

Third Exodus Assembly

Deception And Perception

Pastor Vinworth A. Dayal
26TH November 2008

Deception and Perception

Wednesday, 26th November, 2008.

Praise his wonderful name. He that have an ear to hear. It's been declared to us, by the mouth of a prophet, it's been vindicated by God, it has fulfilled the scriptures that was prophesied and described this hour, and the grace of God has come to us, to anoint our eyes with eye salve that we could recognize our day and our message, we could recognize the scripture being fulfilled. He say, "What is the attraction?" Prophecy becoming history. Amen.

What a great thing it is for us to see the things that we see friends, to hold in our hearts, even as we stand here tonight in his presence, gathered in his house. That these things has not been done in a corner; this is not something that come out of America, come here in the Caribbean and we are, maybe just naïve to hold on to it and being gullible, just accept these things. These are the things that are spoken in the Bible since Genesis, all the way to Revelation. These are the things that we have been warned and forewarned about; the day was going to come and Satan will be called the god of this evil age. And that age, the evil age, when the whole world will be deceived, that age didn't come until this day. This is the day is the evil age.

And this is the day he is going to be enthroned as god over this age, and be the most worship person, because in no other age was Christ seen outside of the church, but in this day. The scripture shows in the seventh age, the last age, before the gospel goes back to the Jews, Christ will be rejected by the Gentiles: the same way he was rejected by the Jews, and the gospel come to the Gentiles, the same way the Gentiles was prophesied to be blind, to reject him again, so he could go back to the Jews. Is that the Bible? These are the things that was spoken and these are the things that have been declared, the church world do not accept they are blind.

You meet a Methodist and you say, "you are blind", he believes he is seeing. You meet a Jehovah Witness, and tell them they are blind, they believe they seeing. You meet a Seventh Day Adventist or a Roman Catholic; they believe they seeing. What is the difference between them and us? Why we are not amongst them? Our parents had belonged to these systems, most of us that is cross

40, amen. But we heard a voice saying, “come out of her my people,” hallelujah! We heard a message declaring, “behold the bridegroom is here.” At midnight there was a cry, there was one who came like a thief in the night and where the carcass is, there will the eagles be gathered together. When you look around you don’t see buzzards, you see eagles, hallelujah! When you look at the word that we believe, you see eagles. How would you know the eagles? What they feeding on, it must be something freshly killed, not some past rotten word, from some past age, something for this hour. Hallelujah!

That’s why we don’t believe a Methodist message, it will take no effect; we don’t believe a Jehovah Witness message, it will take no effect; we do not believe that Pentecostal message, it will take no effect, amen. Because this is the hour of restoration, the original apostolic doctrine: one Lord, one faith, one baptism has come back to the church and that was never a denomination. Hallelujah! Jesus didn’t establish a denomination. He said, “upon this rock I will build my church and the gates of hell will not prevail against it.” In others words, it wouldn’t have a bob hair woman in that church; it wouldn’t have a woman wearing pants in that church. These are signs that the world and the devil had prevail upon a person. It wouldn’t have a man preaching about three gods in that church, and with a false baptism that is not in the Bible, in that church. Hallelujah!

In that church, they’ll be just like how the apostle was. You believe that? Just how the apostle was, that’s the way they will be. I believe that tonight, I stand as a witness, I stand as a representative, I stand as one who has come out of the darkness and walking in the light with him. I don’t look back to Laodicea, I see the dawning of a new day and I can feel it all over me, I’m walking into a new day. Hallelujah! Glory be to God. Praise his wonderful name. Oh we thank him tonight. Let’s just bow our hearts for prayer.

We have a prayer request for Sister Lenora Jackie, wife of our Bro Hollis Jackie, requesting prayer for severe headaches she has been experiencing; I’m sure there are other request; might not be for healing alone but, you have another urgent need, you have a situation that you know in your heart, if God would smile upon you, if you would find his favor standing where you are tonight. If

you can have enough faith in your heart, to approach him, to come with boldness before the throne of grace, you would not be disappointed: you will find that he is the High Priest that can be touched. He's the great Jehovah Jireh who promises to supply our every need. Let's just believe him tonight with all our hearts.

Let's just sing this little chorus "*Touching Jesus Is All That Matters.*" Sometimes you say, "Lord I want a touch from you, touch me Lord." But as you sing tonight you touch him like the woman. The woman saw him passing by and she with a desire he would leave the crowd and come and touch her, but she know it was time for her to touch him. Hallelujah! One time he stopped the bier who was carrying the dead man and he raise him back to life. One time he touched the leper, and touch the blind man eyes, but this time the woman had touched him. It's our time, we can touch him tonight, hallelujah!

Let's just sing that. *Touching Jesus is all that matters and your life will never be the same.* And just remember as you sing it, *there is only one way to touch him, just believe, only believe and all things are possible as you call on his name.* Sickness has to flee, when we come in that name. When we come in that name, we can ask anything, he promised to do it for us. Touching Jesus,

Touching Jesus is all

is all that matters

..... *that matters*

Hallelujah, and your life

And your life will never be the same.

Oh you believe. There is only one way

There is only one way to touch him,

Let's believe,

let's believe.....

as we call on his name

as we call.....

We'll find that his promises are yea and amen friends. One more time. *Touching Jesus.* All around the region now, in one heart and one mind,

touching Jesus

Oh thank you Lord! We come in your presence, we come knowing you are the one true and living God, your promises are yea and amen. Hallelujah! We come Lord, knowing that you have

already made all these blessing secure for us, we are blessed in heavenly places in Christ Jesus, with every spiritual blessing. We only have to have faith, we pray you drop that faith now,

there is only one way to touch Him,
let's believe,
let's believe.....

Faith changes things; when we can believe with our hearts, and confess with our mouths, we'll never be ashamed,

.....his name

You who have a request in your heart, have faith in God.

Beloved Jesus, our gracious Father, with bowed hearts in your divine presence this evening, taking our thoughts from this earthly realm and focusing our faith upon you, and rising up in the arms of faith to be closer drawn to you. And even with a prayer in our heart; *draw us nearer, nearer blessed Lord, to thy precious bleeding side.* Dear God, we could stand and look with a clear heart and mind, at what Calvary is, what it meant for us, what was achieved for us; how a way was opened for us, when the veil of that temple was rent in twain, you declare it, that we can come Lord with boldness, to a God who has made himself accessible to us, because in doing what you did Lord, you cleared the way, that we could be restored back to all your favor. You slew the enmity, you tear down the middle wall of partition, you came to us when we could not come to you.

As we stand in your presence, we know we are not standing on our own merits, but we are standing upon your merit, we are standing upon the sufficiency of what you have done for us, we are standing dear God, with a new standing, that in you, we have the redemption through your blood, the forgiveness of our sins according to the richness of your grace, and to know in our hearts, that we are accepted in the beloved, to know what that means Father; you became us, so we could become you, that when we stand and we understand this, there could be no condemnation; it's bound, it cannot operate, sin shall have no dominion over us. Perfect love that was demonstrated to us, and shed abroad in our hearts by the Holy Spirit has cast out all fear; so we come with thanksgiving, we come with appreciation, because you made every blessing secure for us.

We pray Father, for our beloved Sis Jackie, dear God, who is suffering from these headaches, sometimes these things Lord, is so simple that our own faith could push it back, but seeing oh God, the request has come, no doubt she has tried and found maybe her faith was insufficient, but believing that the church of the living God, would joint in prayer with her tonight and lift her before the throne of grace, God she could move out of that condition, where she is bombarded with these headaches, she could stand liberated from this condition Father, in the name of the Lord Jesus Christ we pray, your great grace and mercy, your healing virtues will flow out to her Father, and Lord you will touch her, and even as she has faith as we are praying oh God, and asking this blessing in the name of the Lord Jesus Christ, Lord that you will apply these things to her Father, that she might receive what she have need of tonight. And would have a testimony of your deliverance, for the glory of God we pray and we ask this, in the name of the Lord Jesus Christ.

And heavenly Father, for all that stand here and throughout the region, Lord, your beloved children, many of them oh God, under attack, maybe don't even know why, it so difficult for them, but it is written in the Bible, *the devil knoweth his time is short*, he knows the plan of God, and how dear God, he knows who your people are. How he have tried, time and time again to discourage them, to oppress them, to make them so depress, to blind them, to deceive them, to persecute them. Yet in spite of it all, *through it all they learned to trust in Jesus and they learned to trust in God*, because Father *you giveth more grace when the burden grows greater, and you sendeth more strength when the labours increase*. You're still the same God who will stand by your children when they will stand for you. Bring them out victorious like you did down through the Bible, that it could be written by faith Abel, and by faith Enoch, and by faith Noah, and by faith Abraham, and Isaac, and Jacob and Joseph and Moses by faith.

Because dear God you stood by them, revealed to them that you're the absolute, they're tied to you Father, and found that your promise was good at every gate. So, these dear God, we pray that you will move in their lives, and you would confirm your word and you will increase the faith, and you will inspire your truth, and enlighten their understanding; you will anchor their souls and give

them blessed assurance. You'll put confidence in the inner man, that they can know *through Christ they can do all things, who strengtheth them. Greater is he inside of them that he that is in the world* that they wouldn't have to buckle and have fear and run and turn their backs to the devil but they can stand flat-footed Lord, knowing that, that devil is defeated, he is stripped of every legal right, he is only bluffing Father. That when they resist the devil it is written in the book of James, *he shall flee from them*. A believer can stand so flat footed tied to the word of God, confessing the truth, knowing the power of true confession and know that devil will have to flee.

Move the souls of your children Father, up into this place. For it is written that Satan shall stand before us powerless. When this bride begins to recognize who she is, and what she stand for, what you have made her in Christ, and know how to rely on what you have made her, she will be an invincible army. Oh God, is not this that time Father, we can truly walk in the rhythm of the gospel, to see the same harmony that exist between the Father and son now existing between the bridegroom and the bride.

Jesus, for those that desire these things, for those that could perceive and recognize that there is such a place, they can live and walk, for those who know that they won't call to live in defeat and was born to be an overcomer, may you drop that into their souls. Because deep calls unto the deep and they wouldn't be calling for those things if there wasn't a deep to respond. Grant it dear God.

Thank you once again to be here, if it's just for a few moments with your children, if it's just to offer this prayer Father, if it's just to tell them that you are not dead, you are alive, you're close Father, closer than you've ever walk with us; right now you are walking closer. You get sweeter as the days go by; your word becomes more real. We thank you for being so faithful and true, so reliable and dependable Lord, we believe what you say concerning us; we don't look at our own ability and wonder how it will be, we know it will be you doing it through us, we just want to make ourselves available to you. Knowing dear God you purchased us, not that we would live another life, but that we're recognizing what you have done for us and submit to you and allowing you to come and live in us, knowing we are the temple of the living God and then you can lead us from victory unto victory,

we can discover Father how true your word is. May you grant these things we ask. Bless your children all through the region, supply every need, meet every request, even as you promise you will do. Bless the remaining portion of the service. We give you thanks in the name of Jesus Christ Amen.

God bless you, you know I wasn't supposed to be here, but I'm here not really to preach. I am here to just talk to you a couple of minutes and leave, and most likely I will be gone before the service is actually dismissed, but that's what loves does, eh? Amen. It's good to be here with you again.

I want to read something out of Daniel 2 and Daniel 7 just to put a little... who likes butternuts? Teachers today is not like teachers long ago you know; you know that? Today teachers get so modern and everything else. But long ago, when we use to go to school in the old gravel road, and we go up to private school, Miss Sealey- the old lady, name Miss Sealey, she used to come with not just a whip and some books, she use to have sugar cake, she use to have brittle and different things in the bag. So recess we didn't have to go looking for the shop somewhere, we could get it right there in class when we get a little recess. You see, we had something to take a little break, you know and enjoy something and get focus again for the next session of the day. So, I would like to be like the old fashion teacher, like Miss Sealey was, maybe just to give a little butternut or brittle tonight and casaball or something. You like that? Amen.

I want to read from verse 31, Daniel 2:31: This is a dangerous thing for me to do, to open the Bible and read,

Thou, O king, sawest, and behold a great image

Daniel telling Nebuchadnezzar, what his dream was. You know how he had dreamt the dream, forgot it, could not understand, nobody in the kingdom, none of the wise men could explain that, or tell him what it was, but God revealed it to Daniel. God give a re-run of the same program. Daniel is declaring to him what he had dreamt, because it was stored somewhere and it was accessible to Daniel.

This great image, whose brightness was excellent, stood before thee; and the form thereof was terrible.

This image's head was of fine gold, his breast and his arms of silver, his belly and his thighs of brass, his legs of iron, his feet part of iron and part of clay.

Thou sawest till that a stone was cut out without hands which smote he image upon his feet that were of iron and clay and brake them to pieces.

Then was the iron, the clay, the brass, the silver, and the gold, broken to pieces together, and became like the chaff of the summer threshing floors; and the wind carried them away, that no place was found for them: and the stone that smote the image became a great mountain, and filled the whole earth.

Five kingdoms there, four earthly, one heavenly: the heavenly one is the stone that smote the others, and grow to a great mountain and filled the earth. And the four materials: the gold, the silver, the brass and the iron represented the four kingdoms: which is Babylon, Medes and the Persians, Greece and Rome.

And Daniel 7:

In the first year of Belshazzar king of Babylon Daniel had a dream and visions of his head upon his bed: then he wrote the dream, and told the sum of the matters. Daniel spake and said, I saw in my vision by night, and, behold, the four winds of the heaven strove upon the great sea. And four great beasts came up from the sea, diverse one from the other.

And from verse 4 to 7 reveals,

The first was like a lion, had eagle's wings, the second, was like a bear, the third was like a leopard and the fourth was a beast, dreadful and terrible, strong exceedingly; had great iron teeth: and devour and break in pieces, stamped the residue, with the feet of it: and it was diverse from all the beasts that was before it; and it had ten horns.

May the Lord bless the reading of his word. You may have your seat.

Just read that because, as I said I'm not supposed to be here and want to say a pleasant goodnight to all the saints in the region from Guyana all the way up to St, Kitts. To our beloved Sister Elverna and Sister Jackie and they there. And we are so happy for this little moment, to come and see aah , I come out and see you out to service, and it make me very happy to know that if I'm here or not here, you will gather for service because that's a sign, that you are growing to maturity. And that's even an expression, that you believe in the lateness of the hour and the things being spoken and that you are involved in the work and you know the importance of your presence, and you being at your post of duty, the value that it has to the economy of God and that's great, that's pleasing in the sight of the Lord, and that's very, very nice.

I want to say a special thanks for all the prayers and support and kindness. You know Sunday I tried to speak and it was so... little difficult and before I knew it next..., maybe the same evening or next day I was getting coconut water and orange juice, and all types of nice things, you know as they say, is the squeaky wheel that gets the oil, so maybe I kind of squeak unconsciously and unintentionally, but nevertheless it brought some things to kinda, give me a little strength for the journey. And if it means anything to you, well I guess when Elijah was squeaking under the Juniper tree, being so tired and weary, the angel came in with some nourishment to strengthen him so, he said, "you still have a long journey," and he had to go because the work wasn't done. So I guess if you can see yourself playing the part of the angel of the Lord, that also will encourage you, that you could have done something for God's servant. Amen. So praise the Lord for that. Certainly appreciate that.

Sister Wendy Alleyne, I don't know if she is here tonight, but I want to express... I should have said the other night and I didn't and I notice a bag in the back, with a book and some CDs that she had sent for me: and in sending it I know I was on her heart , and she know I would like something like that, and you know, she came across that I guess . Like Danny Henry, you know he saw, he laid down in the tomb, and all of a sudden Bro. Braham come in his mind. He said, "I could make a little cuff link out of this for Bro Braham." And you know Bro Braham tell the story about it, and he said, "here I am here tonight, and I'm going to pray for the

sick and I am wearing that cufflink,” and you know things like that. You know believers, God work in a strange way with believers, with other believers you know. And so I want to express my gratitude for that and I so appreciate all the consideration from everyone. And the prayers we certainly need it and we would be leaving tomorrow as you know, and I just read this because if they want to maybe use a name for the tape, they can call it, ***Deception and Perception***, Deception and Perception and a little subject here, ***Illusion and Reality***.

And, I thought I might have speak on this, while I was speaking Sunday gone and give it the title *The Beauty and the Beast*. You catch the reading? If you catch the reading you understand. The kingdoms was shown to Nebuchadnezzar and it was gold, and silver, and brass and iron, it was so beautiful on the outside, but when God showed it to Daniel, it was four predators. Because God didn't show Daniel the kingdom from the outside where man does look at the world and the kingdoms of this world and admire it, and come under the influence, being captivated by the beauty of the world.

But Daniel, God know if he don't show Daniel what is really behind that beauty, he would be deceived. Looking at it from the outside is a deception, that is why the whole world tonight: oh, they go to America they feel so nice, they go to Canada, they go to Europe, oh my, it thrills them. They travel, they come back with some special clothing or some special something, they feel so great. And then you know, countries when they advertise themselves, and export themselves, you know, and they invite you to come and see them; they show you the museums, they show you the parks, they show you the great stately buildings, they show you the cities, they show you the great places of entertainment: they don't show you the slums, they don't show you the prisons, they don't show the insane institution, they don't show you the brothels, they don't show you the drug addicts. You understand what I'm saying.

They show you it in a way, they present themselves in a way, that they make themselves appealing and attractive. And that's why in an age like this, what appears to be, is not what really exist, things are not what they seem. This is an age you have to look at something and don't just..., it look nice from the outside. How

many know in the Bible, God told Ezekiel, “come, what you see?” God told Jeremiah, “come, what you see? What it is I’m showing you here.”

And so God will show us things. Remember Bro Branham that time, amongst them Pentecostals, God show him a nice little kitten. And the kitten all up ... and he say, “oh kitty, kitty,” and he love the kitty and he’s playing all nice with the kitty, and God say, “you think that kitty nice eh,” he say, “stroke it the next way I’ll show you something,” and when he stroke the kitten the next way, it start to get so ferocious and aggressive towards him, and then God say, “that’s them Pentecostals.”

You go tell them how their great revival and they have..., believe in the gifts and all these things, but start to tell them their baptism wrong, start to tell them that their doctrine is of the devil: father, son and holy ghost, three person in one God, that’s a pagan thing that came from Rome. Tell them that woman preacher is wrong, according to what Paul said, she has no right to teach or usurp authority. He say, “you watch and see how nice that kitty real is.”

And they turn around and they rejected him and put him out, and he had no place to preach amongst them no more. But God had shown to him: because it’s always important for God, if he has you amongst people and he has you going places and he has you there, he knows the human nature is so easily influenced, and people like their ego to be inflated and buttered up you know, and somebody talk nice about you, all of a sudden, you think you love that person so much and you don’t realize, no. You are easy to be manipulated if somebody tells you something nice.

Because you’re longing for affection and you’re lusting after attention. Because inside of you, you feel insecure: now that is a real self- evaluation, but because we don’t evaluate ourselves many times to know our own weakness, and our own strengths, there is somebody else watching you and evaluating you. So when they make a certain approach, if they study you, they walk right into you life and you are defenseless, and you can’t put up no resistance. How many know that is the Bible? Let me give you a reference that is the Bible.

They tried to take Sampson in many different ways. They say, “*we doing this wrong, let us stop and find out where his strength*

lieth first.” Isn’t that right? Brother! and what a thousand armed soldiers couldn’t do, and the strongest ropes couldn’t do, and what all them gates of-- brass gates of Gaza couldn’t do, a woman without gates, without spears and swords and everything; she took that thing from him and break that union between him and God. Is that the Bible? Because outwardly she looked so beautiful, but she was more treacherous than the lion he had fought, she was more deadly than them thousands of armed soldiers that he had come up against. But he lacked perception, so he ended up in deception; He had a lot of human strength, but little spiritual discernment.

It’s a hour to... when you look you have to see, this is an age the word tell us we’re blind, when God say we’re blind, it means the age was blind because we had no vision of what God was doing. We had no vision of the way the enemy moves, we had no revelation how the enemy was able to overcome from Eve all the way down to the present age, and all the great heroes in the Bible, Satan got a place in every one of them. After David had such a great victory he end up in adultery; after Noah build the ark and got the people out of the old world and all these things, he end up a drunkard, is that right? After Moses performed all them signs, he end up glorifying himself before the people, and then you get to realize because they were all born by sex, and they wasn’t the word, they were only a shadow of the real one.

But when Jesus came, he was the greater than Moses, he was the greater than Noah, amen. He was the greater than David, because Satan had no place in him. And he was able to overcome, and overcome in such a way to make a way to bring us back to become the word again. And that’s what we are here for tonight. That’s how we relate to Jesus, that’s what Jesus means to us and that’s why we are striving to be like him and understanding how his life; how life is meant to be lived, by keeping our eyes on him, because the Bible is not just stories, the Bible is **the** revelation of Jesus Christ, is Jesus being revealed from Genesis 1 to Revelation 22.

So, you know it’s an age like that, and in this last age the Bible tells you the whole world would be deceived, and we wonder, well how is that going to be? How is the whole world going to be deceived? How they’re going to be trapped? With all this education in this day, with the kind of minds, that can sit and put

man on the moon? With the kind of people that can develop, and things like the internet and these things? With the kind of big refineries and industries that come out of man, their ingenious; being able to work the kind of architectural sciences, and the kind of motor car engines and the wrist watches and every thing you can see; that makes you marvel and see a man produce that? You mean all them people so smart, so shrewd, so knowledgeable, to bring a world so great. See, because the thing is, when they look at the world is how they perceive it: because you react to things the way you see it, and since the enemy have no real power, his power is showing you things a certain way.

He don't show you that he was stripped of all legal rights on Calvary, he don't show you that he can't stop you from getting your healing. He don't show you that if he don't work that condemnation, and bluff you and make you feeling guilty because he know you don't know what Jesus really done for you, that he really can't hold you in that bondage. And the only way to get rid of that bondage is for you to tell him he is a liar, and quote the scripture to him and he have to flee from you, because the tactic he's using on you becomes exposed when you can show him the word, and he realize , that he even misunderstand you, by thinking you were just a church person, and when he comes to you, he finds a sharp sword, that could have point to him exactly what Jesus did, that will crush his head on Calvary, strip him of every right and give you authority over him. But he don't show you that. He does show you how big and bad you is and how you are nobody, and how you do that the last time and you trying to say God could help you and you are a dog, and God could never love you and he holds you there.

And because you don't take time to study the word of God, and then you pray some kind of little prayer to the wind, and you don't get the inside person tuned in; like you tuning a radio to a station with God, that's why many times you don't get an answer coming back. It is better you close your eyes, and use some mental psychology to say something to an unknown person. But when you say, you want to hear the news and you want to hear BBC, don't you turn on and you get BBC? And BBC does come through? When you want to get a certain channel CNN or something to hear the news, you could turn on and you know you

expect that; if it drop on a next channel, you know that is not what you are looking for? Because the knowledge you need at the time to know something, if it's the weather or what is taking place in a country, a disaster or something, you know the channel that, that information can come through.

Well you mean to say, you can tune in an apparatus with your hand and your mind and you can't tune in the soul to God, which is part of God; and this natural thing is only made, as a physical scientific representation of communication, of one person getting in contact with a source and getting the knowledge they need from the source, to be able to operate here?

Didn't the prophet say don't even try to figure nothing out, if God have to do it, he will send it to you? That is like a listening post, and that you're design with a gene inside of you and you can pick up that inspiration. And that Job had a channel of communication. But that was a sermon a time. No, that was a key of life, that was a law of living, that was an opening, a way to take you out of living in defeat, "and I ain't know what God doing nah, and I frustrated yes, and when I pray and like my prayer ain't answer." No! that... those thoughts was to take you out of that frame of mind and put you and lock you in a next channel, so any time you approach God now, you know this is the same way like you does tune in to that thing.

Don't you take up your phone and dial your friend? And talk immediately? And if somebody else answer, right away before they even say... time you hear the voice on the end, you know, like I dial the wrong number. That ain't the person I want. And before the person could even say wrong number, you already redialing the right number, because you know how to contact the person, isn't that right? Well God different? Where they invent that from, where they get that thought of communication from? It comes from God. One of the things we lost in the garden was communion, communication, fellowship, connected, how do you think Adam could remain under the influence and the leadership?

How do they inform people, to lead them, to guide them, in the decisions, whether to travel, whether not to travel, when to do different things. It does come through news, they set up their information system, the communication networks like that, to keep you informed; each day of activities, that different people in

different walks of life, different level of society can find the thing that relates to them and know how to operate. It's simple like that. And what makes it so great; we are in the age, where all these things now is happening, so we can understand how it works. Because we are seeing science breaking into these places and bringing the things out.

It does look mysterious how Daniel could see back what that man dream, but now it ain't mysterious to you, how you could tape a program, that is being transmitted by a broadcasting station and then look back at the same program some days after, that was broadcasted before, and if you don't have didn't have the thing connected right and you didn't press record, even though it broadcast, when you pull your tape out and try to play it back it blank. But if you get a hold of the broadcasting station, and they say ok we'll have a re-run of the same program at a certain time, then you could get the thing set up to tape it back the second time.

Well when God transmit the dream Nebuchadnezzar get up, it wasn't recorded, he can't even remember nothing, but Daniel was in contact with the sender of the information. So when you see science doing that today now, that is no longer mysterious. We does say, "how that happen boy, how that taking place boy?" No! look science does do that, and that show you how far they reach, you see.

Perception, deception, illusion; it looks so pretty outside, it's just an illusion. It's put there to make you think it is beautiful on the outside, it's put there to attract you, it's put there to lure you, to get you under it's influence, it's put there to pervert the thirst in your heart for God and make you thirst for that instead. But the only way you could really withstand it, you have to see what is behind it, and that is where people does get frustrated. They hear the word preach, stay away from the world, that is the devil, so and so, but when they go out there it nice, they like it, and they say, "but I like it, and when I look I ain't seeing it so bad as everybody saying." Because they haven't yet seen the one behind it and they don't yet know his intent and his objective and motive that, what he is try to achieve by working through this, and what the end result is going to be for the person who he brings under that influence. You understand?

That's why in this age the prophet say you does look seven times and make one step, he say it's not what you see, it's what you discern from what you see. It's not what you hear, it's what you discern from what you hear, it's not what you read, it what you discern from what you read, because people does write things, to influence your thinking. That is why, I was telling you Sunday, some people look at things, it's designed; somebody say I'll make them laugh a lot, I'll make them like this, I'll glorified sin, and make sin look nice. I'll put sin in a story and make it exciting and make it have a good thing was achieve in the end and you kinda like that, but it is somebody doing it with an intent to get you to like that thing in a certain way. That is why he say, *a thinking man filter, a holy man taste*; get your thinking filtered by the word. Because you cannot see the world and don't..., you don't know..., no body knew what the world is. Hear what John say, "*the world is the lust of the eyes, the lust of the flesh and the pride of life, and who love the world, the love of the father is not in him.*"

But when you look at the world, the world was in Lucifer: he is the god of the world. The world is the Eden he produced, and when he came in the serpent, he came there as the embodiment of the world. That's why, from the time he start to talk with the woman, she start to see, is pleasant to the eyes, she start to see a tree desired to make one wise. Because the three things that she had to contend with and lost the battle: was the lust of flesh, the lust of the eyes and the pride of life.

That's why when Jesus come back, the same test came back, but he didn't see, that is... that bread, making bread out of stone is desirable to satisfy, he said, "no, man shall not live by bread alone," You see? He did not care the flesh, even though the flesh was weak, he know yeah the flesh is weak, but he understand from where he's walking the flesh have to go without many times in this battle, because what the objective is you can't feed the flesh, and satisfied the desire of the flesh. And if we have to suffer hunger, and peril, and go through these things and nakedness at times, it don't separate us from the love of God that is in Christ.

That's why Paul say, "we suffer hunger, we suffer shipwreck, we suffer being beaten, we suffer these things for the gospel. We don't fall back and lie down and say, 'well you know I have a sore throat, ah can't go, the doctor tell me I should rest, so and so and

ah can't do this.' That is walking after the course of this world; that is an intellectual form of Christianity.

When you see God, who God really is and how God work, and how God works through his children, because this was his life ...he was a chosen vessel to bear God's name carrying the gospel. Because the gospel is not...in this age preaching and all these things come so thing. You go on television and preach, or you stand up here and you go on the internet and we get so eloquent, we get so self conscious, eyes are upon us and we are, our image is going to different worlds and after a while we forget God is here, to stay under his leadership and influence. You understand? To be led by his spirit; perception is a great thing.

If Daniel only had that vision in chapter two, he would've had the vision of the man in the world looking at the thing and impress with Babylon gates, Babylon city, Babylon democracy, Babylon army, Babylon clothes, Babylon gardens. He would have been impress, there isn't a city like Babylon in the earth. But when God showed it to him, that's a lion devouring with eagle wings, he's a predator; then he begin to look beyond the outward beauty.

Today's world they show you the evil, as maybe, some man commit some crime and they show you he is evil and you know, he's on drugs and he waste his life, sure that is bad. But then they put an executive in a chair and after ..., you ever see how they does catch all these little pushers on side and throw them in jail? And then it's not them, it is only the last man it come down to, the tool who had ...who had the bread line and need a little a change to survive and can't make it in the system. But the man in the desk, who's making the connections and who working with his friend to bring it though the port and different things; them is the men, them is the men, but they don't touch them. Cause they are the men now who does finance politicians, they are the men who does throw, do things, they are the untouchables, they are the men who does buy police officers. So when you look at the thing the world have a way to give you a diversion of what the evil is.

That is why he say get your eyes anointed with eye salve, get your eyes anointed because this women here was beautiful, clothed in scarlet and purple, and precious stones and had a golden cup and attracted all the kings of the earth, all the dignitaries and celebrities, and when you walk in into the Vatican, and when John

saw he wondered and marvel, how could the whole world bow to this women. And the angel say, “ come I will show you, I will uncover her mystery to you, and show you why she’s evil, and show the end that coming to her, and show you God thoughts concerning her.”

And that’s the things today, how we need revelation, and that’s the blindness that many can’t see, they see the beauty but they don’t see the beast. That’s why Satan went into the most beautiful of all the beast in the garden, he went to the most, the one who could talk, who have the most graceful movements, who had the best coordination, who had the greatest wisdom, he went in that one, and the woman was enchanted, you know she looked there, and she’s seeing this serpent here so beautiful, and this fella could talk and oh my, she said, “ if only Adam was here,” but she wasn’t seeing what was behind, she wasn’t seeing the beast in that beast, she wasn’t seeing *that one who was kicked out of heaven, with a third of the stars, like lightening they fell to the earth*, she wasn’t seeing how *he was casting down the word and exalting the lie*, she wasn’t seeing that and all that was going on right there and then, because the same way he broke the unity between God and the angel, he was breaking the unity between God and man right there, using the same method, same tactics right there, on the second battle ground, same thing.

You shouldn’t do this; you all should know this not good for me. (Bro. Vin laughs) I didn’t come for this. Just let me read this and close. This ain’t good for me. You will enjoy to night, but I will suffer for the next couple of day. I have a two days journey and because we have to send our passports, I don’t have no visa I don’t even have a passport to go for a visa for the Schengen States. So that means any mishaps there on this trip, we have to sleep in an airport, in a country where its winter, and we’re not carrying winter clothes, because where we are going out destination is not winter. And when we are leaving out of Trinidad and Miami it’s not winter.

So I come really, to just show you a few pictures of the Congo, is what I come to show you. So you could kind of see the people and get the feeling and pray for us, and to show you a couple pictures of the trip in Chile, that can let you see where we coming from and where we going, and you can, kind of understand and it

could tune you in for the kind of support, and pray and backup support that we need, by the grace of God. That is why I came.

But, I wanted to read this because I don't know how much of you all saw these things in the paper today. But in going through the paper today I came across this, I say," my goodness!" And knowing I was coming I say I will bring it and read it to you. This is the minister of Public Administration, a man call Kennedy Swaratsingh.

They had this big symposium ICT business symposium, at Hyatt Regency hotel there, and they are demonstrating some things and trying to bring in this world, because I was preaching Sunday and say the problem is people don't know the world that is changing around them. And I say the problem is they reading the message book in '64 and '63 but living in 2008. So if they can't see Bro. Branham using '63 and '62 words and terms, but talking about an age, that we was going to find ourselves in forty five years after. So if you can't do the math and you can't understand what's really happening, that is how message churches will get buried in the word talking about something, and everything happening around them, but there's no perception. So they're under the illusion, they're seeing the beauty but they can't see the beast; they're getting under the deception because there is no perception, at what they're looking at.

And that's why the prophet say you better have the Token to examine these things when it's passing through you, because it would be so simple people will end up in the tribulation saying, "wasn't there supposed to be a rapture." You understand.

Remember I preach and showed you how they put the age to sleep. If you don't understand this scripture the world right now is under a delusion to believe the lie. That only came when they reject Jesus, that's why the devil is incarnated in the people, and he say, "can you see how Lucifer is building his kingdom?"

And I try to explain to you, about a couple of the crews, the demolition crew, and the reconstruction crew and how they're bring it from international to globalization. I'm trying to....What I'm try to do? Raise you level of awareness, I'm trying to bring you into a greater perception, so you get out from under the illusion. In other words, you see the modern event are to become clear by the prophecy. That means it'll take you out of the

deception that the world is deceived in and you get perception and you see what it is, you see the scripture coming to pass, you see the beast at work, you don't get trap in the beauty. He build a more beautiful kingdom than Michael own, this is the thing.

And they say "by next year, you would be able to use one card as your national identification card, your drivers' permit, and your grocery smart card," see how subtil that is? Says Minster of Public Administration Kennedy Swaratsingh, "that's what we are moving to now. Like a centralized system" he added while speaking recently at the national information, communication, and technology symposium; that's the tree of knowledge, that's the knowledgeable civilization, that the age of computer and that's the information super highway, and that's what I have been preaching about.

That what God start to open back there, in 1989, with the "*return of the global village*." Watch, "this card will also contain biometric data. Biometrics is the science and technology of measuring and analyzing biological data. In information technology biometrics refer to technology that measure and analyse human body characteristics such as: fingerprints, eye retinas and irises, voice patterns, facial patterns, and hand measurements for identification purposes." So right now you have plastic, you does go down in the licensing office and get, next year they giving you a different one. Right now you does go and get your little card to get you points in the grocery when you're spending you money and the housewives love that. You get a turkey for Christmas, with your points, you understand, Smart shopper card and these things.

And, then, also your national ID card, is all becoming one card, you know why? The science has come to the place that they are making you feel instead you have to run down by the licensing office and run over by the ID card place and run down here by the hospital or the centre and you have to run for many other place, no you have one card, it will be easy for you, because the technology is here to help you.

While Swaratsingh said "they are not sure which national card will adapt to suite the proposed all for one purpose, he did say by the beginning of next year, he would be able to say more on it." He also said "they were looking to set up a system by which prisoners

would appear in court virtually, via video conferencing. So we don't have to spend all that money, to get all these guard and Brinks and Amalgamated to carry a few prisoners, and get air condition because sometime there're sick and they are holding bay court and get this here, and disrupting the court, and then the public, and then you have to get so much police to protect in case there's a break.

We'll keep you right in prison, we'll have an area in the prison, you will go in there, you will dress the same way, which, they didn't write this but I'm already visualizing this, then they go right in and that room would be like a little place and you sit there and just like we does have a service here. It wouldn't look too good if I come here in my pajama right and tell the camera just keep me here (Bro Vin points his upper body) and I put on a tie, a shirt, and I'm in my pajama, that won't look too good.

But yet, they can do that, they can do that and then the people ain't seeing; only above here saying, wow, that shirt and tie match eh. And they get the edited version, see, well the thing is, they will have that there and when they call..., we dedicate babies already, and now we have to go on to the communion which is the way when we break the bread and bless it here, and then time to serve they'll just do the serving here, see.

Just like I does hand this one a tray, and hand that one a tray, and they go and start to serve, they just pick up their tray and start to serve in the line here, we are having a communion service like that with everybody. Well they're right there, you going to go there, and they'll have a camera on you and they have a communication link to link you to the court, and when they say ok we call for the prisoner now, to appear, you in that room, the camera's on you and the same way like you see on CNN. They start to ask you question, you have to answer, and then that become a record on video and audio, you understand?

So then they going to ..., the court now, a lot of things you're not even going to see, and the society will look good and cool, no crowd outside making noise and calling the man a dog, and he's hiding from the police and he have a papers over his face, you know, and his family going through...it won't have that no more, so the society will even look nice. All this kind of thing what does look like a thing around the place they have a way by technology

now; they could remove that from the public view. And a visitor could say, “but these people orderly and nice eh.”

Why? Because the world, what you see is what you know, what you don't see is what you don't know. So they could control what you see and what you hear and what you're expose to, and what you don't see and hear don't exist in your world. That's what he did Eve, the same thing. What a world friends.

He also said “they were looking to set up a system by which prisoners could appear in court virtually,” because remember when I preach back there the “**The Judgment Is Set And The Books Are Opened.**” And I show you the judgment; everybody, and I say you see how the saints will judge the earth, how Bro. Branham tell us, and you see in this age how the whole world was in the court with O.J. Simpson, it was the first televised court case, internationally, and they was trying out the system from quite there. And then the battlefield it come... the whole world was in the battlefield in Iraq and Afghanistan right there. See the bombs going, how there're going, down the streets and every thing.

The age has come to a place, that's why we have to have revelation; we have to have discernment, the two spirits, going to be so close, if it's possible. You have to be able to know the difference, and that's where it will take the spirit of wisdom and revelation in the knowledge of Jesus Christ.

“Rather than having a daily toil of transporting prisoner under maximum security to and from the courts every time they have to appear before a magistrate, the minister assured that this system is used in several countries including U.K. The Trinidad and Tobago judiciary and legal system are molded after the system in Britain. He said his Ministry is working with legal officials to make this a reality and they will soon have updates on the progress they were making.”

In other words, these are the things that comes out when these men go away and they have these special conferences. And they handing down the big industrialize nations, after they make the decisions, just like how they put the World Cup Cricket here and they wanted certain things done to get certain laws, is how they does bring it down to the societies. So when they go up to this, they come there, and then they begin to bring this out to the public,

and this become implementation, these things are already decided and they have their timetable for implementation.

You see, that's where... when you don't have revelation, you would be walking in the world, like, "how they could do that, how he...", "a man with a placard in the street. These things decide twenty years ago. Since they had the ship rider agreement, and go back in '92, when I preach on that you will understand how those things come in.

That from Anchorage to Tierra del Fuego, from Anchorage in Alaska, to Tierra del Fuego in Chile. They have the whole Americas is a system designed with satellite, everything, with the industries, that's why companies merge, that's why army, part come from Haiti, in Haiti it have soldiers from China, you have soldiers from Europe, you have soldiers from the Caribbean. What they doing all that for? because while the world going along they-they testing, implementing, and bringing it in by degrees, and then when it start to become publicize to the people, is when these things come out to the public, and that's why people now, don't see the lion in the bush creeping up slowly, but the prophet say he was watching under binoculars. But the little sheep there, getting a funny feeling but ain't know is a lion coming.

He said "his Ministry was working with legal officials to make this a reality and will soon have updates on the progress they were making." And while I was reading that in the Express, in the Guardian at the same time, hear this, in Britain, "the government launch," this is London "the government launch the first," this is the government in Britain eh, "launch the first phase of a controversial new identity card scheme Tuesday, forcing certain foreign nationals to start carrying the documents from later this week."

When this is coming friends is because something is about to happen. You see, it is not just about shortage of food, they keep the third world people, on working day and night to get food to eat, somebody could only think bread and butter, and from the time your bread and butter, losing sight of it or diminishing, you get angry because that is your survival.

So that is just jerking the chain on the dog that is chained. But the thing is, they are moving things in place, that when the time come to process people and identify people it is very, very easy to

know who. I..., me and Pablo was...something; he was trying to help me fix something on my computer. And I see him type in Third Exodus and when he typed in Third Exodus, a whole bunch of stuff come up, so I said, “wait nah, let me do this myself,” so I typed in Third Exodus and lo and behold, I see this whole compound on a Google map on there; an aerial view of the whole place, and they put Third Exodus Christian Assembly and then, it had, in ...some...thing that they have in Trinidad, like people come in the country and so on and they maybe, to go to church, where they have a list of all the churches, and different things, they had the church inside of there too. So I said, “what on earth is this,” I say, “look I am the pastor in here and don’t know what’s going on, “the Lord just have me to notice that, to type in the thing for curiosity.

They say, “ the government launched the first phase of a controversial new identity card scheme” this is in London “Tuesday, forcing certain foreign nationals to start carrying the documents from later this week,” this is today paper. “The government has stuck with the programme claiming it will help fight terrorism and illegal immigration, despise criticism from opposition parties and civil liberties groups who argue the ID cards threaten individuals’ privacy.” See, that means nothing; individuals privacy means nothing because what is called democracy is not democracy, democracy died years ago friends, two thousand and one democracy is finish.

Remember you hear me preach, I say, “they cross the line of demarcation;” it’s a new world they come into. That’s why sometimes I implore from the desk, “believe what I’m saying.” God plan always for his people is to put a watchman in the tower. God never have a city and it ain’t have no watchman in the tower, read your Bible. Somebody have to be seeing and warning the people, blowing the trumpet. Go in the book of Joel when the locust start to invade the land, he say, “blow the trumpet in Zion, sound an alarm.” Let the priest get in the porch of the altar and start to weep and cry. Let the Bridegroom and the bride come out the bride chamber, when the locust invasion start to move.

That locust invasion start under the fifth trumpet, woe, woe, woe by reason of the last three trumpets, that’s why I’m saying, the world that is being shown to you is not the world. That’s why God

come back and show Daniel the world from his view, not from man's view, so he can have revelation in the midst of what ...and have a repellent, not to be influenced and be conformed to this world, but be transformed by the renewing of his mind. Go and see on the message **Power Of Transformation** if that's the scripture the prophet used, and open up how Satan pervert the true Eden to bring in an Eden of death. An Eden where sin is glorified, an Eden where sin is legalized, and show you how it come in. And he came with the message to be transformed by the renewing of the mind, **God's Power To Transform** and **Power Of Transformation**.

The beauty and this beast we are talking about is not the bride with the beast, no. The beauty is that Jezebel system that look so beautiful and the beast who is veiled behind that beauty. The beauty like gold and silver and all these different things, and them ravenous predators behind that beauty, that's the thing. All these white collar criminals, all these people there who does uphold and ...his contractors, and his powerbrokers, and his engineers who help building this system to enslave people where they can't buy or sell, where they will be forced and trapped into a system of false worship.

It have people passing laws, and voting to pass things because they are prejudice in their thinking, because people are documented, and they make them feel that, you're just another Jim Jones. And they aired that Jim Jones thing here, they say thirty years after, (we have, you know) and they aired that Jim Jones thing all over in the printed media and the electronic media, they put that Jim Jones thing. And when I see that I was telling Bro. Elias and them, I say, "you see that, watch here," I says, "look! why are they bringing that at this time."

I think it's good for me to come, I'm glad I came here tonight. Yeah. **Deception and Perception, Illusion and Reality**; they blind the mind of the people. What did the god of this evil age do? Blind the minds of the people, they only see it the way he presents it. The victory and the escape is seeing how God reveal it, that's the reason he's howling, his scheme has been uncovered by the message, we see him as he is, not how he hides and disguise himself, to present himself. Ahab disguise and Jezebel paint: **Disguised for Deception**. Remember those messages **The Many**

Painted Faces of Jezebel. The spirit warning with these things and it's coming in more and more.

And that why the church in this hour, let the revelation get into your heart and let it influence your life, do not be easily manipulated and people have you talking thing, and you talking all kind of things about here and what going on, and what they saying, and so and so and so and you talking to all the wrong people.

You have to know the hour you are living in, the Bible promise these things, this is what we wonder about when we talk about the mark of the beast, what you think that this. When you talk about a persecution, when he say, "church and state is to unite again," and he says, "you know how they will unite, Rome will have to bail them out, out of their debt," he say, "that will bring it".

And I preach and tell you that is here already, that is what that thing was. The system crash way back this year worst than Wall Street. But you know what happen? They bring it down to soft landing Shh, shh, shh, because they have the technology and these things to deceive the people and hold the people right there and they try to bring it down to soft landing.

And that's why quickly they're putting them things in place, because all these system, all them big meetings, that all the people does go out to; remember the world is divided, dividing the land for... remember the world is divided, remember he break it up in pieces, I say that, that ain't mean mash it up you know. That is, break up by design, trade zones, this here, financial centers, information networks, why? he is building a world, what's the purpose of building the world? To enslave and trap the inhabitants of the world so they'll worship him as God. What is the Rapture? So to get us who want to worship the Lamb out of here. You understand what I'm saying. Because he would not let us be killed and slaughtered like it was back there, no more, not this time. He's getting ready for marriage, He's getting ready for marriage, honeymoon, He ain't going for no more Dark Ages, its honeymoon. Next attraction coming soon, bridegroom and bride going for honeymoon. So Timmy get ready with the pictures, I'm finish here.

"The government has stuck with the programme claiming it will help fight terrorism and illegal immigration, despise criticism from opposition parties and civil liberties rights

groups, who argue the ID cards threaten the individuals' privacy." That thing already signed away in America already. Every e-mail, every telephone call is monitored; Mr. Bush signed that into law. How many remembered when I came back? I was coming back from Arizona too, and I told you, I stop in Houston, in the flood and I saw the thing, and I was... came back and I was preaching on the *Loosing of the Raven and the Dove* and the time: October 2007.

"Those thought most likely to abuse the immigration system, individuals applying for marriage or student visas, will be the first to apply for the cards, which will be issued from later this week. Government minister said that within three years, all new workers from outside the European economic area will have ID cards, with ninety percent coverage by two thousand and fourteen. In time identity cards for foreign nationals, will replace paper documents and gave employers a safe and secure way of checking a migrant's right to work and studying in the UK," Home Security Jacqui Smith said.

Remember through the cricket business they set up the laws, they bring us in the Caricom thing, we have the Caricom machine readable passport now, and then the people can work within the region. So the same... what they're bringing here is just a template off of the thing there, that's a system for the world. These are the things that doesn't be published when the G8 and the G20 and them get together.

But then that does decide there, drop down on another level regionally and you hear a regional meeting, and the regional heads, minister of foreign affairs and so will go to one of those meeting. They go there, they get their briefing on what's the new policy for the region, they go back to their head of governments, or government heads from a region does get together and they talk these things. Then afterwards, they bring it through the ministry that relates to it, and implementation starts. So when they coming to implementations, that means the thing done... implementation is the last stage of sitting there, getting their ideas, discussing it, making it viable, just what they want and every thing, use certain countries for testing and then begin to start implementation. So when you think something now happening, is when it's done happened. So that way no little group

Look the lil' thing with the EPA; they bawl, don't sign that everybody, don't sign it; people can bawl, they have no power, you could scream all you want and tell this water in the Great Lakes, go down in Arizona, it won't do it. A law set in motion to fix that a certain way already; that done decided. No government, no new government....that's why all this old talk, this one coming to reverse this and reverse that, what...when one government come in, it cannot change certain things. Lucifer is building a kingdom.

The owner of the house is not two contractors; one doing electrical work, one doing the masonry work and they arguing, "you busting up me thing here," he can't fire him, he can't put him off the job because it's not their house. Both of them could get fired for keeping back the work, they only working in the building. You see, you have...the trouble is when people does can't see it the way it is in the Bible; but you see, once you see it in the Bible and you stay there, all that ole talk does fall to the ground and boil down and it does come back to what the word say. Because when the word leave God's mouth, it will not return unto God void, it shall accomplish the purpose where unto it was sent.

And if it didn't stop from back when he was El Ella Elohim until 2008 you think it stop here now? You think the prophet didn't come the time he was supposed to come? You think the Seals wasn't open... look at God's grace, God open the Seals back in '63. And all that the Bride needed in 2008 was already provided. Seen and spoken because it was laying here in the Bible and that's why they couldn't understand the prophet. Because he seen the thing, before it came to pass. He was an eagle, he went high up and see the cup full and see it finished and speak it like it finish in the present.

Because to him the future was present, but for us it wasn't the present, the future was still future because we didn't have the vision he had, but when the Holy Spirit start to bring that kind of vision, then many thing in the future is present, to people who have faith because faith is long range vision. Faith don't look here, faith does look down the road. And didn't Jesus say "you see it get dark in the sky, you say rain is going to come and it does." He say "and you see the hot wind and every thing else, say, we are going to have a storm and it does," he say, "how much more can you discern the sign of the time, if you could believe all that, and even

predict it”, because you seeing all the movements and all the activities to produce the thing. It’s a law, it’s a law.

“So in time identity cards for foreign national, will replace paper documents and gave employers a safe and secure way of checking a migrant’s right.” Because see? that may make somebody feel good, say aah your job secure as a local, so no foreigner ain’t coming to take your job, because on the job site, the way the system would be set up is to secure you that somebody don’t come and take your job, and somebody come here and it sound nice, but that’s a diversion, that’s-that’s just the presentation to get pass defenses, but it’s designed for control of everybody. Because whether you work, to buy or sell, to eat or drink, it coming through legislation and that is control from government and government is tied to the church and it’s church and state and you’re in the system. You understand?

“The documents will feature: the holder’s name, date of birth, the visitor visa status, and right to work, as well as photograph, fingerprint record, and other biometric data.” Isn’t this strange? What happening in London and what happening in Trinidad here at the same time, and when they...when I was reading the one from Trinidad, the minister said, he said aah “I’m sure that this system will used in other countries including United Kingdom,” and he said aah, “the Trinidad and Tobago judiciary and legal system are molded after the system in Britain.” So what they put there, they put it here because we’re under the same system, same type of law.

That was today papers. You read the paper? It don’t get you unsanctified. Some people don’t read paper you know, no wonder they living in some self made world. Thinking like ah... like the rapture like a fairy, sshhh and disappear, Is a system you have to resist.

When the false worship start, and **they** fail to come out, is a system that say, “ death if you don’t do it”, and they say, “we not bowing down to the system” but it was a faith, because they understood the move of the system. When they tried to trap Daniel, Daniel understood the objective of the system and he opened his window and prayed towards Jerusalem. Because he, in other words, if he didn’t know the system, and what the system was doing, and what the system was planning for the believers, he wouldn’t have been in condition to face it. He would have led

other people into the slaughter by ignorance, because they looking to him like a leader, and he ain't know what going on, and he walking blind and the blind following the blind and all end in the ditch. But Daniel was a watchman. So that's it. God bless you.

We have the few pictures we'll show that to you and maybe I say a word of prayer here and the brother, who will come behind, will after the picture finish will close the service.

If you don't see me, before I come, I told Brother Patrick, please, no hand shakes, no...I ain't pack a socks yet and I'm here, you understand what I'm saying, I'm leaving tomorrow. So every time I'm going to stand up to one, and I go through fifty handshakes and fifty God bless you. I had that Sunday, I just came in to talk to you and I pass my time by far, by far, by far, because is so I make up, I come to you, I want to leave and I can't leave you, it hard to leave you, so I preach to you a little bit. I trust it help you and it was a blessing to you. Amen. God bless you tonight. Amen

It's a privilege to sit with believers. Let's just bow our hearts for a word of prayer. Beloved Jesus, you know all things and all things are under your control, I remember when Paul had to travel that day, he preach so long, he went pass midnight, Eutychus fell over the window and died, it was in the wee hours of the morning, and they had to walk down to the sea, get into the ship; the saints went down there even was, by the seashore. Dear God we know, it was hard for him to leave, it was hard for them to part with him and he started to speak to them and the preaching just go on and on and on but yet Lord we are making a journey Father, longer than Paul ever made and today in this age of jet travel and to cover the distance, the wear and tear on the body, especially after coming back from such a hectic journey, such a far journey to the bottom of the earth in Chile and then going all the way up into Africa.

Lord we just pray for continuing grace and strength to serve your people, to serve you dear God, in this late hour as we see the things coming in. Lord Jesus to sensitize, and to alert the people that they will be vigilant and watchful, knowing the enemy is like a roaring lion trying to devour who he may, as we see these things moving in, Lord how we want to, not be caught in the illusion, how we don't want to be trapped in the deception, but we want to have perception Lord, we want to be able to see the reality that is behind

that illusion. To see the beast behind that beauty that is being projected as a friendly face, as a beautiful face, the face of the serpent, enticing, luring, hypnotizing, Lord it's so enchanting, captivating, but oh God it is so deadly, full of poison.

Lord we just pray that you will watch over the flock and your ministers, these godly men that you have given to us Father, dear God that stand and labour also day and night for the people; bless them and inspire them, to keep these word alive in the heart of the people; your spirit, your presence will ever be close, not just here but throughout the region dear God.

And all that are in offices of responsibility, God this is not an hour to be running helter-skelter, this is a time dear God to know that we are aware, we understand the junctions of the symphony. Lord we are looking at the music sheet and we are understanding directions of the director, who is in the spirit of the composer, giving out the divine directions. That the entire symphony Lord could be in the rhythm of this great symphony that is being played out, this great drama of God that is unfolding, the word of God allotted for this age.

Help us Lord to see it, to understand it Lord, may it bring such a faith in our hearts. May there be such a godly respect, among one another Father in the assembly, may there be such a love and a kindred spirit, to stand in support and to be willing to help and to rise up and see the bigger picture Father, we get away from all our little narrow mindedness and these things. We work as one, *the unity of the one God, in the one Church, united by one language, united under one headship*, with love knitting us together. This is what we desire Father; you can achieve great things when your people are united. Satan is uniting man under his plan and you are united man under your plan; they are coming to a oneness and you are bringing your bride into a oneness with yourself, oh God to meet that challenge.

Lord, this is the hour we want to walk close like Elijah walked that hour for dimensional travel. He was in close association with the unseen world. Candidate for the supernatural, that is where we want to walk like Enoch walk. Oh God, knowing that we are fixing to be taken up also in this hour, let these thing be engraved in our hearts Lord, let it govern and influence our lives.

Bless this church Father, regionally, all these parts are one dear God, bless them and let there continually Lord, be a strengthening and an uplifting, that we can come into condition, having grace and faith for rapturing grace. We see your spirit moving close amongst us on **Dreams, and Visions, Dimension, Prophecies**; Lord the spirit of God keeping us abreast, that we could have the mind of Christ, we could know how to carry out your word Father. May you grant it Lord.

Remember every family, every servant of God, every department of the work, remember them all dear God. May this hour bring a deeper commitment, a fresh vision Lord, bring new inspiration, that Lord, we could run for the prize, we could... reaching forth, strain every nerve, pressing for the mark oh God, that we might win Christ. Grant it Lord Jesus, keep our eyes looking unto Jesus, the author and finisher of our faith, raising back up the feeble hands and the lame feet could be healed, come back in the path, oh God, may you grant it Father.

Let us not be childish, let us not get caught in pettiness, let us dear God be a mature church. May even the young ones, God among us, that we love so much, how Lord it burns my heart, I wish I could get another opportunity to spend some time with them again, Lord I pray that even while the services are delegated, God, they would be in the consideration of them that would stand to minister and they will be strengthened, and built up, oh God and fortified. We so love you Lord Jesus, we so grateful, that we could commit everything into your mighty hands, as we just stay back to watch the few pictures and few things Lord, that they could, by seeing and hearing it create an impression upon the heart and mind.

And dear God, when they go to pray, they will have images before them, they will see faces, they will have the thing in their remembrance, they would know dear God, in this hour we are also a unit as there are many other units that make up this beautiful body of the bride of Jesus Christ that is upon the earth, and how we are in need of each other Father. A body united by blood, a body with one DNA, we thank you Father, we commit all things in your hands, be with us Lord, and when we come to the end of the meeting tonight, Lord may there not be one who would leave the same way when they go out, in the name of Jesus Christ we asked these things Amen.

[Pictures are showed of the visit to Chile and Congo.]

[Bro Melville takes pulpit and closed the service in prayer].
