken homes, when you see unwed mothers, when you see more casinos and gambling dens come in, when you see politicians trying to manipulate the people and all these different things, when you see the country being sold out and all these different things then you know what is happening, then you know what to expect. And when things get bad you don't get like all these denominations on the radio, "Lord bless the land, bless the land". You know what God Word says. God said He'll send what? Famine. Watch this now. Look how God emphasizes the point. *Though these three men, Noah, Daniel and Job...*

Could you imagine Ezekiel was looking back at Noah at the end of the antediluvian world, looking back at Job, the oldest book that they had, the great patriarch Job and then he is comparing him with a man in his generation who was not even a major prophet of the age; who was going into captivity in Babylon. Could you imagine that? Daniel was alive. Daniel was one of those boys that went down in the captivity. And God is honoring that boy for the life he lived. You see sometimes how you have to think Bible thoughts? You see sometimes how you see people in the Bible great and then you can't see people living in your age great. But Ezekiel standing there, God was telling him, He said, look what is happening. He said, these three men...

*...were in it, they should deliver but their own souls by their righteousness, saith the Lord God.*

They couldn't deliver the people that could come out of it. In other words God is trying to contrast and show how much the nation had sinned away it's day of grace. He said those three men were in the nation they might of saved themselves by the right of the----nobody else. In other words He is saying the nation is sold, doom, it's so given over to judgment. The cup is full and overflowing.

*If I cause noisome beasts to pass through the land, and they spoil it, so that it be desolate, that no man may pass through because of the beasts:*

*Though these three men were in it, as I live, saith the Lord God, they shall deliver neither sons nor daughters; they only shall be delivered, but the land shall be desolate.*

So God said He sent evil beast in the land; now watch those things - famine, evil beast.

*Or if I bring a sword upon that land, and say, Sword, go through the land; so that I cut off man and beast from it:*

*Though these three men were in it, as I live, saith the Lord God...*

Remember three is a number of confirmation and witness. "Let everything be established in the mouth of two or three witnesses. And every judgment God speaks of, He says three men. If I send famine, it have three men there, they'll only deliver themselves. If I send the beast, there are three men there, they'll only deliver themselves. If I send the sword, there are three men there, they'll only deliver themselves. He's comparing the judgment with the righteousness of these men, contrasting and showing you the judgment that is coming and what is requiring.

Verse 19,

*Or if I send a pestilence into that land, and pour out my fury upon it in blood, to cut off from it man and beast:*

*Though Noah, Daniel, and Job, were in it, as I live, saith the Lord God, they shall deliver neither son nor daughter; they shall but deliver but their own souls by their righteousness.*

*For thus saith the Lord God; How much more when I send my four sore judgments upon Jerusalem, the sword, and the famine, and the noisome beast, and the pestilence, to cut off from it man and beast?*

What is He going to send? The sword, famine pestilence and the beast. He said if I send famine and they're there they will come out. But He said how much more for Jerusalem if I'm sending all four? I'm sending all four, not just one, I'm sending all four.

*Yet, behold, therein shall be left a remnant that shall be brought forth, both sons and daughters: behold, they shall come forth unto you, and ye shall see their way and their doings: and you shall be comforted concerning the evil that I have brought*

*upon Jerusalem, even concerning all that I have brought upon it.*

*And they shall comfort you (the remnant), when ye see their ways and their doings, and ye shall know that I have not done without cause all that I have done in it, saith the Lord God.*

Isn't God merciful? God is saying, when I do it, I'll have a remnant that will be saved and you will know that I have done that because that was necessary. But yet in mercy and yet in faithfulness to my promise I will save a remnant. Because God had told David, you'll always be a lamp in Judah. Because through Judah the messiah was to come. So God will not completely cut it off, He has an elected saved. God don't have to tell a man that, He's God. But He wants His people to know because I'm righteous I must execute judgment upon evil. But I'm a righteous judge. So know that even if I do that, it's not that I have forgotten my promise, I remember my promise but this is necessary.

If the eye offends, you have to pluck it out sometimes, if the hand offends you, you have to cut it off. It's better you go into heaven with one hand than to go in hell with two, see. And sometimes you have a rotten egg, you have to get rid of it to save the rest because that's what God does. See, that's a method. That's why God even had to kill all the Canaanites otherwise the whole world will be destroyed, that's the polluter of the everything, God said He will save a remnant; that is very merciful of God.

Father we are grateful to read Your Word Lord. It's not a history book to us alone, it's a mystery of prophecy. History repeats itself. When we see the very prophecy for this day becoming history and how much plainer it comes before us because we can look at the shadow and we can look at the anti-type and we can compare the two together and truly know that the Word of God is true and that You are the same. And what is happening on a national level is happening on a global level today; that Lord You gave it as a prefigure as the hour we are living in. we would like to think that we are part of the remnant today that is being saved because as we look we see the very same judgments that God keeps all His curses the same way He keeps all His blessings. Because these things were given for examples that we

might know You and know Your ways; because You are the same yesterday, today and forever.

Teach us Thy way oh Lord, help us to walk in thy truth, unite our hearts to fear Thy name. Grant it Lord, we pray and believe in the name of Jesus Christ, amen. God bless you, you may have your seats.

Turn with me over to Revelation chapter 6. Looking back at the Seals here and trying to help enlightened you as to some of the things in the Seven Seals and I trust that it will crystallize your understanding and give you a deeper insight as to the Seven Seals and the hour we are living in. And I'm praying that...I don't hope to be long this morning; I have quite a lot of things in my plate to see about and I just ask for your prayers, it's just that I'm so busy, it's just more than I could really deal with and so much is happening at one time and I'm trying to attend and help and it just seems as the time advances and the pressures increases, it's just...sometimes you hate to see things build up and yet you can't do otherwise. Sometimes and you just trust that it just spread out to the church so that you all could become workers and become involved and try to help and whatever we can do. Because to take care of a work like this is not like you know, an office thing, it's getting inspiration, finding the Word to help somebody give light and then it takes obedience.

Sometimes people like to spend, they could spend hours telling you all their life story because they feel good to unburden themselves with their problems. And you know anybody that is sympathetic and you know, sensitive to people, you always like to listen and give a lending ear. Because it helps them relieve themselves of the pressure and the things that were oppressing them and making life uncomfortable for them. But then at the same time, you know, that is not the solution. Because you still, after they finish tell all their problems, you have to diagnose the case, analyze the situation and then prescribe the medication that can help the condition. And then even though you do all that and the person still didn't take the medicine, then it didn't help, all the hours are wasted, all the stories told, all the things explained means nothing. After a while the person is still in the same condition.

That's why sometimes, you know, it have times to fellowship, you can fellowship and then sometimes you come and you have a

need, you see a situation, the Holy Spirit takes the Word, show it to you, this is the Word, apply this here, apply this here, apply this here, you go and be faithful. Elijah told the woman, “bring me a cruise, bring me some salt.” That is what it is really, “go home bring some empty vessels, put the oil in, pour it out, shut the door, do such and such,” that’s it. He said give me a handful of meal, do so and so, that’s it. People obey and they carry it out. See Jesus anointed the man’s eyes, He said, go wash in the pool of Shiloh. When He told Naaman, he started to explain, dive in another river, I am over here, the water good here too, here is near where I live, trouble. See.

And we trust by the grace of God that you know, we are growing up in the Word and we are understanding and we know it’s not by might or power, it’s not human help can solve these things, it’s going to take the Holy Spirit. It’s going to take the mind of God, it’s going to take the Word, it’s going to take obedience, it’s going to take sincerity. Sometimes some people does just wait until they reach on a death bed to get sincere. And sometimes when God have to carry people to that extent, it shows that there have quite some stubbornness and a lack of yielding and self crucifixion in that life that God have to bring then quite here to teach them something.

Because we were going through the lesson last week, in the week there, how God had to take them into captivity seventy years, take them out of the land, destroy the temple, destroy the city, destroy their homes, destroy all they labored for, root them up, take them out of the land, put them down in Babylon, put them under another power to get them to realize what the Word was telling them that they should have obeyed that. God said I’ve sent prophets after prophets rising up early telling you yet you wouldn’t listen. He said, you leave me no other alternative, I’m going to root you up out of your land. And what they had to learn in captivity under another power outside their own land is what they could have learnt through obedience and submission in their own land.

That’s who you go back, God said, “obey and live, disobey and die.” It’s only two laws, it’s only two ways to serve God; Deuteronomy, two laws. And when you come the time of the promise where we are and you know we are seeing the Word opening to us. And the Holy Spirit in sovereign grace can take us

into places and get our spirit quiet, alerted, and get our hearts and minds into the scripture, because what did God tell Joshua? If you're meditating in my Word day and night and don't depart from it and don't turn to the right or the left you shall have good success and prosper in all your ways. And no man shall be able to stand before thee all the days of thy life and every place the sole of your feet tread upon that have I given to you and remember that the Lord thy God shall be with thee wither so ever thou goest. What did David say? Thy Word have I hid in my heart that I will not sin against thee.

When you see the Words of God and how God brings you into it, what did Jesus say? If you abide in me and my Word abide in you, then ask what you will. It is not getting friends in church. These are just little minor things along the way. It's coming to a life to be hid in Christ, to abide in the Word, to be taught of God, to submit to the Word, to come into union with Christ, to be led by the spirit of God, to be crucified to the world that not you live but Christ live in you. Seek first the kingdom of God and His righteousness, then all other things shall be added, positive, shall be added. And when you really get a hold of that then you say, "I die daily that this thing can live in me". Why? Because you see the increase in power of the Holy Spirit coming in to your life and giving you an increase in blessing to things you struggle with that you could so easily take it under your control.

Let's just read a little bit out of Revelation chapter 6. I'm taking my subject out of there. I'm taking a little title out of the Old Testament and in the symbols of prophecy in the New Testament. Because you know the book of Revelation is a book of prophecy. We have a Babylon in the Old Testament, we have a Babylon in the book of Revelation in the New Testament. And we look at these things then you see how the Word of God is the same.

God told Ezekiel, over where we read in verse 21, chapter 14, He said, "when I send my four severe judgments, the sword, the famine, the evil beast and the pestilence." And that is what came in that hour, get it. That is what came in that hour upon those who had rejected the Word. Then the Babylon had come to take the whole world under it's control. If you go back under the Fourth Seal and then also the Vials, you see God feeding them to the beasts and to the fowls of the air. You see swords, pestilence

striking them, you see all the same things happening to the people back in the Old Testament prophesized in this day.

You read of things everyday but you don't see that from the Word, you see it as news, you see it as medical Science, you see it as different things. You don't see it as judgments of God. and because this world don't want to be seen as being judged then they explain that away. And then you get preachers taking the Word of God and crucifying the effects of the Word of God, because they don't know their age and the plan for the age. And they're deceiving people from the reality that they are a doom generation. They are trying to give a false hope. Remember the only hope is in the ark that the prophet prepared to take them above the judgment to bring them back in the new world. Only those who went in the prophet came back out. And God repopulated the earth after He destroyed the civilization. As it was in the days of Noah, so shall it be in the day of the coming of the Son of Man. They knew it not until Noah entered into the ark, the door was swing shut and the flood came and swept them away.

Like a snare it is going to come upon the whole earth. That's why it's to redeem the time. Can you not discern the signs of the time? Can you not see the handwriting on the wall being interpreted to you? Don't you know the age? You getting me? Seeing these things. I'm just trying to...it's really difficult sometimes as I said because you know, these kind of things you would like to preach consecutive, service after service after service and that's why I showed a little bit in one service and show another part in a next service proving and opening these things to you that they are in the Word, it's not a play thing. And when you see that and you see the hour how could you try to forget that and go back to living like that don't exist and see the world the rest of the way that the people who are blinded in this age see the world. How could you do that?

Light is come to get you out of that to get you ready to go. That's why He said buy of me eye salve, eyesalve so you could apply it to your eyes so you can see, the modern events could be made clear through the vindicated prophecy. The book of Revelation was the book of prophecy for the last days. This book was revealed by a prophet to John. This prophet was vindicated by a mighty angel. These things identify the entire book is already in

the process of fulfillment, that's a quote now. Every scripture is already in the process of fulfillment because the earth is to be burnt after this Elijah. Is that right? This message ushers in the coming kingdom. When you see the Son of Man in a cloud, look up and lift up your head, your redemption draweth nigh, the kingdom of God is at hand. We're in the time of the ten toes, the fig tree put forth its bud, the Son of Man appear in a cloud in power and great glory, the rock cut without hands appear. We're in the time of the ten toes, iron and clay, the kingdom is fragile.

And the Holy Spirit has been pointing out to us like a snare how it's is going to come and take over the whole earth. All these things we've been studying and looking at these last couple weeks and months in this season. I trust that you are taking these things into your heart and pondering it. The Bible said Mary pondered those things that were told in her heart. Now remember I'm not getting this out of a Magazine somewhere, I'm giving you it out of the Bible, the message. We come back to the Seals here again, Chapter 6,

*And I saw when the Lamb opened one of the seals, and I heard, as it were the noise of thunder, one of the four living creature saying, Come and see.*

*And I saw...*

Watch what is happening, catch the picture. The Lamb is opening one of the Seals. There is a blast, a thunder and there is a voice making an announcement. A Seal open, a mystery unfold, announcement made in heaven, see. And something is being revealed here.

*And I saw, and behold a white horse: and he that sat on him had a bow; and (conjunction) a crown was given unto him: and (conjunction again) he went forth conquering, and (conjunction) to conquer.*

His conquest is complete. He's not just conquering, he's conquering things that are going to make him ruler of the world. But the reason that he is not telling you everything because the mystery is only being revealed in part, it's not being fully revealed until the Seventh angel comes. But He's showing you it's a mystery. In the last day, we'll know what he conquered, we'll

know what he went forth conquering, we'll know how he took the kingdom by flatteries, we'll know how he came and built his Eden, we'll know how he's being enthroned as God, we'll know how he deceived the whole world. Every name that is not written in the Lamb's book of life will worship the beast. He'll be worshiped as God. Because he's going forth to conquer and to conquer and then, it says,

*And when he had opened the second seal, I heard the second living creature say, Come and see.*

*And there went out another horse that was red...*

*First it was white, then it was red.*

*...and power was given to him that sit thereon to take peace from the earth, and that they should kill one another...*

He didn't kill sixty-eight million in the first age under the first Seal. But he killed sixty-eight million under the Second Seal with the sword. Because under the Second Seal, power is given to take peace from the earth to kill. There was still a certain amount of peace. Where there is not peace. You ever see two brothers with two sisters in peace, in union in agreement, in harmony in fellowship and then you see them in strife and contention. What had happened? Peace is one of the fruits in the Spirit. Is that right? The palmerworm ate down that peace, eat down that brotherly love, what is going to happen? They start to contend with one another, they start to compete with one another, strife, start to jostle one another. Well if it happens on an individual level it could happen on a global level.

You ever see peace taken from a home? How it used to be happy and nice and then you see a house full of confusion, mother and daughter fighting, father and son want to fight? Who leave home, who want to put out who. You get what I'm saying? Sometimes it evens shed blood, domestic violence. You see a husband and wife on their honeymoon, peace and love and harmony, they're out shopping, they're out on a trip, next day they're talking divorce, peace stop. You're getting me?

You see I'm going there for you... to show you it's not a thing all out there. Don't think it like theology, think it like reality. Because when you see it is happening to you, see it's happening in the world too. See and then when you see what causes it between

two people you will know what causes it between two nations. You get what I'm saying. Because other nations are just people, it's just more people. This man get jealous of this man because he has something, he wants to steal it. Crime, when a man pass and see somebody thing, he didn't labor for it, nothing at all, he wants to steal it. The same way one nation see a next nation prospering, they have famine in the country, people dying. What you think is going to happen? They trying now to go and invade the next nation and take what they have.

You see one company, brother, prospering, getting bigger market shares, you see a next company trying to steal that company secrets so they could put out the goods for the next year and then they try to destabilize that one. It's the same thing, whether it's two individual people, you get two companies, two nations, two everything. And that's why when you see these things it's real to you.

So it was given to him to take peace from the earth and that they should kill one another.

*...and there was given unto him a great sword.*

Right away this tell you when you see these things happening in the earth that is given. You know God is in control because God said they are going to kill one another. I'll stand up and watch them kill one another. If it exceeds their boundary that I give, I'll step in and intervene. That why He said, tell those angels, hold those winds, don't let it blow on the earth yet. It's only supposed to cause enough disturbances to capture Jerusalem. Stop that war, they must only kill one third part of the men, not the whole population. It's just enough to run them back in their homeland. You get what I'm saying? God put a boundary on these things. now listen carefully.

*And when he had opened the third seal, I heard the third living creature say, Come and see. And I beheld, and lo a black horse; and he that sat on him had a pair of balances in his hand.*

Now over here he had a sword, over here he had a bow, over here he had a balance. A bow in his hand, a sword in his hand, a balance in his hand. Over here Jesus have a Book in His hand, the Seal of God in His hand, a scythe in the book of Revelation. These things are symbol, Revelation is a book of symbol. So when you

think of these things, it means something. That little picture will thoroughly explain the time that we are living in, because God put a picture to represent something that is happening in the earth as one of God's judgment.

*And I heard a voice in the midst of the four living creature say, A measure of wheat for a penny, and three measures of barley for a penny; and see thou hurt not the oil and the wine.*

*And when he had opened the fourth seal, I heard the voice of the fourth living creature say, come and see.*

*And I looked, and behold a pale horse...*

*Four horses here, a white, red black and pale.*

*...and his name that sat on it was Death...*

Now he is being named, he wasn't named before, now he is being named under the Fourth Seal.

*...and Hell followed with him...*

Here hell is personified and death is personified. Because is a him and hell is a them. You mean somebody could look at see hell walking in the streets? Sure. After you die in your body, where do you go? In the grave. Right? When you die in your soul where do you go after death? In the lake of fire, in hell. Are you hearing me? Something moved there and put a veil on you and you sit down there and miss the value you know.

*...and power was given to them(who them? death and hell) to kill with sword and with hunger(sword is what? Your Second Seal), and with hunger (your Third Seal, famine), and with death (your Fourth Seal) and with the beasts of the earth.*

Now watch, here are these four judgments, we read in Ezekiel 14. God said, My four severe judgments and God named them, pestilence, the sword, famine and the beasts of the earth. Over here in Revelation the last age...who rules the last kingdom? Babylon. In the book of Daniel, you had Medes and Persians at Babylon. You had Medes and Persian, you had Greece and you have Rome, and Rome is what? Mystery Babylon who rules the world, who destroys the mighty and the holy people. Back there in the natural, God sent these four judgments, over here God sent these four judgments because your Fourth Seal is what? This age, this

generation, Paul, Ireneus and Martin. Which is Ephesus, Smyrna and Pergamos was what? The First Seal, when the white horse rider was, when the lion went forth, the first beast, the lion. Second Seal was what? The ox, Thyatira, when they killed sixty-eight million, the martyr age where they slaughtered them with their sword. Because church and state had come together because Pergamos being what? Married, the church had married the state, like Ahab and Jezebel. What happened when Ahab and Jezebel married? Jezebel killed all the prophets and make them drunk with the blood of the prophets. Is that right?

In the type Elijah had come and repaired the altar. Well what happened back there happened in the age and how many knows Jezebel is the Roman Catholic church? How many knows Jezebel is mystery Babylon? Exactly, the last kingdom. Did the Bible said she was drunk with the blood of the saints of the martyrs? Exactly. When did it happen? After Pergamos when they were married, where church and state was married. Are we living in a time like Elijah again? Is church and state going to be united again? Is there going to be a squeeze and a persecution again? Exactly, it repeats

. So then the Third Seal, Sardis, Philadelphia and Laodecia; Luther, Wesley and Pentecost. The age of man and reformation. Third beast was the man, the wisdom combating that thing. While Rome was beginning to capture the wealth of the world, beginning to get a hand in the economics of the world, spiritually and physically. And then the Fourth Seal is this white, red and black begin to unite, it became the pale horse; uniting time and signs. That's why whole world businesses are uniting, nations are uniting, everything is uniting. And while that uniting is going on there is another uniting. I'm dying to be reunited and in my soul I'm so excited. It's a union of the Bride and the Bridegroom, amen.

The ecumenical move uniting the tares and the spiritual revival uniting the bride together. Two moves, one is the loosing of the ecclesiastical spirit, one is the loosing of the Holy Spirit. The Shout, the message gathered the bride together. Come out of her my people, come out of Babylon, gathered the bride together. Amen? Then after the end of the Pentecostal age is what? An eagle, prophetic fourth living creature saying, come and see. And under the eagle message, under the coming of a prophet, now we know who the rider is. The mystery is being revealed, because it

was promised it will not be revealed until in the days of the voice of the sounding of the Seventh Angel. And we are at the end of the Seventh Age. And we've had a message at the end of the man age when the eagle has come forth, one like Elijah. When Ahab and Jezebel coming back together at evening time when the altar is being repaired; it's happening again. And in that hour when Babylon is moving to take over the world, destroy the mighty and destroy the holy people; and the last thing is to make a covenant with the Jews and the bride will not see that, she goes.

Somewhere between the gathering of the tares, the binding of the tares and the Revelation of the antichrist, the rapture takes place. Amen? Then here we are seeing four judgments because it said... hell and death followed them. And power was given unto them over the fourth part of the earth. God said they will take one fourth of the earth and by these four judgments they will be killed.

This don't mention earthquake, who will die by earthquake you know. This doesn't mention who will die flood and these things you know. He is talking about pestilence will be one of the end time sign. Wars and rumors of wars was the end time sign, the sword, see. Economics, one of the end time sign, bringing famine and these things.

The earth have reached a place, when man begin to populate the and begin to multiply, because that's a end time sign. How many knows population explosion is an end time sign? As it was in the days of Noah, Genesis 6 when man begin to multiply upon the face of the earth. Go back to Flashing Red Light, The Sign of His Coming, you'll see that. When man begin to populate the earth and multiply, because why? Now they weren't having one wife alone, they took unto them wives because women started to get fair. And the population explosion, man was multiplying too fast and the economy wasn't providing fast enough for the increasing population. And so the analyst who watched over these things, they say okay, if you go to multiply in twenty four years, right now we have four million, in twenty five years your birth rate, taking your birth rate into consideration, taking your death rate into consideration, thinking about how much might die by pestilence and so on. Then they say okay, in twenty-five years, at the rate at which you're giving birth then you would double your population, there will be eight million in twenty five years.

Well if right now your standard of living, you have water, you have lights, you have a job, you have road, you're providing food and these things and you can feed. But let us say you're in debts with the World Bank because you're borrowing money, because you're not really...your land does not have much resources so you're importing food to feed your people. How many knows half those things on your grocery shelves, and with Price Smart come down here too, are imported things. You get what I'm saying?

Wake up; I'm trying to bring you to the real world. And when you go and multiply double, if your economy doesn't increase double also, then what you're going to have is poverty. Because if fifty million people, and your standard of living, your economy is balanced, you have maybe a poor class but you know how they say, "we only have 8% unemployment rate. That is people who don't have a job, they can't earn a living, but we have enough, we give them national assistance, we have something provided for them too, a safety net to help them so we don't have any vagrants on the streets, we have a good medical plan, we have these different things, national government service, they could go to and get help, that they're not paying for".

When that fail to double, then you get more cars on the road, more people now buying cars, one man have two cars and one man have four cars, one man have a fleet, one man have different things. Then the man who used to take half of an hour to go to town and come back home fresh and nice after work, now he's spending two hours in traffic jam and when he comes home he's worn out. And before he could fall asleep, the clock alarms he has to get up to face the traffic jam again to go two hours back the next day in the morning.

And pressure start to come on the nation because they didn't build any road system and they multiplied, they increased, then the unemployment rate went up and because the government had corruption during that time, their agriculture wasn't structured. Brother when rain hit them, they have no proper drainage because the Ministry of Works and all those 'ten days', men only liming and playing cards and hiding and coming and collecting pay and all kind of phantom people existing and different things. So one little flood, brother they lost everything. And because people don't have toilets in their house, all kind of things they have to spray and

all that waste in the sewer, rats start to run, disease start to get rampant, cholera come up, diarrhea come up and brother they breed mosquitoes, dengue, malaria, all kind of things start to come up. Why? The system, the judgments of God.

I want to bring it to you and show you it's civilization. I want to show you the things we're looking at in the Word that you're seeing happening around you, you don't see that in prophecy, you don't see that in the Word. You see it as, well and then election time they pass in now and everybody bamboozling and you will fix this and who will fix that road and who will do this and then a bus here and then they have Tassa and they have this on the other side and then they have Steel Pan on the next side and...see. People get caught in all that foolishness.

But watch, watch here, look you see this and look at the age we're living in and look at the eagle saying come and see so you don't get caught up in what looks nice, because hell and death isn't really looking like hell and death you know. When you see hell and death, Satan, Lucifer built a more beautiful kingdom than Michael. His kingdom is featured in Science and civilization and education, it's an outward beauty. It's of the tree of knowledge, it's man living by wisdom and not by faith. His denomination went and lived any how and don't even see they're worshiping the god of this evil age.

You're sick and even trapped, blind, wretched, naked, miserable and knoweth not. Souls That Are In Prison Now, is what it is but you're not seeing it yet, you might----with one of the four horses of death, the four horses of death ---because I want to show you how those horses got judgment is these four horses of death, sword, hunger and famine mark these judgments, four severe judgments. It's one rider riding all. He'll kill you riding that white horse, he'll kill you riding that red horse, he'll kill you riding that black horse and he'll kill you riding that pale horse. Which ever way he chooses to kill, so he can go on undiscovered, he'll kill. Life comes in one form but death comes in many forms.

Turn with me to Matthew 24. How many knows that the same Seven Seals are over in Matthew 24? Well then since you know that, Matthew 24 is where everybody goes to read about the last days and what will happen on the earth so it's best that I read that too so it would help quicken life to your thinking a little bit. So

when that population explosion started you know what begin to happen, they have to find a way to grow more food and that is where science tries to make the science of the hour with hybridization. Do you know what hybrid food does? Kill us and make us a week race, because food makes blood and blood is life, and when they begin to mix the food and try to grow it at a faster rate and they breed the chicken only for thigh and breast, then they breed some for wings, then they breed some just to lay eggs, those are layers. Because science begin to alter God's creation.

Now, that was back in the early days, now the big science is genetic engineering and biotechnology, that's the big science today. Now they're creating their own food, they take a tomato and they mix it with a potato and you get a totato or whatever it is supposed to be. Now some of you laugh because you don't read science magazines. Some of you laugh and...all those big set of things, nice and ripe on the grocery shelf and things that come down and they have those dates marked out and you start to feel safe. You better put those date to, otherwise they get soup cleaned out of your business, see. Because it is all made in a laboratory, because they had to find a way to get food to feed the people because the world has a shortage of food.

Mass famines, people are dying, you see because we don't have a knowledge of statistics sometimes, millions, hundreds of millions of people die every year of starvation in the world. It has countries who don't have any real drinking water. Some of us who passed forty, we don't know anything about buying water in no bottle water; where all that came from? You see they selling it nice and new, they present it in a way to make you think health conscious, not the world. That water there is not even fit for human beings, you know it have bubbles that come out sometimes? You ever wash your white clothes, you have to wash it about three four times and bleach it? Then if you have to use Clorox to get it out of your white shirt, what you think is getting in your system when you're drinking it everyday?

You think the drug man who fell asleep and the woman in the village who visiting him in the treatment plant, you they have to tell WASA all their problems over and over what comes through to your pipe. But you grew up cultured; open your pipe and just take, because what eyes don't see it doesn't bother the mind. Find a

dead man, some dead animal up inside of there, next thing you know this break out here, people getting rash in their skin. And because the country is so undeveloped, brother you can't even get a doctor, you go in there, all kind of things on your body, you can't even see about a sixty dollars, especially if two, three children get it in your house at the same time so you're trying to think of what granny used to use, what bush was good for that. Because you can't face the doctor to get no science business; it's money, as you walk in the office. And you have a little faith, that is something else.

And then sometimes in an age of glutton where everybody eating and drinking, eating and drinking is natural laws but in the last days they will be eating and drinking, speaking of gluttony. Then those prayers does get short, faster and less sincere form the time that food start to smell because if you eat the food fast, it get cold right on you. Because it's frozen food, in weeks in some plant, take some days to drive it in some truck in a container, get up in a next container and stay in boat, take a little while before the boat can get to the Caribbean, then they offload it and the they clear it, then they bring it to the supermarket and they put a nice price and then they advertise it and everybody run up with their card and they carry it home.

And they say, "boy I tell you, Price Smart is really something else yes, boy I... in the States now, life get better". Come up with your big trolley, see, because there is no consciousness. And then a man picking his bhagi and his carallie of his fence and you kind of scorn him and look down like he isn't eating good. And you have the piece of lamb that is about eight months since they killed the thing, end up in so much different port from New Zealand to Trinidad because it have no direct boat coming here. You understand what I'm saying? But they have it presented in a way, it's kind of glorified, so they tell you progress, life coming on another story, we're going on the upper level, we're in the twenty first century.

It takes a lot to bear with me you know. I really have to be thankful for a people like you, amen. Verse 3, let's read quickly, Matthew 24. let me touch in, I want to make it real to you, see!

*And as he sat upon the mount of Olives...*

Now what we're comparing, we're comparing Ezekiel 14, four judgments in the time of Babylon----- with revelation 6, the Seals, showing you how it came up to Seven Church Ages and the last days. All four judgments is going to come together and then I'm comparing the Seals also here now in Matthew 24. That's the Seals in symbol form, here is the Seals in written form as I give you the type in the Old Testament. Amen? And I'm bringing that to show you through the message where we are.

*And as He sat, they asked Him privately saying,  
Tell us, when shall these things be?*

He was talking about not one stone will remain standing in the temple. First question. Second question,

*...and what shall be the sign of thy coming?*

Second question, and third question,

*...and of the end of the world?*

Three questions they asked, when shall these things be? Not one stone will remain standing in the temple; second question, what shall be the sign of thy coming? And the third question, and at the end of the world? Now watch Jesus here now.

*And Jesus answered and said unto them, Take heed that no man deceive you.*

*For many shall come in my name, saying, I am Christ; and shall deceive many.*

First Seal, white horse rider going forth, deception, a bow and no arrow, deceiving, conquering and to conquer, First Seal.

*And you shall hear of wars and rumors of wars...*

Sword, bloodshed, war in the earth, taking peace from the earth, bringing war.

*...see that ye be not troubled: for all these things must(M-U-S-T) come to pass, but the end is not yet.*

Third Seal here, watch.

*For nation shall rise against nation(Second Seal), and kingdom against kingdom(your wars, Third Seal): and there shall be famines,(and, conjunction, your fourth Seal)and pestilences, and earthquakes in various places.*

White horse, red horse, black horse, pale horse; war, famine, pestilence, watch these things moving in the earth. Jesus is saying it, in the book of Revelation John is giving it in symbol form, in

the type in the Old Testament, God is saying, the same way the Gentile dispensation is coming in, the same way it is going to go out. Watch it over there also. Verse 8,

*All these are the beginning of sorrows.*

My! Let's stop there a little bit. These four horses, many times we think of these four horses, we only think of it in a way that is sort of a little superficial way. I'm trying to bring it to you in a way that you can see it with clearer understanding because it is four powers that is operating. If I could call the events for you I can show you in the earth where millions of people are being deceived right now. This morning, sitting in a church, obeying a past hour, listening to some dead carrier and a buzzard sitting down there and some preacher is deceiving them telling them that this message of the hour is false.

Millions of people professing Christianity, millions thinking that they are spirit-filled this morning and is counted fodder for this atomic age. False prophets rose up that came after the true prophet and trying to contradict the true prophet in these last days. Is that right? It shows you where there are wars in the earth. Kings have give their strength and their power to the beast. Dogs of wars that Rome is working for political will, through conquering nations, bringing war, devastation nations in the earth, breaking them.

Look at what just happened there recently, last year when they had all those people from Albania and them places, running for their lives, refugees move in and begin to destroy people left and right. All that war in Europe and Bosnia where they had systematic raping of people where around the United nations went in, saw the camps, saw how they were breaking that Muslim power, saw how they were destroying their homes of those people, rooting them up, having them on the run and the world standing back and they're only talking, unseen, and they're only talking, talking, talking, talking and nobody going to stop the thing.

And the United Nations went in and the man was still carrying on with those things in the midst of all what they are doing. Then just here, when the time come, he got on a plane, he took off, with a few of his aides and takes off. And you read the Bible and you see exactly how those things happen all the time.

Then you go to famine; how much people in India, in China, in Africa, in Latin America live on the streets homeless. And I'm not just talking; I've been in these countries. When you land in Bombay in the airport and you drive half of an hour, about five, ten miles to the city, and we got in there maybe about five in the morning, about six, the place was full of activities already. And you're seeing man sitting down normal on the street. From there is one slog, you light one match, it's cardboard box, it's different old boxwood and everything. It will burn and race that thing for miles. Nobody have any sinks, nobody have any toilets, nobody have any running water, nobody have any place to do anything. Everybody's doing things in the street open just so and you're driving passing for miles and this is a line along the road. People live in that kind of poverty.

Went down into Peru and certain places I turn right here, three o'clock in the morning people on the streets living there, poverty, no where to go. You go into Africa and those places when brother Sanchez bought the shoes for the boy, the mother come and begin to bow down to almost worship him because the boy got a pair of shoes. He saw the boy with one suit of clothes, take it off and jump in the bed naked as he was born and get under a cover to sleep. We couldn't go in some places where these people had piece of bark over the thing, over their body.

When you think of famine, widespread famine, and then this is natural famine you know, then you have the famine that is caused by war, when they're flying plane loads and plane loads of Rwanda refugees and all those different civil wars and people dying left and right, and people dying by the thousands everyday, sick and everything, delirious in their mind, running because the civil war, fleeing, looking for a place of refuge. Same thing, going to jungles where they're just trying to run, to hide from being slaughtered and get in places where there is no food, no water, no nothing after two three days, delirious disease everything because when they begin to get weak, they're dying of starvation but then pestilence take you.

When they have those make shift camps, they get a piece of bag wire because nobody wants to take them in, in a city. So they fence around a big place, put them there and wait to fly plane load of food and different things and they ration it out to them, water,

people coming to give them glucose shots and different things, trying to build up their resistance. Because one person gets sick, it's widespread epidemic. But how you hardly hear about it, you know why? It takes up a little space in the newspapers and the whole sports page will have how much Lara make, how much fours was in the innings, how much different wickets this one took.

On the next page they tell you about the baseball and the next page they tell you...and then a whole page tell you about the comic strip to make you laugh and then a next two three pages full with advertisements because they are paying to keep the papers alive. And then the news, they give it a two minutes---because nobody wants to see images of terror, it will get their children upset and their will cannot sleep in the night so they have a twenty four hour sports channel. And nobody knows, and hundreds of thousands die daily because there's a way to keep people in a false world, they manipulate a system because it's an age of deception.

Wake up into the real world; see what the book of Revelation says. See when you read those little scriptures there and we begin to open them in the Bible, see what God is talking about. Ebola struck some years ago, have everybody so scared because they have no medicine for it. Right now, a couple of days ago, over a hundred and thirty had already died from ----in Uganda. AIDS...they get every great personality, from Magic Johnson all the way to Elizabeth Taylor and Michael Jackson and all of them, trying to promote AIDS consciousness; because man dying left and right and in Trinidad and Tobago they have one of the highest rates in the world too.

Pestilence, God said it's going to ride and God said a quarter of the earth over a billion. When you take the toll and you tally, it's famine, pestilence, sword, and let me tell you, when a nation is at war, when a nation is at war, what you think does be happening? You see those planes flying in, like when we went to the Congo and we get down in there, all those soldiers stand there, they bathing with a bucket of water out all around the airport surroundings, you know, because they have to...if a war break out you want to secure your airport. So any help coming to you could land there, and food and ammunition and backup support could come there. Then around the main thing like the communication system and then the main resource like the oil refinery or whatever

they have, their diamond mines. They put their heavy army units in those places with the heavy artillery. Because you know, you take that, you take the country. You don't have to try to take the whole part of the country that don't have anything you know. You take the things that run the country, you take the country.

That is why a blood clot get in your heart does take you out rather than your whole hand eaten with bugs and fleas and you have to get a tetanus injection and different things, no. because you could still live because your organs are still functioning, you could lose this hand and still go on. It have a lot of one hand people in the world doing far better than two hand people, see. So the thing is, you take the main things that cause you to operate, you have control. And when you look and you see, in these last days how these things are moving in the earth and have fail to see and to recognize these things are so wide spread, these end time signs and the eagle was saying come and see how pestilence will devour the earth. come and see how the wars and the rumors of wars going to take place because Nimrod was the first one to go to war, to conquer the world and ended up bringing everything to bow down to him.

The Bible said, who is able to make war with the king of Babylon, with the beast. And when he starts economic war, media war, hot war, cold war, industrial war, he's breaking on a large scale. And this eagle is saying come, I'll open the Seals and I'll show you when they begin to ride how they unite those powers and reshape the world and I'll show you how he'll cause craft to prosper, I'll show you how he destroys the mighty, I'll show you how he breaks the present day money system, I'll show you how he will take the holy people, I'll show you it in the Word. That eagle was saying come and see. That's why when the Seven Seals opened the Book, we have a message that is far more advanced than every magazine, than CNN, BBC and all these things here. Not just giving the propaganda they put to mis-educate the masses but show us the reality behind it. That woman Jezebel bewitching the nations with her sorceries.

And that's why I said, do not sit down in this church with an inferiority complex. "I think that can't be so and that can't be so and you know..." You sit under the Word and you watch the bible and when you are in the Word then heaven and earth will pass

away but that Word will not pass away. Because remember we had the other day that you count it worthy not to be caught in the snare which shall come upon all the world.

Listen to this, on a message called Expectation, Long Beach, California. He had went to California and he was going to bring a series on the mark of the beast and the Seal of God, and so he's kind of building up for it and he said, on Expectation he's trying to build up people expectation which he was preaching a message called Expectation. He said, "maybe this coming week, next week rather, if I will..." he had just finished the Church Ages in his church and he went out to California. He said, "I just finish before it started this year's tour at my tabernacle; I finished the series of the Seven last Church Ages in revelation.

"And maybe the Lord's willing, I'll like to take next week on the Four Horse Riders of Revelation. See, the book start to open to you. Remember; catch this now, when John Kennedy was elected in America, after that election, that's why we're at the point of a very interesting election here." He said, "the Holy Spirit spoke to me and said now is time to go in the book of Revelation, the church must be kept under the prophetic utterance of this hour."

You find that on the Revelation of Jesus Christ when he started. He preached that in December '60, the election was November 1960 and John Kennedy, first Catholic president had come into the White House. And he said, "Jezebel wormed her way, she's going to swing that nation to its destruction, to fulfill prophecy in the last days." And the Holy Spirit said, "Now, go to the book of Revelation" and he started Seven Church Ages. Because out of the Ages comes the Seals, out of the Seals comes the Trumpets, out of the Trumpets comes the Vials. Because the Book is sealed by Seven Thunders. When those Thunders utter their voices it will open up this Book wide before our wondering eyes making us ready for the coming of the Lord.

So he goes up to California, he's preaching to his church and he sees, while he is preaching that there, God opened the Bible, God took the modern events, God show to him those things and he began to see things inside the scriptures. He said, "and I'll like to take next week on the Four Horse Riders of Revelation and give a night on each horse and each rider what it represents and the time that we are living in. I think that we should all be warned of the

things that are coming. That's what the church today lacks, it's the warning of making ready."

You go around and see plenty churches sleeping, slumbering. That's why Paul said, "redeem the time, awake thou that sleepest, Christ shall be the light. Awake, it's high time; it's nearer than when we first believe." He said, "I come to you, awake the church for the coming of Jesus Christ." He said," they say, "fast and pray, fast and pray, send a prophet". He said they missed the awaking of the Bride, those Seven Thunders is to? Wake up the Bride. At midnight there was a loud voice, behold the Bridegroom cometh and they who were slumbered awoke and trimmed their lamps and went out to meet the Bridegroom and they that were ready went in and the door was shut. Is that the Bible? Is that the hour? Is that this message?

When you look in your life and you see you just lukewarm, you're not understanding. Are you one of them foolish virgins? Is it because you don't have the oil? Is your lamp really trimmed? When your light not shining bright and your lamp shade all smoky and the light can't reflect, and your testimony has no effect; then which group are you in? The one that's going in, or the one that's going to get left behind. Both went out at midnight under that cry. Amen?

That's why you watch your attitude. You watch your heart beat. You watch the things that have the pull on you. You watch whether you have expectation. You watch whether you're looking for these things. You watch you prayer and see what you're praying for. You watch and see if you can get in that Word, or if it's hard to get in. You watch whether and see if you're hearing from God because remember God came down in this age, God is talking you know? God is fellowshiping with people, God is opening truth. This is the age of revelation, even in the natural realm in the last days, knowledge shall increase. They that know their God shall do great exploits. This is the age of awakening and awareness. He said, that's what the church lacks, it's the warning of making ready. I believe already the church was in better condition forty years ago for Christ to come than it is today.

Let me tell you, I know many believers who were in better condition to go ten years ago in this message, twenty years ago in this message. Twenty years after, who got into false doctrine, who

got into personality cult, brother who backslide, who can no longer press the battle, who don't have the hunger no more, who brother when they were so desperate back there and they would live for the message; today they're entangle in the affairs of this life. Because in their heart they say, "my Lord delayeth His coming, the prophecies are many days off". Trying to climb up the social ladder, get deeper in the world, looking back to success in a world that is already judged. Don't know what it takes to go beyond the camp, cannot make the total separation from all unbelief and live by faith.

Noah being warned of things to come moved with fear and prepared an ark for the saving of his household even before he saw the rain coming and he says the Lord make haste. Wednesday the Lord, coming we'll speak on these things. He said, 'a minister cannot bring a revival, there is no preaching that can bring a revival, he does not pack it with him. And the only thing he can do is just be loyal to God and His Word, and the revival has to come by the people. In your home, in your lives. Now the revival is not adding new members to your church, it's knowing that's what we already got. To revive means to bring back.'

Then comes the next night, he says "I was speaking on the spirit of expectation a message called 'We'll see Jesus.' Tonight I was going to pray for the sick. Now the coming part, we want to start an evangelical service, this type of message maybe; 'The coming of the Lord, The mark of the beast, The Seals of the Lord, The hundred and forty four thousands, The four horse riders of Revelation.' This coming week hear what I want to do, watch friends, watch the cycle we're coming into. Look at the hour we living in, the king of Babylon has gone to Jerusalem. They began to lay siege, think of it.

They're letting them play themselves into a place where they're going to bring so much pressure on them. They have to bow under pressure and give in and compromise. When Moses and Elijah come they are in Roman hands. Just like when Moses came he was in Egyptians hands, he got them out of that and called that into reality.

Friends let me tell you, the day will come when you won't have these types of service. These types of services where you can sit down and get down into the Word and hear the preaching of the

Gospel with purpose, with objectives with reality and with clarity. You might end up sitting down under some lukewarm, social thing. If you don't appreciate these things and mix the Word with faith and preparation. Remember when you hear the Gospel you either get closer to God or further from God. It has no in between and you can't maintain that place.

Get in the spirit. The Word is coming to show you to get you ready, to convince you. And if it convince you, you will be concerned, make you certain of God. He said I believe those messages are what? We got to get to the people to wake them up, shake them. He said I believe these messages of the Seal of God, the mark of the beast, the coming of the Lord, the hundred and forty four thousand, the four horse riders of Revelation is what we need to get to the people to shake them to wake them up. What was going on in the earth and people don't know.

They don't know how far advance they are, how many scriptures is being fulfilled and with such rapidity they can't even visualize that. Because their little minds, as I always say, you live in a world about eight miles, you have about two, three or ten people that influencing your world and that is your world. You live your fifty years and you never went beyond that little circle of your world. And you fail to see what God did, what God is doing, where you need it to be, what time it was at. And that's why you examine; you look at things through the eyes of the Word.

He said, "Now, let me warn the people again and again, don't expect the last shake of God in the church to be a universal thing. It isn't going to be, it's to the church. It's the great things that will happen with the people in the little minority. That's the little group that God shakes to get ready to go, gone anyhow, see? Now that's scriptural and Bible." He said, "now, when these things are being revealed and this shaking, this awakening comes, do not think the whole world," in other words, carnal people like to say, "well if this is truth, how come, you mean all them people will be lost, you mean all them people not seeing it".

That is where carnal people lives because they not looking at the Word and what God said and the hour and the identification and these things. They are looking because they don't have faith, they following people and they figure the crowd is the majority and the majority is right. That is how they think carnal. You say,

“Brother so and so believe that”? You still hear it today in this message thirty-five years after a prophet came and went. They say, “That brother believe that”? If he don’t believe that, it can’t be right. They read his name in a book. Because in their little world, that man impresses them that he is authority after the prophet. They’re not talking about what the prophet say you know. They’re not talking about what prophesied in the Bible.

Because their minds can get it fine and they know Jesus ordained seventy people, say nice things about them, give them power to go and do great things in the earth and then the same people walk away. Moses, God took the spirit off of Moses and put it on seventy who did not go in the land. You see the carnal that does can’t see that far so they’re trying to find security in something in their mind they think well, because that was said so. The Bible said, Jesus look at the rich young ruler, loved him. You get what I’m saying?

They fail to see a Judas was chosen, foreknown of God, taught in the scriptures, given part in the Holy Ghost ministry but fell that he might go to his place. They can’t see that far.

You don’t look at man’s flesh, you look at the Word, you look at the identification of the Word. You see sometimes people have little inferiority complex, “well we down in Trinidad down here, you know we can’t do nothing you know, we just come right after the Caribs and the Arawaks”. They fail to realize the Holy Ghost, the sovereign God came down in Nazareth, took up a little virgin; he kept a little virgin inside that mean wicked city. God went by the sea and got a fisherman, God got a ploughman in the time of Elijah.

They don’t read their Bible concerning the weak things, the base things that are nothing that God took. God gets so, brother, radical with Moses; he said what kind of nonsense you talking with all your education I’m trying to beat out of you. What do you have in your hand there? That dry stick? Give me that, I will use that. And God took that dry stick, dry old stick, if you feel I can’t use you, I will use your stick. Amen. You think God needs a theologian with degrees to plaster a wall? God just needs a surrendered heart, amen. When Samuel going to pour the oil on Abinadab and Shammah and Eliab, Holy Spirit said, not my oil. Amen, yes sir. And the one that was rejected and put aside, he said,

bring him here, that's the one, pour the oil on him. He said God don't look on the outward of a man, God look at the heart of a man. That's right brother, you have revelation, you listen to any little brother or sister you see sincere that God can reveal Himself to them. Amen.

Look at the prophet. You know why he was rejected? Because he was a hillbilly, he couldn't even talk right, he didn't go to any Bible school, that's why he was rejected. Because doctor so and so, he said, "all of you men could plaster your wall with your degrees, I listen to you, stand up here and say what school you went to and different things and how much qualifications you have." He said, "Bring your Bible and stand here." Amen. It's not how long you're in the message of you hunt and fish, bring your Bible and open those things, amen. You'll know where the oil is, sure.

Sometimes you have people put you on a microscope and then they open up themselves to all kind of pollution, garbage, rejects in the message, everything else, and trying to get reverent under it. Exactly right. Because their little third world mentality, their little inferiority complex, they sit down there, their little prejudices. Because it can't be them, it can't be anybody else, have to be somebody away. The Word is the Word. You take the Word and you walk in it, amen. Because it's saying what the Bible said, it's God saying it. He said, "long ago a pastor of a certain great city came to me, he said, 'I'm getting old, he said I've been here twenty somewhat of years, and we have had some of the most powerful meetings, it was Chicago at.'" He said, 'and I've longed brother Branham, I've come here and had a prophecy from the Lord, if I'd come here, I would say the mighty hand of God shake this place before it's time to leave'".

I said, "Brother Joseph, honestly, I said you are a great theologian and you are a great man, a doctor of divinity, there's no doubt about that, I couldn't touch it, but I said, but my precious brother, you have some poor spiritual discernment." There is where the church is missing it today, there is where the church is missing it today, it's that spiritual discernment to see what God is doing. And they look way over the top for something here that's going on right here and it will be pass you even before you know it. Did not Jesus say, about John, the disciples said, "Why it is the

Scribes and Elias must first come”? He said they already come and they didn’t know it, that’s it.

“They never did know Elijah was a prophet really, but just the church. They wouldn’t have treated him, wouldn’t have called him baldhead and carry on like that. They didn’t know it. They didn’t know that John was really truly the prophet of God, they thought he was some crazy man out in the wilderness trying to drown people in water. But he never did go in the cities and thing; he stayed out in the wilderness, odd, peculiar. They thought he was a fanatic the way he dressed, but the church, the called church that was called to see that, they recognize right quick that he was a prophet. They didn’t know Jesus was the Son of God until He was dead, buried and rose again, many of then don’t know it yet today, it’s true, they don’t know it.”

“The Catholic Church never fail, never did accept Saint Patrick... in all Northern Ireland, he protested the Catholic bishops and now they made him a saint. Why did the Catholic church burn Joan of Arc, crying at the state, because, said she was a witch, the girl seeing visions, she was a servant of God.” He gave about six examples. They couldn’t know John, they didn’t know Jesus, they didn’t know Elijah, they didn’t know Saint Patrick, every time they never know it, never know it.

He said, “Don’t feel it’s a great universal shake, it’s the elect going to get this thing. Because remember the whole world is deceived except the elect. Look at just in this little series here preaching to you, taking that Fourth Seal and trying to open it to you so that you can see.” Like sometimes people sit down there with their church mind and church understanding, you know the Fourth Seal, they’re living right in the very age and they can’t make head nor tail about what it is here. And you have a five hundred and seventy-five page Seal Book, see.

And yet the Holy Spirit promise to make the think plain because you have to make it plain so you don’t get caught back here Comes among them and begin to make those things plain and they sit down there and they surmise in their heart and kind of wonder. And looking for some little thing, and here is the very Holy Spirit taking that Word and making it as plain as plain can be and the modern events making these things as clear as clear can be.

Bringing the presence of God close among the people to give them faith to rise up.

And some people, you preaching to hundreds of people everyday and you watch and some can't move into even a percent of what you're saying to be real. Yet you seeing the Holy Spirit bringing from fifteen, twenty different sides just to help them, going everywhere, and say, it seems like the...lady your name is so and so, lady you worked so and so, lady your husband so and so, lady you have so much children, and they still there. "How he know that, maybe he figure that out, I think is my neighbor told him, you know, because I hear she had an interview with him the other day, maybe it could be that". And they stand up there, and the man getting weak, "take the man out of the platform", and she stand up there still scratching her head, about fifteen, twenty visions.

You hearing this message, that message, this message, this message, showing you your place and you can't even move into that bit of faith to walk into your promise. And you sit down there and you say, "really and truly, you that's in the Bible, you know it's right what he said, I really found the quote, you know that was right inside of there, it never seem so but you know I really realize he was reading that from the Book too. Sure it's right, but where you're at? What's it doing for you? This thing make me come back to church charge everyday, this makes me leave out the service even more charge and come back in charge and go out the world charge. And when all hell come against me, it make me stand like a rock and make me want to shout, say hallelujah, thank you Jesus, Lord you're worthy, amen. And say, "though a host come against me in this, I'll be confident because the Lord is my light and my salvation, whom shall I fear, this is the strength of my life," yes sir. My!

They'll never know it till it's past. Holy Spirit giving the church its last call now and doing exactly what the Bible said it would do and the Pentecostal people are groping over the top of it. Oh my! He said, oh, don't do that please, he's talking about those Pentecostals, he said oh, he said the Holy Spirit giving its last call, he's doing exactly what the Bible said. He said, and you all missing... he said, oh, don't do that please.

Yesterday, preaching in the wedding here, see the Holy Spirit come down in the service, lay that Word into such a place, brother Baptist, Pentecostal, this here, unbeliever, box them in, not a man could move. People came out the service astounded, astonished. But yet, they're in a dark hole as dark can be. You think they have any desire there for that Word to wake them up? They crawl right back into the old dark basement of some creed and dogma and sit there and be religious, sure. That's the hour friends, that's the time we're living in.

And that's why, he said, "oh brother," he said "you're a great theologian but you have poor spiritual discernment, you talk about this great thing here." He said, " look, right here the rapture will be like that. There will be the tribulation and they will say, 'wasn't there supposed to be a rapture'?" He said, "it has already taken place and you didn't even know it, because you didn't even understand how that thing was unfolding and passing right there. Except you have the token to examine," he said, it would pass right through you. Except you're in the spirit of the composer and the rhythm of the Word it will just be a bunch of rattling noise." Think of it

You want to say, "Lord, I might be a young man, I might be a young woman I might not know that much but that encourage me because I realize I don't need education to understand this, this is the Holy Spirit and you want to give that. God reveal to me, let me walk with that conviction, it don't say anything have to be any certain age, it's no X-rated business that say "mature audiences". He said, feed my sheep and feed my lambs Amen. He has a pull to them. Because he knows he could have them to young and old inside of there and he have what it takes to get you ready to go friends and you don't want to miss that by the grace of God.

I'm running out of time so just let me give you couple quotes quickly. I wanted to show you how in this age, these things are breaking forth, wars and rumors of wars, we've had that, 1999, when we come to the year 2000, he said this entire last century, and the nineteenth century to the twentieth century when the industrial age came on and fill the earth and destroyed the world with all their science, after World War II science increase. Within seventy-five years man was from a horse and buggy to a motorcar,

an astronaut rather, went on the moon and everything else. And listen to these last few comments as I close.

They realize, they say this century the most predominant thing was war, was war. Because the world had went through World War I, they had never known that kind of war with poison gas, and when they thought poison gas was something, by the time they had World War II, they had the atomic bomb. And then after when they went through the era of the Cold War, which is an era called the Cold War, not even the hot war, they get a hold of nuclear weapons. And all those nations with nuclear power had in their arsenal to destroy each single man, woman, boy, girl, child, dog, cat, millions of times over in arsenal each one of them. And they're talking about disarmament.

Talking about the world needs its peace and then they come and they take a few old rusty tanks and different things and they change it back into washing machines and household appliances, beating the sword back into ploughshares. And then they keep all the...they say, "O.K, we're going to dismantle all our chemical weapons and our biological weapons" and they say even though they say that and they sign treaties, everybody's stock piling more and more and more. That even just ten years ago when they went into the Gulf War, Saddam Hussain had the whole laboratory full. The media cover it down, they come back and up till today Americans soldiers still have diseases until they can't get rid of that was loose upon them there.

Pestilence, listen to some of the...I give you one or two quotes here and close to show you what I'm talking about. You think the prophet didn't speak of these things that's coming? I want to show you that those four horse riders, it is four, I call it four horses of death because it's one rider riding the four horses and the rider was named. He was killing spiritually in the first age because the first promise to the first age is what? Who knows the first promise to the first church age? To him that overcometh I will grant to eat of the tree of life. Why? Because the deeds of the Nicolatanes, they had already eaten from the tree of death. Just like the serpent deceived Eve and beguiled Eve when he preached another gospel, another Jesus. And she ate from the tree of death and he broke the unity between God and man.

The fourth age, Jezebel became drunk with the blood of the saints and martyrs. He said, "You kill them? I'll kill your children with death too." Sardis, He says, "you have a name that liveth but you're dead." See. And watch how God goes on friends. During those things, when we come...when the Seals are open we realize these horses, they are always there all the time. All those four horses are always there. Because once you have religion you have politics. Do you have an age you didn't have politics? Did you have an age you didn't have religion? Sure. And if you have false religion you have spiritual famine, you know that? How many knows in the last days theirs is going to be a famine, not for bread and water alone but for the true Word too?

Famine get compound in the last days. You know that? How many knows that's spiritual drought in the land? He said when they rejected Elijah, what happened? Famine, depression and war, and he said you watch and see what is going to follow the rejection of this message. And what had struck the world, famine, depression and war. That's why the death trap was designed to catch everybody in the death trap. Because why? There is depression and people really can't work and can't get paid for what they working for and they can't even have enough money to live off of what they really need. So they open a way to give it to you but trap you and own you in the process. Pacifying you while you're having it, thinking that is real good. "I will pay it off" and you're spending money you haven't work for yet.

Tell me how they trapped America? The same way they're trapping individuals, they trapping the region the same way. It's one way friends, in the Bible. That's why; as I say, when those Seven Seals are open and you look at the Word, don't think of the Word like church and religion. Remember that's why the prophet was needed that we can see the age, we can see the hour, we can understand what's happening. Wake up church, Third Exodus Assembly, wake up and run for your life. Don't sit down here and get fat, fat, fat, just trying to feed and get intellectual and all educated. And that's why the Holy Spirit said, "Get up, my house is filled but my field is empty. Who will go and work for me today?"

...we have one more day then we leave there for St Vincent and God help us that we can really get out there and affect people with

an urgency, with a desperation, with a reality where the spirit of God can come down and move among us and people can see the presence of the living God in this last day message shining bright to give them a hope and to know that the coming of the Lord is at hand. And that's why when I stand here I try to not waste my time and preach the Word to you, sometimes I hold you long, but you know why? When you have people living Guayaguayare, living Cedros, living different places, Sangre Grande, even Caranage to come to hear the Word. I don't want to play around with you friends; I want to give you something that could help you. I want to sit down home in my study there. That's why sometimes I don't have the time to run here with this one and run here with this one and talk here. Because I have to stay in the Word day and night. I'm trying to get the message; I'm trying to get the right thing. That when I come here, I just ain't talking out of my head, I can give you something to drive you to a closer walk with God, to get a greater grip on God in your life.

Attitude and who is God, listen way back in the fifties here. He is praying. He said, grant it Lord that something would be said or done that will cause the wayward to turn to Christ. For we believe and we feel pressed in the spirit that great judgments are upon these lands. He said plagues, diseases, germs, already bred up to be scattered throughout the nations. No doctor, know, even know how to take a hold of it. Oh God, we'll have to believe in divine healing then. When nations are breathing germs together to burst them in bombs and millions die in hours over it. I told you pestilence, most of those plagues that they have that weaken the nations, many of them was bred in laboratories, that is where they originated.

I want to show you how that famine, that war comes and then famine and war rides together. When you have war you have famine. Look in the Bible, every time they lay a siege around the nation, it brought a famine, shake up the economy. Because when you have war, you destroying the industries and the installations to weaken the nation and get them to buckle under you. Then that putting people in the bread line, that pushing the nation in debts, that's destroying people homes, putting them into poverty and they could hardly support their family; that polluting the drinking water.

And when you have famine and starvation then pestilence rise right there. Because when you start to starve you get under nourish

and you get malnourish. Under nourish and malnourish are two different things you know. One place you're not getting enough to eat, one thing you're not eating the right thing. Like in Asia, they say everybody eats a bowl of rice but a bowl of rice, you can't really live on that but that is what they can afford in those countries. Prophet said we scrape more in our dustbins and people are dying outside there. He said you go to those countries, leprosy eating up people, they're by the road there, they looking for some little handout to eat, they're eating out of garbage cans, he said we are scraping all those leftovers.

He said, the ones who went on, "Patrick Henry," he said, "how you can stand like that?" He said, I don't take a drink of water unless I give God thanks for it." You see people, they live their life anyhow, they waste this, they waste that, they waste that, a kind of waste mentality. Brother every time they brush their teeth and the water fall, running out the pipe, and they stand up there with their toothbrush and the water running. And they're going to bathe and they're soaping and the water running running; waste mentality. See. They don't know where it's at. This time people dry and countries can't get a drink of water, drinking out of a drain. Some places people have no rainfall, they can't get rainfall. See, unconscious, don't know where it's at.

You say, "well, I won't bother to eat, I haven't seen see any meat, I'm vex". Some people eating rats, they're eating different things to survive in their country. Sit down there and say you're a Christian, Christian what? You go to church. You scorn food, people scorn food. Some people are racial prejudice over food to save you and nourish you. You could imagine people minds are so warped, wait until you get hungry. In the Bible they ate one another children, they ate one another children; the most holy people, the Jewish nation ate one another children to survive. Don't be manipulated and exploited, you're a Christian, get washed in the blood, get your thoughts pure. Get in the Word and get your soul raised up where you could walk with God and know the reality and be thankful for what you have. And in everyday you raise your hand and give God thanks that God provide for you, amen. You want to serve Him, amen, because He is the one who gives rain to grow food, and sunlight. You know why? The day is

coming when the water will return to blood. The fish will die and stink.

Look at Egypt, big pompous Egypt, enslave God's people. Politicians said, we'll deal wisely with them. They broke their spirit, make them work with rigor, they bring their taskmasters, the new breed of executives to destroy the people, put pressure on them, work them, make them a workaholic, get them away from worshiping God and make them a slave to build the system to glorify their manmade wisdom. It's what they did in the first exodus, what they did in the second exodus, and what they're doing today again. Some people don't have any job. "My job, my job" you better say thank God that God gives you strength, sure.

Brother let me tell you, he said they breeding plague, germs to be scattered over the nation to burst them into a million---when you see...you count the cost in wars, you count the cost in wars, you see five hundred thousand soldiers land there, bombs, plane, tanks everything and they go to war with a whole arson, a whole army. And they position them strategically against the enemy; they're trying to take certain territory. You can see that, you can see the potential of the threat. When that war is over, they may kill about two thousand, they may have a cease-fire, in one night you get pestilence, and you get an epidemic and you get millions dying a week by something you can't see. You get what I'm saying?

You know what wipe out all the Caribs and all the Arawaks and all the Incas and Mayas and them, you know what wiped them out? Chicken pox, they hadn't that disease here, had no immunity to it. And you know how it came? Blankets they brought from Spain, European disease. They gave them blankets-----infectious disease, contagious disease, widespread, they couldn't even build up their immunity towards it; millions die like that. Influenza followed World War I and over seventy thousand I think died, up till today they don't have any cure for a common cold. They realize antibiotics are not killing anything and never really killed anything. I have those things, I could bring it and show you, don't waste your time with that. I'm trying to tell you something.

The prophet said, it come like the rat eating your house, rats eat down your cupboard door, get inside your cupboard, you know what you do? You put a rat trap and some rat poison, you kill the rat. But the rat trap and the rat poison don't build back the hole in

the cupboard door, he said, your body get infected with things, he said you know what medicine is? It is really a poison, medicine don't really heal you know, it kills, he said medicine kills, not heal. Medicine is to kill the disease, not to rebuild the tissue. Because God alone is the healer, because healing is really an act of creation. Then when you think of your faith now, how you could get your mind adjusted to really get the full benefits from God. Amen?

Famine, war, the sword, pestilence, people weak, under nourished? That is the time you're more acceptable to diseases. So instead you're dying by famine, famine just weakens you for pestilence to take you. Now remember after every age had a temporary judgment. A Seal open, a mystery unfolded, a messenger caught the revelation, seal away the elect and then a temporary judgment fall, disease, pestilence, different things, hit them, earthquakes, hit them, in every age coming down. And that's why wherever light was revealed you see judgment following the light. And you watch and see through Europe, they had come through----see how much of them black death----plague, all those diseases that pass through kill hundreds of thousands, millions and nobody had no cure, nobody had nothing because it was judgment coming because people stayed in organization and refusing to walk in the light that the messenger was bringing to shake that age.

That's why friends, He said it is given to them, these four to kill a fourth part of the population. Medical science today doesn't have the answer. He said you better believe in divine healing then. You know what God did? God sent an angel out, heavenly angel came to an earthly angel, say, you are born to pray for the sick, you are sent into the earth. I'll be there with you, there will be a healing revival, signs to attract the attention. We'll go and wage a war against pestilence and disease and germs and everything. And he went out into the nations around the world, in Africa, in India, leprosy, whatever it is, whatever kind of disease, every known kind of disease, even to cancer, the most feared one at that time, amen.

And God waged war to show that though all those pestilence in the earth, brother there's a power that can check that thing. And then from the time the new revival die down and the Word begin to come forth, Oral Roberts and them took it to hospitals. He as one of the leaders in the revival build his first hospital and say Luke and Paul were together and unite medicine with the thing. And

then it's a doctor everywhere. And what it is? Science went on the increase and we're coming to the age of pills. The Western world tells you everything, headache - we have a pill for that, backache - we have a pill for that, blood clot - we have a pill for that. They have a pill...and we come in the chemical age. Everything is a bottle on a shelf, pharmaceutical drugs. And we're only feeding on pills, feeding on pills; we're taking in all kind of different things. Things that they're testing like guinea pigs. He said it might work on a guinea pig but a man is different to a guinea pig. And it set you up as a breeding ground for other things. See? But they get the people minds to a place and make them think, "wonder drug come out, wonder drug", like how they came out with the Viagra-wonder drug.

And they hood winking the public and then they know that's going to breathe things in you. And before they even breathe it in you they have the next one, the drug waiting for when you get back the next thing that that's going to bring you and say, "Now you need this". Even the computer age now they have it. So you need an anti-virus? Bam they give you an anti-virus, say you better update that because it have new viruses everyday. So you have to keep buying that because that what you're buying is what's giving the virus so it could sell more. Just like the cigarettes, they're exploiting you commercially; it's tricking you to sell more of their goods.

I better stop there, I'll never finish. Let's stand to our feet. On a message called God's Provided Way of Healing, he said what is cancer? (As the musicians come). What is a disease? We'll deal with that on the next five minutes now. What is a cancer? What caused that thing? Let us take cancer or anything you wish to take, cubicula, pneumonia, whatever you wish to ----disease. Diseases are germs, oh my. Think of it friends. In this age we have a man who was born to take gifts of healing to the world, to the nations. Jesus was going to do hundreds of times more in the ministry of this man than He did in His own ministry.

Ministered by an angel because God was showing the age. And this same angel was that eagle, who after that healing, the same spirit that performed miracles was going to go in the realm of revealed truth. That was the one who was going to open up the Seals and let us see the age that we come to and what is happening

on the earth. He said listen, did you know the Bible predicts that in the last days there will be a germ warfare? You getting that? He is saying, did you know the Bible predict there will be a germ warfare? You know the Bible predict that? Pestilence, pestilence is widespread disease. In an age where we have more hospitals, more doctors, more medicine, more of everything; we get more sicknesses. They say there are viruses like the amount of stars in the sky but they only identify five thousand so far.

The sheep, you like lamb? You like beef or chicken? You like eggs? You like vegetables, you know I'm a vegetarian, I like vegetables, you know what they spray it with? You know the seeds there are hybrid, that they're planting for it? You know the rain that's falling that wets it, it's toxic? You know the fertilizer they're putting in the soil to help it grow is manufactured in a laboratory? You know how much microbes is in the water you're drinking? You know when Adam took the first drink from that spring back in Eden when God made it for man to drink. And you know the water that came from the rock for the children of Israel, when they drank, this bottled water can't touch that. We are a walking pest house.

But yet you know in this age, it's the age of health and fitness consciousness, that man pump up himself looking just like the chicken that grows big fat drumsticks. And women want to put on those bikinis and go on the beach and they're looking like a pluck chicken, big breasts, big thighs, same thing. Because Hollywood has the thing, you're belly getting big? We have a thing for you call the gut buster, your waist needs slimming, we have a thing call the waist slimmer, we have this here. Gyms are big business today. But you know how they sell it, they give you an image first. "Look at Jane Fonder at age fifty, and look at Rachel Welch at sixty". And they doctor them up, photograph them from certain angles to make them look good because you can't see them close up how artificial they are. And you look at that and they sell it.

You see the spirit of greed in this last Olympics gone here? Everybody on drugs, no more clean sport because everybody wants to win. And if you have to cheat to win, because when you win you're making money. The man whose winning, he's getting the big contracts, he's advertising the best products, he's getting the most exposures. He becomes more marketable. Greed, covetousness, avarice for the love of money is the root of all evil.

Man had a good body in the agricultural age, in the industrial age the body became perverted with hybrid food, drinking acid rain, brother all kind of chemicals, everything.

Like the time when the man was selling the two dollars burger and the five dollars burger down here, two o'clock in the morning you should see lines. I sit down and try to figure out where on earth can he put out a five dollars burger. What it is those people does be eating. Meat for the belly and the belly for meat. And half of the time is a bunch of rubbish and all the nice sauces gets them addicted to the sauces. Because you're tasting the sauce and the sauce is to mask the thing, it comes like mouthwash and deodorant. Don't put on deodorant for two days you will know if it's doing a job or if it's not doing a job, it's only a mask.

So a man who can't stand the smell of himself will smell the deodorant instead because he rather smell that than smell himself. Manufactured in a laboratory. A man is stink, that's why we need a new body, it's rotting, skin worms in your skin but nobody wants to live the truth, everybody wants to live the lie. "Oh I'm gorgeous, I don't know why God didn't make me rich instead of so good-looking". They get caught there in self admiration because it's that kind of age.

Friends let me tell you, the devil have tricks in that bag. But you know what overcoming is? Recognizing the devil and his tricks. And some people just loves to be tricked, it have certain tricks they don't want to recognize, they just love to be tricked. They don't mind being tricked as long as they are being popular. See. Character is gone, it's a soft character less age. Man become a bunch of mock, that is what the prophet said. That's why the only way we could leave this world is the character of Jesus Christ.

Four horses of death, they rode dispensationally, they rode in every age, they are in every sphere of life. It represents each hor desecrate the vessel se, it's a power that represents activities in different spheres. There is a sphere where economic activity is, there is a sphere of religious activity, there is a sphere where medical science is looking at things under a microscope, in a next world to them, pestilence, there is a sphere of military men exploring, smart bombs, new weapons, different types of things to go on information war, sword, pestilence, religion, economics---- always at war. God said my four sore judgments, come to an

individual, come to a nation, come to the world, it's here in this age. That's why revelation has come to raise us out of it and when we walk in this world we don't walk unconscious. Look at the things we have heard friends just this last couple of months here that we are looking in the Word and it can't stop. I'm just barely creaming the top of it when I come in a service. Each one of the subjects will take messages just to go down to polish it out for you. Now I'm trying to say, that's why when you come, sit, catch, absorb it, get it. that even though you're not a big reader God could put in your heart, you could say, "I believe, I see it, I'm getting it, I'm understanding what you're saying.

Bible predict in the last days there will be a germ warfare, that diseases will break out upon the people and will fall on everyone without the baptism of the Holy Spirit. But with the angel who are charged over these plagues was given orders to touch not one upon whom that Seal was. While plagues was hitting all over Egypt, Israel was in Goshen, Israel was in Goshen. While darkness was on the land, Israel had light in their dwellings, they were eating unleavened bread in haste. Their shoes shod their feet, their staff in their hand' they were looking to God and plagues were all over Egypt, men were sores, men was in pestilence, brother the economy was devastated, famine had hit the nation, drug, depression, everything, soars, frogs in their houses, pestilence, diseases, rats, everything; beasts of the earth.

You know how much of those beasts are carriers of these plagues? Those rodents, lice, mosquitoes, you know how much dies with malaria and dengue and typhoid and yellow fever every year? Beasts of the earth, beasts of the earth. Now that's the kind of church it's going to be one of these days, he said, but look friends, the time is coming when there is rising up a church. If we can't have faith for divine healing, how are we going to have faith for the rapture. We've got to move out friends, we've got to get out of this old slow church condition that we are in. step out, launch out, cut the shore lines and get out into somewhere where you loose all senses of fear and doubt, out there where all things are possible brother. Just as free as it can be, you've got to sail, set towards heaven and nothing can stir you no way, you are gone that way, that's all, nothing can harm you. Now that's the kind of church it's going to be one of these days according to the Bible

where the angel poured out his wrath and diseases broke out and men even rotted in their flesh where they were standing and the fowls of the air come down and eat the flesh of captains and of great men, presidents, warriors, diplomats, potentates, everything, they ate.

Do you know it have a flesh eating disease right now that eating people, that they have no cure for? Just like AIDS, science says the most they can do is prolong your life. Friends let me tell you, pestilence, the Fourth Seal friends. Not out in the nations way out there in some laboratory, in your village, next to you in the maxi when you're traveling; sitting in the seat next to you in the office on a next desk, out in the restaurants and dancing out there like when the women came down here plague with AIDS and went all through Tobago and make it like a grave yard because they see this nice looking woman coming up, she is a walking time bomb. When are we going to wake up and realize how real the Word is friends.

I'm reading things the prophet said 1954, this is the year 2000, forty-six years ago. Things you read everyday, things you see the effects and we are kept in a place by the world and the nations of the world in ignorance, become drunk with pleasure. Less they scare the world and get the whole world panic to know how far gone it is. That's why they spend millions of dollars, billions to go to Mars and try to colonize another planet because in reality they know the seas is dead, the air is dead, everything in it. and we can pay money, that is why they pay people to advertise cigarettes and everything and say you know, it don't give cancer when they know it does. And when they carry them to court they win the case because they buy out judges and everybody else so the industry must go on because they realize how they could put all the people in the bread line, they'll mess up the economy. And they have enough money they could keep you tied up in court for years and years and years and you can't even dent them because they have their big rich merchants of the earth. You know what the Bible said, the abomination will come from Babylon.

Signs of the time are everywhere. You hear messages like these, it should shake you to realization. You hear messages like these, it should make you leave service, you get in a corner quiet and hold it and ponder it in your heart. And when you're going to work,

when you never used to go with your Bible but you put it in your bag and in your lunchtime you want to open it and go over those things. And you were never a tape listener, you want to get it and hear it back a little bit and stop it and ponder. Open the scriptures and search and say, “ God reveal to me, I don’t want to walk unconscious because I could be, not just for me Father but it have a nice girl in the office, nice young lady that she don’t even have a clue as to what is happening.”

A man could say, “I know a workman, we travel in the same car going to work, we work in the same company together, we had a good talk, I talk to him about the Word of God---affect him in a way where he just see this thing as religion and he can see the reality of the hour, he can see where the Book of Revelation is.” And no wonder Satan hate two books, Genesis and Revelation. They preach everywhere but they don’t preach in Genesis and Revelation. But brother look in the Bible, in the book of Revelation tells us that these things are coming and ... how can they put it together? It took a prophet in this generation. That’s who no theologian could open the Seven Seals. The Word is open friends.

He said ---them sons of God in the last days, he begin to bring those things down and display it to the church because that Seventh angel sounded-----and the Thunders uttered their voices and the Book becomes a new Book to us. We’re not playing church no more friends. And stranger, visitor, you might be here this morning, you might be accustom to a denominational kind of service where they spend eighteen minutes jumping around the place, next eighteen minutes just trying to make God bless everything. But do you hear of the coming of the Lord of the judgment of the wrath of God that is going to sweep through the land and the things that is prophesied in the last days then to know you have something that is real, then to know that you have something that can make you ready. You can live with the conscious awareness of the lateness of the hour. Brothers and sisters, let’s be in prayer, let’s see the urgency of carrying this message, let’s do everything we can. We don’t have much time. Be a real Christian in this hour, don’t play around, be a real Christian.

Congregation sings, Signs of the time...

I would like to invite Brother Joseph Bernard to come and pray amen. It's a late hour friends, break every sound barrier of the pleasures of this world. Fly into a place where there is a real consecration in your life. You're living in a generation that will rot in the flesh that will be fed upon by the fowls of the air and the beasts of the field that will be turned to ashes. Think of it, the handwriting is on the wall. They are weighing the balances, they'll be found wanting. Babylon is fallen, is fallen.

Let's bow our heads and close our eyes considering the things that we have heard today. Taking inventory in our hearts, seeing where we need to be standing, seeing the attitude that we need to be in. seeing where we have been holding back and having reservations. If what we could have done better, we're letting things of this world that we put a value on that have no value, it's just a snare, it's a trap, it's like a creeper entangling you and keeping you back. But you want to be broken free today, you want to take the goose neck whole and weed that thing out of your life and surrender yourself more completely to the Lord Jesus Christ.

Find that place friends in your heart, don't hear words like these today and then just drift back out the same. You're not too young to die now. If you have to go, think of, you leave these doors and maybe on these roads that we have to travel, crazy, people insane, driving with such inconsideration and everything else. Hurrying, under pressure, you know, to go nowhere, then you go out there, you don't have to get in somebody's way, they get out of their own way to even run you off the road. Think of it, we take for granted these inventions of man that we use. That's why these things can fall apart with us anytime. We don't have a hold on these things. Then where would you be as set before you the ways of life and the ways of death today. We stand between the living and the dead. Where would you be friends? Are you ready to go? Is your life surrendered to Jesus Christ? Do you believe the hour we have come to?

When you see these things in the Word of God, do you think it's just a church, a creed, a church formality, a ritual, or do you see it's an escaping of this world. Like Noah, God prepared an arc of safety, the only place there was safety, in the time of Judgment. Like in Egypt, the only place of safety in the time of Judgment, God always...that sealing angel is moving through the church in

this hour to mark those that sigh and cry. Where are you at? You're like Belchazzar, you just want desecrate the vessel ----you just want to get into party and reverie and drunkenness and rioting the cares of this life, though he knew those things...where are you at? What are you looking for? Look how the Gentile age came in, look how it's going out friends. Look how Babylon fell back there, look how it's going to fall in this hour. Look how God; back there, look what God is doing here. Embrace the opportunity today, wherever you are around the building. As we bow our hearts and unite as our brother would pray.
