

Third Exodus Assembly

An
Immune
Church

Pastor Vinworth A. Dayal

26th January 2003

AN IMMUNE CHURCH

Sunday 26th January, 2003

Let's just bow our heads for prayer, as we approach His mighty presence, thinking of this blessed privilege that we have, to gather together like this, to know that His great, august presence is here among us. Let's just hold our request in our hearts as we approach Him. He knows what we have need of - the Bible says - even before we ask. And to know that as we come, He has given us a sure promise that He shall supply all our needs according to His riches in glory.

Dear God, with bowed hearts in Your great, august presence, we draw near unto You with a true heart in full assurance of faith. We come, dear God, because You have opened up this great channel of divine revelation unto us, that we could approach You as a Royal Priesthood, knowing, dear God, as we come to minister unto You today, to stand and minister in Your courts, bringing the fruits of our lips, a sacrifice of praise into Your house, offering it up unto You continually, knowing, oh God, that this is pleasing, this is acceptable in Your sight.

To know that we have an altar, we have a table, oh God, that is spread with fresh Bread - Bread that You have provided for this day; that even while we are gathered together in Your presence, God, that we can be nourished and we can be strengthened. We thank You, Lord, for providing for us an atonement, a laver, dear God, all that we have need of, dear God; that we can come and approach Your presence without sin, that we could come without condemnation, we could come without guilt, dear God.

To know, dear God, that if there is any this morning, standing here bound in condemnation, desiring to be released from guilt and fear; if there is one, oh God, seeing, dear God, the evidence of sin in their life, and, God, they are being robed of their peace, You have made provision that we can come, Lord, and be loosed from these things; we can be released from it, Lord, knowing that through confession and faith we are subject to all the power of God that is in heaven.

Thinking, oh God, of how You spoke to us concerning Jonah, a man who, Lord God, was taken up in his own self will. A man,

dear God, who was trying to run from Your presence, a man who found himself, dear God, deep down in the bottom of the sea, in the belly of a fish; in the belly of hell he said, he cried. Yet, dear God, looking unto You knowing that You have made provision, Father, that even though there was one away from Your presence, one, dear God, who had sinned, Lord, yet there was a way to be reconciled to You. And so, dear God, he trusted in Your grace and he exercised his faith to take a hold of the promise that You had made; and out of a sincere prayer not even looking at his symptoms, calling it lying vanities, God, You brought him out of the condition that he was trapped in.

I pray that same faith will strike hearts today, Father. Dear God, we realize that all these things were written for our examples, because You desire that we would have all that You have provided, dear God. Knowing that there is healing, there is deliverance, there is joy and peace and happiness, God, all that Your children have need of today. You stand here in our midst as Jehovah Rapha, Jehovah Jireh, Jehovah Shammah, Jehovah Shalom, Jehovah Tsidkenu and Jehovah Raah. God, all that we have need of, Father, You stand here with Your ear attentive to the voice of our supplication.

God, we pray today that Your Holy Spirit will lead us and direct us in the paths of service. Bring our hearts and minds into the channel where You can speak to us and we can hear Your voice so clear, God, that we can be instructed in the way that we should go, Father. That the things that is beneficial to us, that You would desire to communicate to us, God, our faith can draw from You, Lord, all that we have need of today. May Your angels take their position, Lord. We are reminded that it is written that they encamp round about us, they are ministering spirits sent from the presence of God to minister unto us who are the heirs of salvation.

Dear God, as we come, we want to come believing; knowing that he that comes to God must believe that He is and that He is a rewarder of them who diligently seek Him. Let everything be in its right place, Father, and the Spirit of the living God could have free course here today, and all that Your children have need of can be met, Father; And You can be pleased with our gathering today, You can be pleased with the attitude in which we come.

God, remember all that is connected with us, Father, knowing that when we stand here we minister to these, that when they would receive the tape they would sit and gather around the Word and be fed, dear God. Let Your Holy Spirit take them under Your divine consideration, knowing that You know what they have need of, that even we could be directed to speak things that would be meaningful and helpful to them, Father. Have Your blessed way today. Get honor and glory. We commit all things into Your mighty hands. We thank You in advance for what You would do, for we believe and pray asking these mercies in the precious wonderful name of Jesus Christ. Amen.

God richly bless you. We want to greet you this morning in the precious, lovely name of the Lord Jesus Christ. I would like to invite your attention to the book of Revelation, chapter 6. I want to read a couple of places that I read recently in one of the services that went by, to keep our focus and our attention in these places that we are trying to hold before the church at this time. In bringing these messages, sometimes we come in the pulpit and we would just maybe take a little part of the Word and speak on it. And we find that sometimes we are unable to even finish, and so instead of moving around in too many different places, we would like to stay there so we can be kept in remembrance. Also we can stay under the things that we believe the Holy Spirit is ministering to us.

I would like to read out of Revelation Chapter 6 again, verses 7 and 8.

And when he had opened the fourth seal, I heard the voice of the fourth beast say, Come and see.

And I looked, and behold a pale horse: and his name that sat on him was Death,

This same one rode from the very beginning under the first seal, under the second seal and under the third seal. As a white horse in the first seal, as a red horse in the second seal, a black horse in the third seal and this is a pale horse in the fourth seal; and each time they give a new colour to the horse. All of that is significant. It means something. It is describing something here that has a specific meaning because it is a mystery that's being symbolized; and this mystery that is being symbolized is something that will tie the whole Bible together, from Genesis all the way to Revelation.

So it is a lot of truth that is condensed there and that's why you know it is not just to say the pale horse is religious, politics and demon power; and we make a statement like that and then we don't see any further than that. But it's a symbol and it symbolizes a power, because a beast in the Bible represents a power, and this beast has a rider. And the rider is upon this horse. The one that controls this horse, the one that moves this power, his name is Death.

Now he is being revealed when the voice of the fourth living creature is speaking, because this is the time of revelation. There is no more beast after the fourth beast. After the fourth beast everything is revealed - the fourth beast which was the eagle. The first beast which was the living creature. The first living creature was the lion, the second was the ox, the third was the man and the fourth was the eagle. And eagle in the Bible, you know, represents prophets. God likens the prophets to eagles. God Himself, the great Jehovah Prophet, great God Prophet is the great Eagle. And so this is the time of revelation; that's the time we are living in - the unveiling of the Word, when all that was hidden is coming to light. So these things are very significant and very meaningful and we want to pay attention to it, remember it, and as we read it we want to absorb it.

I looked and behold a pale horse; and his name that sat on him was Death, and Hell followed with him.

And sometimes we think of Hell as a location - a place somewhere. We think of Eternal Life maybe as Heaven and a place somewhere, but Eternal Life is not just a location. It is not a geographic location - it's a Person. There is only one Person that is Eternal, and that's God. And so his counterpart here. There's only two heads. There's only two trees: the Tree of Life and the tree of knowledge of good and evil. It's God and Satan; it's Life and Death. So Death here is also a person and hell is also personified.

Notice that, hell is also personified because this is the end time. And this is being revealed here because right away this tells us something that's happening in this hour on the face of the earth. There is a pale horse, there is death, and there is hell. If we are conscious in this age and this eagle anointing is upon the church then we will see death, we will see hell, we will see these things in

the age because the eagle that revealed this, is revealing this to His Elect. This is not just something abstract; the Eagle came to the church because the church must have this. It is promised the whole world would be deceived if it was possible, Satan, this death, deceive the whole world.

But here we see the revelation coming and being given to the church, because the Seals pertain to the church. Seals have to do with religious disturbance. That's when truth is being revealed in the church. It's a shaking time because the Truth is being revealed; it shakes - real truth, Bible truth. Because there is no way for Bible truth to come forth. You see, God don't just reveal Bible truth to a man in a corner, and he reads his Bible, he scratches his head and he says, "Eh, this is something here." And he writes a date by it and he colours it with his marker and it stays there. God doesn't revealed truth that way.

When truth is revealed to a man he blows a trumpet, he declares truth. When truth is revealed to a man by the Spirit, that truth becomes personified in the man. The Word becomes Spirit and Life. That becomes a lived voice, because there is no prevailing power as revelation; and when truth is revealed to a man, that's overcoming power being put in a man's life. Then that man is going to walk and overcome. That man is going to conquer. Why? Because the Spirit is revealing truth. Why? Because that man needs the Word, not just as letter. He needs the Word as a lamp to his feet and a light to his pathway. He needs the Word to know the will of God, how to walk and live in this world.

That's why God is revealing truth. That's why in denomination they preach the Bible over and over but they are not going in the Rapture. They are not being prepared for the Rapture, they are not being separated from the world, they are not being dressed and made ready. But where the Word is being preached among the Elect, it separates, it slices, it cuts a people free, it washes them, it dresses them, it anoints them and gives them faith to be changed.

So that's why this revelation is coming forth, because there is no way in this age to overcome, until you see Hell and Death. Did you get that? You cannot be an overcomer if you don't know the scheme of the enemy, if you don't know what the enemy is doing. Because when that beast came forth - that's a combat. When the lion spoke it was to combat something. When the ox brought this

revelation, “come and see,” it was to combat something. When the eagle is revealing here it is to combat something. It’s a challenge. It’s a challenge. And this is raising up - a power is being released so these people can face that challenge. Hell and Death presents a challenge. Wherever Hell moves he kills. Wherever Death rides he kills.

If Death could ride through this church this morning, brother, we would be a bunch of dead people by the time he is finished riding. We’ll become hell following him, if he can conquer us, if he can move us from our place. But if Death is going to come through that door and Life is here, and that eagle anointing is here, there would be a standard raised, when the enemy comes like a flood. The Word will live in the people. Do you get that? That’s right.

So it is not a little scripture here we are talking about. No, no, this is the Word. This is the Bible. This is revelation that we are looking at. It’s a challenge, that’s why it unfolds that way. An announcement is made in the heaven, a Seal is open, and a mystery unfolds. What is the announcement? The eagle is speaking, “Come and see.” When you come and see, what do you see? A seal is being torn back and a mystery unfolds. Is that right? And that mystery is showing you the power that is bringing death, because his name is Death. Anything you see dying is this fellow. Did you get that?

What follows death in the natural? The grave. Did you get that? What follows death in the spirit realm - spiritual death? Hell. That’s right. So here you see. Now what follows when a man walked in the truth and he fails to continue to walk in that truth? What follows that? Organization - that is the grave. That’s spiritual grave, organization, denomination. That’s why as long as that Word is kept alive in that man’s heart, he is unorganized. If he is unorganized, he is Spirit led, he’s not controlled by man. He is Spirit led. He lives by the Word. He’s an overcomer. Are you catching the picture?

And I looked, and behold a pale horse: and his name that sat on him is Death, and Hell followed with him. And power was given to them over the fourth part of

Mars?

... *fourth part of the earth*

That's where we live. We live on the Earth.

... *to kill with the sword.*

That's a slaughtering weapon. A sword is a symbol of a weapon that brings death. It's a military symbol. Whether it's a gun, whether it's a physical sword, whether it is a biological weapon or a chemical weapon, it's from an arsenal. It's symbolized by sword. It's something that can take peace from the earth. Is that right? It can take peace from a family. Wherever you see death by the sword, by a weapon, by a gun, whatever it is, you are seeing this fellow riding. You read about people getting slain everyday. It is sword killing them; they are dying by sword. That's right. Whether in peacetime or whether in wartime.

...*and with hunger,*

And a lot of things are spawned from hunger. A lot of things are spawned from hunger. Hunger - which is famine, which is economic crisis - starts crime: people can't get work, people can't make money, people can't live and people want money to live and they can't get a job so they steal. The sword start to move - they kill and they rob and they take. That's right. Hunger: women go into prostitution, morals are broken and homes fall apart. That's right. Hunger is a word there but it's a symbol. It's a symbol. By these four. See?

...*and with death,*

That's pestilence.

...*and with death,*

If you go over in Mathew 24 you will see that is pestilence, where the seal is over there.

...*and with the beast of the earth.*

And when you think of beast of the earth there, it doesn't just mean lion and tiger in the jungle somewhere. No. That's from an ant to an elephant.

Viruses, most of the time they are resident in animals. The mosquito, he brings typhoid, malaria and dengue. That fellow is flying with death and from the time he infects one person he deposits. He may take the blood of some animal that has a virus. That mosquito bites that animal and pulls blood from him, from that animal carries that virus. Now the virus of the animal is in the blood of the mosquito. Then that mosquito comes and bites you

and then you become the host of the virus that was in the animal because it is moved from the animal realm to man. How many know death in the Bible started from animal to man? How many know death was resident in a beast before it came in the human being? That is the Word, friends. See? It is where your mind is.

Dogs bringing rabies and all kinds of different things, all kinds of viruses. The rat is one of the biggest carriers of all kinds of viruses - rats. Then in the home, cockroaches, all these things, that no matter what you try to do, they show up. You don't know where they come from. You spray all that insecticide in your house, all that D.D.T and everything else, you breathe it in and it does you more harm than it does the cockroaches and they. That's right. Then they drop all their deposits in your house and it stays there and becomes a breeding ground for different things. Afterwards you start to breathe in that dust, you start to clean your house and everything else, brother, is all kind of diseases and germs inside of there. That's right. Beast of the earth.

May the Lord bless the reading of the Word. You may have your seat. I want to read out of Revelation: 7, and get back the first four verses in the book of Revelation there. I want to speak this morning on **An Immune Church. An Immune Church.**

So by these four things we are seeing: the sword, hunger, death and the beast of the earth, death is to come upon this generation. God will kill one-fourth part of the earth.

Revelation: 7 verse 1.

Now in this seal here, I want you to notice that fourth seal, this is killing one-fourth part of the earth. People will die by earthquakes too, people will die by tidal wave, people will die by heat stroke, people will die by different things, people will die by motor car accident, people will die by cigarette smoke and all kinds of different things you have that people will die by.

But one-fourth part of the earth, they will be killed by hell and death because remember this whole generation will get cremated. And one-fourth part of the earth is just maybe one billion point something - one and a half billion maybe. So when you think of death don't just think of it in a juvenile way. This death here is death that man is bringing about. This is not death by natural causes you are talking about here; this is the system that we live in. This is understanding the kind of system and the kind of age that

we live in. We are living in Satan's Eden. There is a prince of Persia, there is a prince of Trinidad and there is a prince of Jamaica. There is a prince. There are demons that rule nations. Is that Bible?

Was the king of Tyre sitting down there in Babylon? Did Isaiah talk to Satan in the king of Babylon? Did Ezekiel talk to Satan in the king of Tyre? In the book of Daniel was there a prince of Persia that warred with the angels who were bringing the messages to Daniel? Is that right? Did Jesus say that Satan offered Him the kingdom of the world? Is that in the Bible? Satan offered Him the kingdoms of the world. Why? It belonged to him, he fell heir to it. He built up his Eden, and he squatted on our inheritance and built his civilization. That's why this civilization had a beginning and it will have an end. Because everything that had a beginning will have an end. It's a perversion. It's not the original civilization; it's a civilization that started with Cain. Is that right? Cain went out and worked in science and technology and built this kind of world. He built the first city on the earth. Is that right? That's right.

So you look at that and you realize we are in the end time, in the revealing of the Word. Things went on for six thousand years covered up. But now in the end time God pulls the Seals back and when He uncovered the Word, He said, "Come and buy of me eye salve that you will see." When we start to see the world that God is showing us, it's not the world we grew up learning in school and what scientist tells us: 'life started by the big bang and man evolved from a monkey, and the Neanderthal man.' Satan wants to educate people in that kind of world. Then they want to talk about the civilization that was there: you know China was there twenty thousand years ago and this other nation - Africa was there so much thousands of years ago; and they manipulate history. If he injected a lie in the Word and distorted the Word to bring death in the beginning, do you think he wouldn't write his own history? That's right.

So all of that is to bring ignorance and to hold people in ignorance because the god of this world has blinded the minds of the people. He works in error and he has to get the people to believe the lie, and he has to blacken the truth and break the influence of the truth; and even go to great extents to make the

truth look so foolish until they laugh at it; like they laughed at Noah when he was building the Ark. It looked foolish. Like Pharaoh laughed at Moses when this old man came with a stick saying, "Let my people go." And he sat down on the throne there in the big superpower not knowing in a few months from there, he would be on his knees begging Moses to take the people and go. Why? Because God brings the things that are mighty to naught and God exalts the things that are humble; and He shows that the wisdom of man is foolishness and the weakness of God is greater than all that man can do. Not that God has anything weak in Him, but just to show - like Jesus used the terminology, "I cast out devils with my finger." See.

So when you look and see that we are in the end of the Book - and that's why under this message it's so strange to people. They can't figure out the message, especially if they think the message is just a further extension of what they learnt in denomination. So many times they are taught in a denominational way - no knowledge of the Bible; and when they hear these things in the Bible preached this way, it mystifies them. It astounds them. It's almost like unbelievable to them.

But to think that when the Word of God is opened we realize that there is nothing new under the sun. And we realize there is nothing that ever took place in a man's life, and whatever it is, in a man, in a city, in a nation, it's all written in the Word. That anything that is happening in the earth today, you can take that and go to the Bible and reveal it by the truth. And so God planned it that way so we will not be left without understanding because the church must understand the hour. Here we are living in an age where it never had civilization - at any other time in human history - like we have today that covers the globe.

In Noah's day it was just one little part of the earth that was populated and was the then known world. In Paul's day - In Jesus' time, still just another part of the earth was the then - known world. But today across the face of the globe, this civilization, for six thousand years of civilization beyond what it has been in any other age, in such magnitude; and here out of this age God is calling a little elected group.

We, in the island seventy miles by forty miles, if you look at the map of the world it's a dot, you just see the name written there,

you don't even see the drawing of the island. If it's a Caribbean map, you will see the island drawn a little bit because they just focus down in the Caribbean here; but if it is a map of the world you would see a dot. So right away globally speaking, when we look at it, we are nothing. We disappear. There is hardly any identification. I travel sometimes and people ask, "Where is Trinidad?" Is that off of Africa somewhere? Is that off of India somewhere? Where is this place? And to give ourselves recognition we say, just off of Venezuela. We use Venezuela to identify ourselves.

But here we are seeing in the vastness of all of this, God in His infinite wisdom, how He loves to work in little things. How the great things that baffles the human mind is never in big, big things, it is always in little things. That even when God Himself came down, in His first coming, the Word was being made flesh and they looked for Him out in the great cathedrals and they looked for Him the great cities; but He was born in a stinking stable, in a manger, wrapped in swaddling clothes. Amen. And humble herdsmen, shepherds knowing nothing about theology, are the ones whom the angels came, angels from Eternity, flying with the message to humble shepherds. God in simplicity. God in humility. And how many know when God does something the first time, He has to do it that way every other time? How many know He is the same yesterday, today and forever?

When He let Himself be known by His works, He reveals His characteristics. He uncovers His nature because He is doing it that way so He might be known and understood by His people. So His people - when they see Him, who He is and what He is - they can behold that; and in beholding that they can be changed from glory unto glory to become like Him. Is that the plan of God? To be like Jesus. Is that the desire in the heart of the people? On earth how I long to be like Him. All through life's journey, from earth to glory I want to be like Him. That's right.

Let's read from Revelation: 7.

We see these four judgements that is going to sweep the earth. Now, I want to show you the immunity we must have to protect us from this judgement. I wouldn't have time this morning. I don't want to say it as though I don't have the privilege to use time. I've been speaking here out of the book of Ezekiel. My scripture

reading was really to come from Ezekiel first; but kind of anticipating that my time is not going to be sufficient, I'm breaking straight to Revelation, so that I could just refer to Ezekiel if I don't get to read it. Because to really understand this, the principles of revealing this, is to go back to the scripture and find that in another place in the Bible to show you how that is taking place. Because Revelation 6, is the seals. That is under the seals. Revelation 7, still under the seals. But there is a mystery between the sixth seal and the seventh seal; having something to do with the Trumpets. Now 'trumpets' in the Bible had to do with political disturbance.

We live in a world where we must observe what happens in the political realm; otherwise we can't buy food, we don't know how to do our jobs, we don't know how to travel, and we don't know what to do. Every time we travel we have to go through certain political channels. You have to go through a Ministry of Immigration and so on to get a visa. You have to land at a certain port of entry. You have to be examined to see if you are qualified to come into the country. They are going to check certain things. If they have to extradite you, they contact your government. If you run into trouble in another country you have to go to your embassy over there for representation. Is that right? That is how the world is set up.

In your very economics there are things that are controlled. 'This' could come in the country without duty; 'this' has duty on it. See? So even to buy and trade, you are bound by certain things; so you must observe these things. To go in the store to buy food, they come out and say, "Well the new budget is 'so and so' and the price of 'that' went up, and flour is going up now, and 'this' is going up now." A measure of wheat for a penny, and two measures of barley. Do you read the Bible or you just read papers alone? See? The staff of life - bread.

In the little cartoon it had - The Chinese man drop the price of bread. The man say, "What's going on?" He says, "Chin put more water than flour. Water more than flour these days so I could afford to drop it because I put more water than flour." The cartoonist takes the hike in the price of flour and make a humor out of it because he knows that everybody know the terminology 'water more than flour'. See? It shows how people watch things. That man was watching that, and when he saw that a thought

struck him and he made people laugh at their situation, rather than work up themselves. Because he is telling you that you are going to find people doing all kinds of things with their bread now. You might get less wheat in it or something. Why? Because now it's something that they put at a different price; because these things are in the Bible.

When I was in Ezekiel there a couple weeks ago, what was God saying? He said, "You are going to eat bread by measure and you are going to drink water by measure." They are structuring things. When they start with your staff of life, you know that's economics. So we live under this.

So, 'trumpets' relates to political disturbance. I'm saying that to give you a picture because many times you hear 'Trumpets', and the first thing you think of is political. You think of just war. But I want to bring you to see. Well the thought I am trying to bring is. You walk every day in the system. This morning you come to church. Tomorrow morning you are going to work. Some of you work with the government; some of you work with an industry controlled by the government. Some of you are going to get your salary and the government is going to take tax out of it. That's right.

Some of you are sick and you may end up in the hospital and they will tell you, "no, no, nothing doing. Get a private doctor." And you better have faith for divine healing. Why? When these things are coming on like that it means to say, having faith for divine healing ought to be rising. God doesn't lead people into trouble just like that without preparing them. But if we are just in church, and church, and going through these kinds of things, we are not sensitive to what is happening around us. Our heads are buried in the Bible, we are talking about the book of Revelation, we are watching great dispensational charts; and every thing around us is happening and we can't see it. When you can't even see those things, could you see man catching the Word? Could you see man blowing trumpet? You can't see that because to see that you have to see all these other things too. And if you are really seeing that then you will spot these things quickly when it is happening around you in your environment; to show you are anointed and walking in the Spirit.

Those doctors are getting trouble but I'm not getting any trouble. I have medicine here to operate with. I'm full of medicine inside of here. I've got Balm in Gilead here, Sammy. Yes sir! Brother, I've got inoculation for the virus inside of here this morning. You hear what I came to preach on: **An immune church. An immune church.**

You are talking about judgement, angels casting fire on the earth. You are talking about the Day of Atonement, the sanctuary becoming smoky, and the high priest walks out. You are talking about the time of prayer to be fulfilled. It better have an immune church. That's right. You are talking about death riding in the land. The last plague is taking out everything that is not immunized, that is not protected and sealed away. Are you getting me?

Then you come here to spend a couple of hours to worship God, sing your praises, sit under the Word and to give Him thanks. He gave you health, He gave you strength, He put bread on your table and put clothes on your back and on your children's. Amen. He gave you a hope in your heart looking to go to glory. Is that right? Then you sit here for two hours, you hear the Word and you realize you are in the most precious place you could be, hearing these things in the hour, seeing the Word pointing you to the hour from the scripture. And once you see it in the Bible you know heaven and earth will pass away but that Word will never pass away. Hallelujah!

And once you see these things spoken by the end time prophet who gave the last sign to the church, that she would see before the change - Is that right? - Then you know how close it is. Then you know how close it is. Because you saw the one who turned his back, this Elohim in flesh. He did that and that was the sign, and then he opened his mouth and that was the voice. "Shall I hide from Abraham what I am about to do?" And what did He reveal? He had come down in investigation judgement. Is that right? And that changed Abraham's thinking and attitude right away, from the time He spoke those mysteries. Is that right? And the main thing He spoke apart from Sodom, was what? "I will return at the time of life and Sarah will bear the child." Is that right? His mind was on Sarah. His mind was on the one who was trying to believe all these years and couldn't believe. Amen.

Brother, all those viruses in her mind eating down there like a cancer, but He brought the inoculation. Amen. She got Dunamis. Glory be to God! She shook off those bugs, by the grace of God. She became immune; she was ready for the promise. Yes sir! Glory be to God in the highest. Do you think He doesn't know your troubles? Do you think He doesn't know what is hard for you to believe? Do you think He don't know some of you already gave up and is just going along? Amen. But do you think that could keep you out? No sir! Because He say. Somehow He holds you right inside of here, even though you just come and sit down like an ornament in that chair. Amen. Glory be to God! Brother, but then He comes and He calls you by your name. You sit under that Word there and you hear your name. God! My!

That's why I am constantly trying to hold those places, hold those places to get the church bolted down. To get the church to come out of the slothful, slow mind and move into these things. And I think He shook this place on Wednesday night. Amen. I think the Shipmaster found a lot of you down in the sides of the ship trying to sleep off your conviction, trying to run from the presence of God. Amen. Hallelujah!

Brother, I think it starts with an awakening. You begin to face up to your responsibilities all there. He started to do it; he started to face up because he could say, "I am the problem." He could own up. Isn't that a good sign? "I am the problem." 'It might get a little harder for me after this but it isn't going to kill me. It would get me into prayer meeting.' Amen. Yes sir! And something happened. What kind of prayer meeting was that? It ended with the resurrection ministry. You are going to pray all the way into a place ready for a ministry of testimony.

May God move us into that kind of prayer, into that kind of channel of prayer. People who were running from God, people couldn't face up. Even trying to sleep while the whole world was calling and praying because they see the gathering storm. They see all the winds, boisterous winds. My! God always work great things in storms. Do you know that? Angel came in the boat to Paul and said, "I give you all that sail with you, no man shall be lost in this ship here." My!

They were in that ship and Jesus came walking in that fourth watch, walking on the water in the storm. You don't take storm -

You watch storm in the Bible, brother. You watch when the winds start to go contrary, that's the time you get visitation. Paul got angelic visitation. They got visitation. While other people was still calling it a spirit, Peter moved into a realm of the super sense. Is that right? Jonah began to confess, "I am the problem." Amen. Men begin to move into a place where God can bless them.

That is why a lot of people when they don't know the Bible, they like you to walk aside, put them to sit down, carry them by Kentucky, come out and buy a whole dinner or something, carry them some place and begin to say, "You know, brother, you know you are not really going good." This is you spraying and babying them. Amen. That might work for certain things but not everything, brother. Amen. Yes sir! God shakes you up sometimes. God busts your world down. Amen. God brings you to devaluation and puts you where you belong. Amen. Knock the nonsense out of you. Amen. But when He is finished with you, you are going to be in the condition and the shape to be a real overcomer, a real witness of His. My! Glory!

I will never read that if I keep on this way. Let's read it. This is inoculation I am talking about. Now we moved from the seals to a little more in the seals, but coming under the Trumpets now - Political disturbance. In here, you are under the seals.

You are going to work tomorrow; the environment you are in is not church. You don't go and sit down and read your Bible while the boss is passing and you have work to do. The first thing he will say is, "What do you think here is? Church? You were in church yesterday. Do the people's work." Give Caesar what is Caesar's. Is that right. Exactly. Because right away you are out of the church realm; you are into the realm of the world, another realm. Amen. Another power, another law governs you.

But you carry the revelation in your heart. It's the revelation under the seals, "I am a Christian." It makes you go to work and not work with eye service. It's that revelation that carry you out there to work and shine and be a light out there on your job. Is that right? Can I get an 'amen' for that? You know the Bible talks about a lot of busybodies and people who work with eye service, and nobody wants to work and all kinds of different things. Amen. A Christian is one who goes out there and works. That's right.

Now watch Revelation 7 verse 1.

After these things I saw four angels standing on the four corners of the earth, holding the four winds of the earth...

What are **winds** in the Bible? Wars and strife. Watch! Sword, hunger, death, beast of the earth. These are judgements that come. This is the manifestation of when those **winds** blow. Watch.

*...that the **wind** should not blow on the earth, nor on the sea, nor on any tree.*

And I saw another angel ascending from the east,

All of this, he is seeing in the Spirit realm here.

...having the seal of the living God:

Here is an angel coming with the seal of the living God. How many know what the seal of the living God is? The Sabbath day? That is what the Seventh Day Adventists say: you have to keep the Sabbath day. That is the seal. But the Bible said, "Grieve not the Holy Spirit whereby you are sealed until the day of your redemption." Is that right? The Holy Spirit is the seal of God.

...and he cried with a loud voice to the four angels, to whom it was given to hurt the earth and the sea, saying, hurt not the earth, neither the sea, nor the trees, till we have sealed the servants of our God in their foreheads.

In their foreheads. This is revelation again. Your forehead speaks of your revelation; your understanding. So this sealing is going to bring an understanding to the church. You can't have the Holy Spirit and then don't understand what is going on, because the Holy Spirit is the inside Teacher. The Holy Ghost is the Spirit of truth that will lead you and guide you into all truth. Is that right? He will bring back things to remembrance, teach you all things and show you things to come. Does the Bible say that? That's right. The Holy Ghost is power in your life. You don't just talk about Jesus. From the time you talk about Him and the Holy Ghost is in your life, somebody knows that you know Him. Somebody knows you know Him. That's right. You walk there and there is an atmosphere with you. Why? Because you didn't just join the church or put your name in the book. No. You are birthed by the Spirit. You are sealed away. The world has no pull on you, no hold

on you. You are separated from the world. Watch. He's sealing up here now, holding the winds that He might seal.

Saying, hurt not the earth, neither the sea, nor the trees, till we have sealed the servants of our God in their foreheads.

That's something important to God. That's why He put it in the Bible. God said, "Stop those things. Hold it. Bind them up. Make some of those politicians disagree. They want to let loose. Hold them for a while. Make this one contradict that one. Bind them with a chain of circumstance. Hold them back there so that things don't work out for them to do what they want to do right now." God knows how to... You say, "I was going down the road that morning and then I forgot something and I had to go back, and by the time I got back I missed the bus, and then I realized the time, that I wouldn't reach on time any more. And then I realized, the bus I normally go with crashed." And you realize, look, God stopped me. He works in everything. To every purpose under heaven there is a time and a season.

That's why believers are close observers in their lives. When you are going through something, you watch it. "Lord, why is that? Like I was trying to force my way through there, and it's not working out. I'm getting road blocks." No, no, you draw back. You say, "Father, are You trying to tell me something?" "Don't go to Israel. Stop, turn around, change your ticket." He knows how to put roadblocks. Sometimes you plan things, but He tells you to change your plan. He made a prophet change his plan. Is that right? The man had the ticket, He said, "Change that." But you know believers today have the ticket in their hand and they can't change it. That is the trouble with them. Because they don't have that Spirit that was in the prophet. They don't have that obedience to God. They plug into something else. No, no, no, friends.

You walk a certain way with God. A believer is sensitive. A real believer, they want to please God. They want to please the Father. Serving God is not an institutionalized thing to them. Those are not things you do through ritualistic - you know, things you get cultured into. No, no, you serve God from your heart. "Father, if You don't want that for me, praise the Lord. You don't want that for me. God, You know better than I. I submit to You, Jesus." That's a believer. That's the people who make progress with God.

That's the people whose ways, when it please God, He gives them the desires of their heart. That's right. They could always have faith. They could always have faith in their heart.

Now watch. To seal those servants of God in their forehead.

And I heard the number of them which were sealed: and there were sealed an hundred and forty and four thousand of all tribes of the children of Israel.

This is the sealing of Israel under the seventh trumpet here. A type of our seventh seal. If we could understand that, we would understand exactly what is happening to us; because God has one pattern, God has one way. And here as these judgements are moving in, He said, "Hold those things so I can seal you." It's His plan to bring judgement but His first and foremost plan is to make provision for His children. Is that right? The safety of His children. My! It seems to strike me with a greater reality in this time to see it is predominant in His mind, that He wants - His mind is on His children.

Just like when He came down in investigation judgement, 'But where is Sarah? But where is Sarah? I know she going through a hard time. I must give her some Dunamis to bring forth the promise. Yes, I already sent two angels down there to burn Sodom. But my mind is back here. Abraham seems to have a grip on Me still.' Amen! Glory be to God!

We learn something about God there. That is not just a scripture in the Bible. We learn something about God there. That's a type. Some people in this hour are going to have - will mean that to God. That's a covenant people. That was not ordinary people; God came to them. I wonder when the Lord descended from heaven with a shout, who He came to this day? Who did He come to in this day? Did He come to an Elected group? That's right. Exactly. That's the message of the hour, friends. That's why it so wonderful to us.

Revelation 14: 1. That is just to finish up this reading here, to show what the seal in the forehead was. Amen.

Revelation 14:1.

And I looked, and, lo, a Lamb stood on mount Zion, and with him an hundred forty and four

thousand, having his Father's name written in their foreheads.

I looked and lo, a lamb stood on Mt Zion, not Mt Sinai where the law was. That was where the Jews were - under the law. Mount Zion is grace - that's the church. Hagar represented the law. You know that? Galatians: 4, Hagar represented the law - earthly Jerusalem. But Sarah, the mother of us all, the married wife - she represented Mt Zion. Grace had come to the church.

And so here, this one hundred and forty-four thousand in Revelation 7 were sealed in their foreheads. We see them here, one hundred and forty and four thousand having his Father's name written in their foreheads. He said, "I come in my Father's name. Father, I have declared thy name." Father, I have manifested thy name. When you pray, pray, "hallowed be thy name." That name that he manifested. He said, "Father, glorify thy name," and it thundered. Is that right? That name that He came in and manifested, that was glorified in Him, that He declared, that He did things; knowing by revelation that He was that One, knowing that Word concerning Emmanuel was interpreted in Him; and that's how He was manifesting the name that He was the Messiah. Did you get that?

Jesus wasn't saying, "I do this in Jesus' name. I do this in my Father's name." No, no. Jesus said, "If you don't believe that I am He you will die in your sins. Search the scriptures for in them you think you have eternal life, but they testify of Me." He took the law, the psalms and the prophets and showed that it spoke of Him. Is that right? And He took the scripture and said, "This day is the scripture fulfilled." And they said, "How is it He took the scriptures concerning the Messiah? Isn't this Joseph's and Mary's son?" Jesus knew He was the matching piece to the Word; and when He preached the scriptures: a greater than Jonah is here; a greater than Solomon is here; He knew He was declaring the name. And then He manifested the name. Is that right? And He said, "I come in my Father's name."

Today you have everybody saying, "In Jesus' name, in Jesus' name." Why? Because they could read the Bible and say that He said you must do that in Jesus name. And they think that it is just quoting that and saying that in Jesus name. But no man can call Jesus 'Lord' but with the seal, but by the Holy Ghost. Is that right?

Because we were taking last week - Called and Sealed in the time of the Investigation Judgement. And I was bringing the thought and showing how in the sealing there - that name He writes in their foreheads; because Revelation 3:12 says, "I will write the name of my God upon you and I will write the name of the city of my God upon you and I will write my new name upon you." Is that right? And then what did He say? He will give a white stone with a new name that no man knows. There is a knowing that has come to us under this message. Did you get that?

Do you really know you are part of this Word? I'm not asking if you believe that, now; because there is a belief - "Well, I believe it." Which means, 'I don't disbelieve it'. That is what 'I believe it' means - 'I don't disbelieve'. But there is a realization of that, because it is He who reveals that name to you. That is why Jesus could do nothing except the Father revealed it to Him first. And the Bride does nothing except He reveals it first. And the same Spirit that was in Jesus teaching Him and quickening Him to the Messianic promise, is the same Spirit in the Bride quickening her to the bridal promises.

Because it is God above us, God with us and God in us - the same Spirit. And so the Father's name in which He came, was the same Father who dwelt in Him. Yes sir! And He had a way to know He was that Messiah. And He had to face people saying that He was Joseph's and Mary's son. He had to face people saying that He was born in fornication, that He is not the Messiah, and that He was perverting the people with strange doctrine. But He had a repellent because that name was sealed in Him. It was sealed in Him. He had an immunity that no matter what they said, they couldn't shake that out of Him. And He proved He was the Messiah by manifesting the Word, by revealing the Word and by overcoming. Amen. He proved He was that One.

Doesn't it challenge your faith as a believer? We are not talking, we are not surmising now. I'm talking about you now. I'm talking about you. You're walking in this message all these years. You're coming to church here in Third Exodus Assembly. You are sitting down and hearing this kind of preaching. That's right. You are still afraid to fly there? You are still afraid to declare that? Can't you see somebody who stepped in there, who the world can't shake out, that everyday it opens that more? Who do you think

opened that? A douen? A genie in a bottle I have at home? A telephone call I make to the States? Some other man's tape I listen to? Who do you think opens that? Yes sir!

Do you know how much telephone calls you have to make for twenty-nine years, and make sure that you get it on Sunday morning? No friend, no, no. It is Somebody living inside of here that I am sure about. You say, "You are taking a lot upon yourself, preacher." Then you don't believe the Bible. He said, "In that day you will know I in you and you in Me." You say, "I'm under the message." He said, "When that which is perfect is come, that which is in part shall be done away with. You shall know as you were known." He said, when you heard from your Theophany, that is where your new birth is. When that seed gets quickened, when that little eagle begin to recognize that he was an eagle from the egg." Is that right? It was written in his DNA - his genetic record. All the information about himself, his ancestors, his pedigree and his origin is stored up in the genetic code. The divine secrets of that divine heredity had unfolded to him; the book of his own life has opened to him.

You know it is not just saying, "My name is in the Bible." Do you know who you are in the Bible? Do you know who you are in the Bible? "I believe I see it. My name is in there somewhere." That doesn't overcome anything. Because what about if it is somewhere in the book of life section and not the Lamb's section. No wonder you are falling everyday. No wonder you are talking this, talking that; you are afraid of this, you are afraid of the other. It has no new birth in that section. You could get called out by the prophet in that section. You could fall asleep at midnight, and you could hear the midnight cry and wake up and be without Oil in that section. Do you know that? But rapturing faith to go with Him when He comes, it has to be written somewhere inside of there.

As the prophet said, "I don't want to hurt my church." I don't want to squeeze you too hard on that because that will strangle the life out of some of you that is just sitting there in the church realm. When you start to carry it down there it is like you start to check the bag and you can't find the I. D. card at all. 'I'm looking for the Driver's License but I can't find it. I'm looking for the passport and I can't find it'. You better find some identification when you

check the bag; find your birth paper, and find something inside of there that tells you, you are a citizen, you are part of the family.

Well that is what He opened here. He opened it to say, "You are part of the family." He opened it and said, "You are part." He said, "I will prove to you." He said, "It is just that your mind is messed up by denomination. But I'll prove to you by life and by DNA. I'll prove to you that you are part of the family. I'll show you things in your life and I'll show you back in the Word. I'll show you the family album. I'll show you which family you belong to. And that would silence all those devils that whisper in your mind and want to give you a mind battle. It will pull down every strong hold. You will be able to tell the Devil, "Boo," and run him out of your life. I'll show it to you in the Bible."

That is what He did to the early church. That is why they wrote a book of Acts. That is what He did to them. That was the results the inoculation brought to them. That is why they were sin free. Amen. Brother, no virus of unbelief and fear and doubt and amnesia and all the side effects that comes when they have that virus, was in them. Paul said, "We were chosen in Christ before the foundation of the world." He looked at the DNA and said, "What shall separate me from the love of God that is in Christ Jesus." Amen. He looked at their DNA, brother. Yes sir! He said, "I can do all things through Christ that strengthens me." He looked at their DNA. John said, "Greater is He that is in you, than he that is in the world." My!

Let me get to this immune church quickly. I have half an hour to get to it. I'm trying to read a quote here now.

I struck this quote here last couple services somewhere along in there. I spoke on it a couple of years before too, but I just can't get out. I'm reading all these books on virologists and immunologists and epidemiologists because I'm studying pestilence, and how it destroys the body - Virus. Because down in my heart I know the human body is a type of the body of Christ. The church is His body. And all these threats invade the body, by-pass the body's defenses, paralyze the body, cripple the body and bring death to the body many times. I said, "God." Brother, if you are seeing things in the body that's hindering the body, you better know how to stop the threat that the body is being faced with, being under the

invasion of those viruses that are trying to destroy it. That body better have some immunity.

They say the difference between life and death is a functioning immune system. Did you get that? Oh God! I'm talking about an immune church in this hour. I'm saying, that angel come having the inoculation, and He's going to inoculate a people and make them sin free. Is that right? He's going to deal with the number one disease - sin disease. He said, "They say that heart disease is the number one disease." He said, "I disagree with that." My! Hear Dr. Branham, he said, "I disagree with that." Brother, I tell you. He was the one like Moses who raised up the brass serpent in the pole. As Moses raised up the brass serpent. That is where Medical Science got their symbol for healing and medicine from - Moses' brass serpent. How many know that is the Son of Man lifted up? That's Christ on the Cross. Amen. How many know Moses in the first Exodus was a type of this one - a Pillar of Fire and a Pillar of Cloud - in the third exodus. Amen.

How many know Moses had a healing ministry in his church. He understood the mystery of atonement. He got water for a perishing people. He got healing for the sick people. Is that right? He got the bread of life coming down for a people in journey to the promise land. Is that right? He had a slain lamb to keep judgement out. Oh my! I tell you if you were in Moses' church, you understood Moses' message, you were like Joshua and Caleb, you would have been immune. You would have had immunity. But a lot of people in Moses' church died; they didn't make it on the journey. Why? Why didn't they make it? Something was wrong with Moses? Something was wrong with Moses' message? Brother, when he started to identify them, some of them didn't belong to the body. They were foreign matter in the body. Viruses that invade the body.

Give me a little chance to get to it this morning. I want to show you the kind of body that is here in this hour. Because the sealing - This is the point I want to make here. The sealing is likened to the inoculation of the church because the sealing makes the church immune from judgement. It makes the church immune from the plagues and the vials and all those things that are being unleashed in the earth. That is what it did. When He came down in investigation judgement and He declared you righteous. He made

you immune from prosecution. Do you understand that? Oh Jesus, I feel good! My! Glory!

So listen. On the message ‘*God’s Provided Way of Healing,*’ he said,

Listen, didn’t you know the Bible predicts that in the last day there would be a germ warfare? That diseases will break out upon the people and will fall on every one without the baptism of the Holy Spirit? But with the angel or who had charge over these plagues was given orders to touch no one on whom the mark was...

Ezekiel 9, He told those slaughtering angels, who were going forth to bring destruction. The armies of the king of Babylon, Hell was following death in that hour; when the sanctuary was becoming smoky and the coals of fire were cast in the earth to loose these four judgements on the earth. The casting of the fire was the sign of judgement. The sanctuary becoming smoky showed a sign that intercession came to an end; but the loosing of the four judgements was the manifestation of the judgement that the casting of the fire symbolized.

It is by these four: sword, famine, pestilence and beast of the earth; that’s how He executes the judgement, administrating justice from His sanctuary. Did you get that? Over there on a city level; over here on a global level. That is why it ends back up in the book of Revelation. There is nothing new under the sun. It is put there to show us what is going to happen. That is why these four judgements end up here. Not under the first seal but under the fourth seal. Because the fourth seal is uniting time, when he bring his world together, getting ready to be enthroned over his Eden. Is that right? He can kill those who don’t worship the image. He can bring economic sanctions on you. He can take his army and cross the globe and change your government, put you in prison, throw you out, send you in exile; he can do what he wants with you. How many see those things are being exercised?

That’s one of the things I want to get while we look at this. These things are not something down the road. These things are already in the earth. The plagues are already here in the earth. You say, “Bro. Vin, what do you mean?” The winds that is holding. There are only two spirits. Is that right? From heaven all the way down it’s only two spirits, only two kingdoms, only two trees, only two powers in the earth. He holds it, He lets it go; He holds it, He

lets it go; He holds it, He lets it go. Is that right? And so, the same winds that destroyed in the first woe, is the same winds that destroyed in the second woe and is the same winds that is going to destroy in the third woe. Is that right? Are there going to be new nations raise up? The nation is here, and all the nations are here. Those who are going to play a part in prophecy has been here for hundreds of years and thousands of years. Is that correct? Same nation.

Is Rome still here? It had none after her, right? From the legs of iron. Who killed Jesus? The Romans. They are still here. They changed the outward texture. Same pagan Rome but outwardly it become an ecclesiastical form, in a religious form. Back there it was a military power; a political empire. Here it is in politics but behind the scene; like Jezebel was behind Ahab, behind the scene but controlling. Because she drunken the kings of the earth with the wine of her fornication and they gave their strength and power to her. Is that right? That's the Bible.

America has been here over two hundred and something years as a nation. Protestant religion has been here since in Luther days when he protested the Catholic Church. Are these the same denominations that are forming the World Council of churches? Generations may pass but the spirit is in the same ones. Is the early church still here? Is the same Spirit and the same doctrine of the church still here? You see, your eyes have to be anointed with eye salve. If your eyes aren't anointed, you can't see. You are only reading the Bible and you are busting your head because your head wasn't intended to interpret it. It is the Holy Spirit who is going to come to open it and break the Bread. Then the same things you read will become so simple. It is right before your eyes.

Now watch something. So he said, "When those diseases begin to break forth, it will fall on every one without the baptism of the Holy Spirit. But to the angel who had charge over the plagues, was given orders to touch no one on whom the mark was." That's Revelation 9: 4. That's also Ezekiel 9. He said, "Don't you touch anybody who has the mark." Here what he said now.

Why, how much kind of teachers have we got to be brethren...

Here is the Prophet standing there and looking out in denomination. Men were preaching prosperity gospel, men were looking for money, men were preaching polygamy, men were

preaching Jesus loves a cheerful giver, men were preaching something else over here - be a covenant partner, men say, "Sponsor us to go on the radio."

And a prophet standing here saying, "I think this nation has had a last chance. I think the hour is coming when God is going to raise up a new crop in the last days for the last great kill, because the church is blind." 'Samson, the Philistines are upon you.' A deceived church, he called them. 'Church and its condition.' 'Hybrid Religion.' 'Why am I against Organized Religion.' He showed them the condition they were in as a church. He says.

What kind of teachers have we got to be, brethren to get the church in order to be in that condition?

So when these things fall it can't touch a person because they are sealed with the Holy Ghost - immune. To get the church in that condition - immune. He said,

My arms are sore now from where the doctors have punch needles to try to inoculate me for yellow fever and so forth. I told them I didn't need it. But they wouldn't listen to me. But I'll tell you what God's going to do. God's got a serum and it's called the Holy Ghost. And when that serum goes in, it'll inoculate you...

Listen.

But look, friend, the time is coming that when there is rising up a church. If we can't have faith for divine healing, how are we going to have faith for the rapture...?

And that's why it's coming to a place now, where you used to walk into Port of Spain General Hospital and San Fernando General Hospital, they are turning you out now. "You have the seven thunders - go home. You say your name is in the Lamb's Book of Life - go home. You say you have the Inoculation - go home."

How many know that God hardened Pharaoh's heart to drive the Israelites in their homeland? How many know in the first exodus, God used a Pharaoh who didn't know Joseph to bring pressure upon them, and they had to make bricks with straw; and they started to bawl and cry and get there in desperation when the pressure started to come down upon them. Is that right? Do you see? Do you see?

Because when you go to face those other doctors, from the time you walk in that place, there is so much people there that their

office has become like a casualty ward. And you sit down there and they charge you for even, maybe waiting, in billing you; because the bill is so high. You know they bill you just to sit down there and wait in that waiting room. From the time you step in, you don't even ask yourself the question - because your pain is so much - "How come this poor man who has, maybe wife problems, he looks like an alcoholic; he has so many other practice and things - How is this poor man. Where is this capacity coming from to hold a hundred cases of different people in his mind?" This one has Leukemia. This one has this, this one need an operation. This one has to be referred to a specialist. This one has so and so and so. Do you honestly believe that it is superman sitting down there?

You know what blows some of you all away? The institution. The walls. You walk in that office and you sit down there and you say this is doctor 'Know It All.' And he is just going to watch you for two minutes and say, "Okay, come here." Check this, check this, and check this. Whatever he is hearing inside of there, you don't know if he is hearing anything. You don't know if it is on, if it is off, if it is old or new; nothing at all. Then he says, "Okay, go on out. Go by the counter and pay your money. Go down there and pay for your blood test. Come back up and wait. Go over here and do this, go over here and do that." It is easier to walk from there to here and say, "Jesus, I stand on Your Word. I stand on you Word, Father."

But God has to break some human spirits to get them to humble to His Word. They can't humble to the Word. They refused to exercise faith in the Word. And when you have real faith you don't even have to walk here, you just raise your hands and say, "Thank You, Jesus. By faith in the name of Jesus I claim that by the grace of God." Do you know why? "Lord, I have the Holy Ghost. I'm a son and daughter. I have the covenant sign and this is the covenant blessings, and I have covenant relationship with You, dear God; and You promised these things, and You did it for me already." Amen. "And the things You revealed to me about myself, if You knew that, surely." As the prophet said, "If He can tell you what it is, then can't He heal you too? The same power it takes to know that, in the supernatural, then can't that heal you too?" And the same God who comes and reveals Himself to you and takes your fears and takes your doubts, if He can take your fears and

your doubts and all these things, can't He take your pain away too? Can't He take these other things away? Sure He can. But of course only Spirit filled people behave that way. The capacity does not lie in those who are not Spirit-filled. They may try to bluff it but they would be back out in the doctor's office in the morning when the pain starts again because they are not inoculated. But the person that is Inoculated they know, 'this is why You gave me the Holy Ghost. This is what the Holy Ghost means to me. This is the difference between being Spirit-filled, Lord, and just joining church'. That's right.

And that's why some of these conditions God lets it heap up to show you your need for the real evidence in your life. Some of you go along for years, "Well, I think I have it. Well I can't be in church all these years and not have it." I'm going to show you this morning - God help me, if I can do this in two minutes - that some people loose their immunity. Things that couldn't even move them an inch years ago, is throwing them down and killing them now after all these years. When your immunity is gone, a cold will kill you; any normal little thing will kill you. Do you get what I am saying?

And you say, "Wait, brother, how on earth could you let this destroy you so?" "Sister, that? You are serving God all these years?" See? Their immunity is gone. They sit down in church and their immunity is gone. And it has certain devils, when Satan. You know devils don't agree all the time. That is why they are fighting one another. Why you think Bush is fighting Iraq? Do you think that is God fighting Satan? That is Satan fighting among themselves, because they are all part of the same kingdom. After all. See?

So when you look, you see how many times people sit down there and they loose that immunity, and they have nothing to fight off disease anymore. Brother, things they made a stand on, had conviction and principles; money couldn't get them to cross that line. Pressure couldn't do it. They were bearing reproach and everything else. And then you see men and women could sell out their testimony. Satan just manipulates them and exploits them.

Friends, let me tell you, a lot of people will get a lot of surprises. It's not easy, friends. We are coming to an hour here, where you have to understand; because a lot of people think that

these plagues will happen somewhere down the road. The plagues are here already but they are held back. That's why things like Ebola will show up, 'boom' out of nowhere and disappear and they don't know what. It isn't even around long enough for them to examine it and the patients aren't even lasting long. And they realize, "Wait, we thought Aids was bad." Look at millions. Aids has gone to hundreds of million now. What is this thing - Lassa Fever? What is this thing - Hantaanan Virus? What is this going on here? How are we going to deal with these things? It is like there are emerging all kinds of sicknesses and we can't even deal with this one yet." They show themselves and they hold back. We see the kind of pestilence. When you think, and each one - they call it hot agent, killer viruses. They move quickly, kill a bunch of people and disappear for a while. You know, and science says, cancer, leukemia and tumor; they bring it down to a place and name it: Virus. But they can't go beyond what it really is. It is something they are watching under their microscope and they break it down and they find this thing, like it has an intelligence of it's own. It disguises itself, comes in the system, and you can't detect it. Then he hides away for a while. Then he starts to mutate. Then he injects a cell. And he goes in there, and when he injects that cell, he starts to manipulate the machinery of that cell commanding it to reproduce himself so many times; and before you even know it, he produces himself in hundreds and thousands right inside of there.

He said, what is this? How Korah got in with one man, and before you know it he had two hundred and fifty princes. He takes the princes. He was going to destroy that body of the called out ones right away. Brother, Haman was going after all the Jews; not one and two, all. When the Philistines couldn't get Samson they developed a 'Deliah' virus. They cultured her in their laboratory, they found their target and they loosed this virus on their target. The man realized he could pick up gate, he could beat a thousand people with a jawbone, he could bust up cords and everything else, but that virus, he had never been exposed to it before. It was a deadly virus. He had no immunity against it.

I'm just throwing out one or two things there for you to see where I am going and what is in my mind so you don't sit down there and get impatient.

Many of those diseases that they thought they had inoculation for - Luther thought that little message on justification stamped out Catholicism. He thought "he broke that virus - Catholicism. That doctrine of Jezebel started off as Nicolaitanism. At first it looked harmless, like a little sneeze. Some sayings, 'achoo.' "I think I should be an archbishop." Brother, that flew out that man's mouth and infected a lot of Political bishops - all those who wanted to be an archbishop themselves.

Even Polycarp said, "How do you think I will look in a mitre? Polycarp had a mitre. He looked at himself in the mirror with a mitre. They tried to come around Irenaeus with that, brother, Irenaeus had immunity. Irenaeus was militant against that thing. Is that right? Then it started to move through food - contaminated food. They started to eat things sacrificed to idols - the doctrine of Balaam and the doctrine of Jezebel, and the thing started to mutate. But when it came in the Jezebel form, brother, it was then it started to kill. Is that right? Is then it started to kill. It had an epidemic for almost a thousand years. Sixty-eight million died from the Jezebel form of the virus. Is that right? At first they were getting sick. The church started to get creeping paralysis - impotence. Learning started to replace revelation, reasoning started to replace faith, and program- they started to get programized. What is that? Effects of the virus. But it wasn't killing anybody in a physical sense yet but it started to strangle the life of the church; killing the spiritual life of the church. But when it came in the Jezebel form, it was double chaos. It was killing soul and body.

Then Dr. Luther, the man went in the laboratory and in the Medical Journal and he began to look back at a man who used to shake off vipers. He began to look at a man who was standing in the storm and said, "God gave me all these with me. I'm not loosing any on the ship." He looked at a man who told a man, "I smite you blind." This man who was caught up in the third heaven. And when he started to read that man's writings, he found out that man had a revelation called 'the just shall live by faith.' Brother, Luther put some of that in his system and he started to produce some antibodies. Brother, he walked up to the same Catholic Church, picked up the cup of wine and dashed it on the floor and said, "This is not the blood of Jesus Christ." He took up the little

wafer and threw it on the ground and said, "This is not the body of Jesus Christ. The just shall live by faith."

Brother, it shook up that Catholic Church. They wanted to know what happened to this man. "We have this man sedated with all this contaminated food. We have this virus slowly killing the man, injecting this thing in the man every time we send him back to the monastery for a refresher course, keeping him sedated and drugged." They said, "Something happened to this man, the man got a hold of some inoculation here, that this virus has no more effect on him at all. This man seem to have immunity that we can't even touch him. We can't buy him. We can't silence him. We can't threaten him. Nothing has effect on the man."

Brother, Wesley came, though he fought Catholicism, his real battle was Anglicanism. He came to knock the Calvinistic doctrine of 'what will be will be' in the head. Luther put such a blow on the Catholic Church for a while and the Lutherans began to rejoice. "We stamped out the big virus. We do this." Then Wesley came, and while they were going along no virus was really stamped out.

Now in the year 2003, that virus has come back with all the killer potential it had back in the very beginning. And the ones who said that they were doctors with vaccine, who discovered it their laboratory and they mixed and they were injecting people left and right; and Seventh Day Adventists were telling people that the Catholic was the great whore and everything; all these people came back and got infected. And so they realized what they thought. That is what science found out. They say, 'we thought penicillin had put away this, and this other antidote had put away that.' They said, "But all these viruses are coming back up. We are finding cases we thought we eradicated."

The World Health Organization had to research their files, review their achievements, and re-evaluate the condition of health on the planet. Seeing new viruses emerging, which looked like some of those old strains but deadlier, because now they are mixing with politics, now they are mixing with economics; because the pale horse is uniting all of them and they are mutating into a pale horse - a horse of a different colour. Brother, you better have the real Inoculation.

But in that hour God didn't leave the church undone. Down came the Angels, down from His glory. Hallelujah! Another one

like Moses. Another ministry like the Son of Man came back in the last days, brother, one with the seven seals. Amen. Brother, bringing back the real Inoculation, not just another weakened form like Luther had - the just shall live by faith - Justification in the evangelical sense of it; but now in the full mystery of what it is. Amen. All seven seals completely revealing the entire plan of God to take away the amnesia in that church, to blow away all side effects, to take everything and give the kind of immunity and repellent. A man who walked the face of the earth and the lust of the flesh, the lust of the eye and the pride of life, nothing could touch him. Amen.

God took him up on the mountain, dropped the King's sword in his hand and overshadowed him with the Cloud. Hallelujah! Glory be to God in the highest! Then you heard about the real evidence of the Holy Ghost. It's not a handshake. It's not when you shout. It's not when you roll. It's not when you speak in tongues. Right away you realize that this man's microscope had gone into a next realm. For years they never knew what a virus was. People were dying and they couldn't understand what was causing all this widespread death. What was so lethal? "We can't see it. We can't analyze it. We can't check it out. We can't break it down." Because the fellow could only be seen with microscopic vision; and since the microscope wasn't invented. And first they had the Light microscope, and the Light microscope could see bacterium; but virus is about two hundred times smaller than this chap and is more deadly.

So God now, to help battle it in the natural realm, men began to discover greater vision, things to make them see more refined ways and means, and the strategy and the wiles of Devil and the strategy is he employs; it was now being uncovered. And so, they looked in the book of Revelation and said, "That's the Roman church. That's the beast." But they can't see much, because the man with the vaccine is the angel who has that seven vials. Amen. That man who John bowed down to worship - and he is not coming until the end of the age. He is the man to uncover the full mystery of what these fellows only saw in part; because the seals were breaking all through the age, not fully revealed; in part, in part, in part. They knew in part.

But when that which is perfect is come - in the last days when the Headstone, when the Lord Himself shall descend from heaven with a shout - then the church will come back to the real Baptism of the Holy Ghost that Peter had, that Paul had, that Phillip had, to bring a real church; not just who is anointed in their spirit, speaking in tongues and living with a next man's wife. Not that kind of business. Not saying you have the Holy Ghost and teaching a false doctrine and saying that you believe in a Trinity and a woman preacher, and going towards organization; not that kind of Holy Ghost. Amen.

But this one who is going to come back to live by every Word. This one who will see his name in the Book and begin to identify his position in the Bible. That kind of faith, perfect faith. Amen. 'How can I overcome', 'Christ the Mystery of God Revealed', 'The Token', 'Doctor Moses.' Brother, when he starts to refer to those ministers he says, "Dr Simon Peter, my colleague. Dr. Moses said so in the first exodus." He was talking about them. Amen. Glory! He just had to diagnose their case first and find the cause before he could even get the cure. He said, "You are pouring all that oil, you are wasting your time. Find the root of the thing." Look at that doctor. Look at the doctor we had in this day. Oh brother! He was the greatest virologist the world had ever seen. That microscope he had was beyond the electron microscope.

A few years after, Luther came up with that first microscope - the light microscope. Then Wesley came out with that electron microscope that began to see the virus, but they still needed more powerful microscopes. They said in the last twenty-five years or so they came with some more powerful microscopes; not only microscopes but telescopes like the Hubble. They see the edge of space. Sometimes you want to know where these things are coming from. It is the Hubble.

You see some of you. That is why I have to keep waking you all up, keep waking you up. Because He promised it is going to keep getting greater and greater and greater. This is not a reverse thing or a stop thing, friends. This is going into your Theophany while you are alive. Not dying to go to your Theophany. No sir! Theophany is here. Things that are to be. My! Glory! My, my, my. Jesus!

I'm now getting warmed up here a little bit. What was I doing? Trying to help some of your impatience so I jumped ahead of myself; but I was going somewhere there to read a scripture. But let me just stay a little while still. So watch.

Viruses. They are such dangerous things and when I begin to see the kind of - Bro. Sammy, you've been on my mind boy. You've been on my mind. I know you are always talking about these things. You always liked the immune system and virus and the oesophagus and all different parts of the body. When we were young boys on the 'block', Sammy was always spitting biology and hygiene and 'typing' stuff, you know. I was reading some of these things and it was almost like a thriller. I never thought something would stimulate me like that, just reading about virus. So then I began to think of him and I said, "If he gets a hold of some of this." I must print it and give it to him, because I know what it is going to do for him."

Now just let me pause a little bit and break down some of this for you.

An immune church. A church. Remember the first bride, she picked up a virus from a beast and then it dropped on her as a human host; then she gave it to Adam and he got infected. Then they started to bring their children inheriting what they got infected with. They could no longer live in two worlds. They were trapped in a world of time. Then the second bride came. And what happened to the first bride? The Nicolaitans conquered the laity. It looked so close. It disguised itself like it was part of the body but it was foreign to the body.

Now if I get too deep into some things there I could burn a little bit and I don't want to burn; but I guess you can't preach it without it burning and you can't preach it without exposing it a little bit. That's just the way it is. Because you see, viruses and these things invades the body, it's not part of the body. It gets into cells in the body, and cells that were supposed to defend the body, it gets into these cells and turns them against the body. And so when the virus gets in them, they come against the same body they were designed as a part of, and to defend, and they want to break down the body now.

I had some of that a couple years ago. They got infected from another host and they thought they would wage an epidemic here,

but they didn't realize the kind of chemistry set we had here and the kind of inoculation this church had down through the years. See? Because that virus they picked it up. That was the first one to get infected when a foreign virus came from another country and infected that host. But that main host died too quick, so it didn't get to spread; so it reached these shores and it got quarantined for a while and the virus couldn't really let loose. It had no place to let loose. Recently with almost five different publications and a whole mailing list around the world, it was trying to let loose itself to get global and ferocious but it was destined to be a small local bug.

Sometimes I am an astronomer. This morning I'm a virologist. I just can't help it. Another time I am an astronaut. That's what I love God for. That's why I love this message. Amen. Yes sir! It makes God too real.

Immune. Let's just break up some of the words so you can catch the full meaning of it. Because we see these judgement under the fourth seal that is going to kill off the earth, was being let loose. And we must agree - we can't help it if we have any spiritual discernment - that these things are already breaking in the earth. Two woes have already passed and the beginning of sorrows was identified way back in 1962; and that was amateur tribulation under Hitler and Eichmann. And great tribulations to come under the sixth seal, and we are between amateur tribulation and great tribulation, and the beginning of sorrows have already heaped up. We are between the second woe and the third woe. The bottomless pit is opened and hell is being created on the earth, identifying 1963 - gross darkness on the earth, 'Shalom' -1964. Is that right?

So then we realize that the thing that is identified and breaking in the earth. Scientist are breeding things to scatter it upon the nations just like men breed things and scatter it upon the churches. And when they scatter that and they send it to everybody in the church. Some take the virus and put it in a bottle on their shelf and they are watching the virus, and they are playing around with the virus, and some of them don't even have immunity. Some of them don't realize. Virus is just information. Virus is as dead as a grain of sand until it can inject itself into a live cell. Then when it gets in the cell, it commandeers the cell and begins to instruct that cell to reproduce itself, and it makes that cell - Get this - it makes that cell

a factory to reproduce himself. A factory for reproducing virus. A commandeered cell.

So now this one starts to write this one around the world, to write this one, and write this one, write this one, write this one. Why? Because now its letting loose. He could let loose now. Spiritual things. Spiritual things.

You see how it killed the church in the beginning. You see how it killed Sister Eve in the beginning. But this last day Bride - if she is the true Bride - let me tell you, her microscopic sight and her telescopic sight. Do you know what killed that virus? Just the Word. Took all the licks it threw and didn't fight up, didn't carry on. Just opened the scripture: Light bearers and talebearers. Went in the Word and uncovered that virus and showed the nature of that virus. You think.

Sanballat, Tobiah and Geshem were three viruses that moved in the hour of restoration. They were viruses in the restoration age. A trinity of virus. And those viruses were weakening the body that was given the commission to rebuild Jerusalem; and the work dropped down and men got weak and the work came to a stand still. And God sent Dr. Haggai and Dr. Zechariah and, brother, when those two virologists landed on the scene and they opened that kit and they found the source. The first thing a virologist must do - an immunologist - he has to find the source of the infection. When he finds the source of the infection - where the disease originates and starts to spread - then he has to break the chain of transmission to make sure it doesn't spread any further. He begins to work to contain the disease.

Now if Bro. Chin Lee can hear me this morning, God might help him to get a plan for this wave of crime; this epidemic that is sweeping the country in epidemic proportions. He needs a plan. You have to find the source of the infection, and after you find the source of the infection you have to break the chain of transmission. When you break the chain of transmission, you are actually containing it to make sure the virus doesn't spread any further. You set up quarantine for the infected ones. And the only way to find what you are looking for, you have to know the characteristics of the thing.

And this kind of virus sounds like the Word because they could bring ninety-nine and ninety-nine hundredth percent of the Word.

But there is a part He put in an unknown language and you have to have original DNA to interpret that. Come on now! You have to have original DNA because only genuine new birth could interpret that. That is the name written in the forehead. That is where you are sealed. That is where you are part of the family. And you know how he used to spot that Pharisee virus and Sadducee virus and how he dealt with it back there in the first age. And how Moses spotted Korah and Abiram and dealt with him back there. And how Elijah spotted Jezebel and dealt with her back there. And how John spotted Phillip and Herodias and dealt with them back there. And how Paul spotted those Jews who were coming saying there is no resurrection and that you have to be circumcised, and he spotted them back there. You have to have the same DNA to spot them here too.

And that birth gives you the immunity. The immune system has what you call. The immune system is broken down into three regiment of warriors. You have T cells - some are helper T cells and some are killer T cells. Then they have one with a name - I have it here but I would not look for it now because I don't know it off hand, it is one of those scientific names. This fellow eats up anything. He has a gift to discern the body. He knows all who is part of the body and who is not part of the body. And he moves through the whole body all the time. He goes up and down the body and anything that is anti body - even dust that comes through your nose when you are breathing - he eats up that too. They say nicotine in people who smoke, when cigarette smoke gets in there, if it is not over excessive, he eats up that and cleans up that whole liver and everything else too. Anything foreign to the body, he will eat.

Then those helper cells are like in the time of Nehemiah when they saw those three viruses coming. They said, "Fellows don't be afraid of this virus; we have immunity." Ezra already traced himself all the way back to the original high priest. He said, "So our name is in the book. We checked; we did not get hybrid out there and mixed up and so on. We know our pedigree here so we could deal with it. We have the original immunity that Abraham and Isaac and they had back there." Brother, from the time they came they said, "Okay, you have a tool in one hand and you all take a sword in your hand. From the time you see an invasion and

these viruses come in the body, you blow the trumpet, give an alarm and these fellows would run out here with the sword and slay them; and these other fellows would keep building up the city here.” So while one is building up, one is slaying the invading enemy so the work is going forward. They were dealing with the enemy and the work was progressing.

Brother, they brought that virus. That virus wanted to cripple them with fear, because part of the virus - when people saw things there they got fearful, when they saw the power of some of those viruses. Nehemiah put that under the microscope and he watched that thing. He said, “Noadiah, why you don’t go and wash your husband’s clothes and cook your husband’s food. You want to play prophethood to come down here with some false prophecy to frighten me.” He said, “Do you think a man like me will run from you?” Brother, the fear they tried to loose on that man, he put that under the microscope and he showed what it was. He said, “That? I have the immunity to deal with that and his father and his uncle and his aunt and his sister and his nephew. I have immunity to deal with all of them.”

Immune means protected from getting a particular disease. Now you know us already. The same way they have disease in the natural body, it has spiritual disease also. And the same way natural disease brings death to the natural body, spiritual disease brings death to the spiritual body. And the same way these things move: you could breathe it in, it could come through water, it could come by being bitten by beast.

Paul said, “I fought with some brute beasts at Ephesus.” He waged some scriptural war against some of them because those beasts, they had poison. Paul said, “They come in among you with poison acids of malice and wickedness.” You have to watch it. You had to know them because they’re not part of the body, they’re foreign to the body. They come into the body to do damage. He said, “And the reason is because the church lack discernment.” Half of the time they get bitten by these things and they get weak and sick and die because they have no discernment of the body.

But that immune system is made up of these three main categories of warriors. And, brother, they have the capability to recognize every form of virus that invade, even those that is

manufactured in a lab, that might be new; it has things in there that could detect that too. Could you imagine your natural body fearfully and wonderfully made by God, which is only the shadow and the negative of the body of Christ, because you are many members in one body. And by one Spirit we are all baptized into one body and all the members have different functions. Is that right? I Corinthians 12 and Ephesians 4 tells you that the body is not just the body. The body is a mystery of the church: gifts, offices, ministries that make up the body of Christ. Is that right?

Then, friends, what kind of church this ought to be? What kind of church? If you are a real part of this body and if we have people in this body who are supposed to have discernment so that nothing foreign can come in this church. In the early church those men guarded the body and kept it unleavened. In other words they kept it immune - a sin free church. He said, "I would like to walk in a church, come through the front door, come through the back door and see a church that sin can't stand among." What is he speaking about? An immune church.

Was the church immune back in the beginning that sin couldn't stand among them? Was that after the sealing Angel and the slaughtering angel came? Now that's a point I am bringing there. Was the Holy Ghost the sealing Angel? Was that the sealing Angel? Was it that Spirit in them that quickened them and gave them discernment to keep that church unleavened, that made the apostles stern men, straight men? Is that right?

I thought I might have preached this morning 'Weapons of Mass Destruction' but I left that back. Don't you know the Bride is developing weapons of mass destruction? Don't you know the Bride has scientists here that have weapons that could blow Satan apart, and make her an invisible army? Don't you know the Devil has a plan to disarm the Bride? Don't you know they tried to disarm Peter and they? "Don't preach in that name anymore." Because they were sealed and had that name written in their foreheads. And they said, "We are not disarming for you. Who shall we obey, God or man?" Is that right? And then what did they do? They loosed pestilence on the church. Virus - Nicolaitanism. They came in among them as part of them but they weren't part of them. They mutated and they hid in there for a while. Is that right?

Do you read your Church Age book? Do you read your Seven Seals book? Think now. This is church history I am dealing with. I'm not just dealing with some wild type, you know. I'm dealing with church history. I'm dealing with prophecy in the last days. I'm showing you that what is happening in the natural realm is the same thing that is happening in the church. I'm showing you that when people were dying, men had to go into their laboratory and find chemicals of the Word to lift the church out of Catholicism and bring it to the automobile age. Is that right? How did the church get in there? Spiritual scientist by spiritual research. When people couldn't walk in the promise of God. Men like Salk and they found the vaccine. Is that right? They stamped out that thing. Sure they did.

Immune - protected from getting a particular disease because of natural resistance. When God made the first man in the Garden of Eden, he was immune. Disease couldn't touch him. He was immune from all diseases. As long as they were behind that Word they were protected. But there was a virus in a beast. Is that right? And he wanted to let loose. He wanted to cross over into the realm of human beings and open a door to himself in the human race. He wanted to inject himself into the stream of human beings so he could live in man too.

If I stay here and these visions keep breaking, you are not getting out of here today.

Resistance acquired after catching the disease before. When you see people get licked up in something and get licked up again and get licked up again and get licked up again, something is wrong with them. Because when you get infected with something the first time and you come through that, even naturally, your body builds up an immunity against it; that from the time it going is to make a repeat. That is why Measles and these things, you have it once. Chicken Pox, you have it once. Do you know why? They become easily recognizable to those warriors who are patrolling that body, those helper T cells and those killer T cells inside of there. Those T cells that are birthed in the bone marrow, and comes up inside of there to produce antibodies to keep the body strong.

That's why the prophet had to go and take the seven church ages and find the source of the infection. That's why the messenger had to start in serpent seed and find the source of the infection.

You get that? Get all the way to the message in the latter rain under the seven seals to bring the Inoculation, the great seal, the baptism of the Holy Ghost, and seven thunders so man can go back to the Garden of Eden. You get that? And when he went there he began to break down the viruses one by one, and began to tell the doctors who were catching the formula. Amen. The virologists and the immunologists in those ages - the men who were catching those things to stem the tide of that epidemic that was sweeping the land.

Then when he found the source of the infection, he broke the chain of transmission. He had to separate the Bride from organization. He said, "Flee organization like you flee the plague." He said, "Organization is death."

Its three unclean spirits: Nicolaitanism, Balaamism and the doctrine of Jezebel. Not three spirits, one spirit going from depth to depth. I wonder if it had a virologist who saw those things back there in '**The depths of Satan from Jeroboam to Jezebel,**' who uncovered the schemes of the enemy and who put this fellow under the microscope and mapped out his genes and showed his origin; and then came up with the antidote to break his power completely and bring a people out into liberty? And after he does it, he comes and shows you what he did. You should be glad you have Immunity this morning. I'm talking about an immune church. An immune church in this hour.

I'm going to close up here quickly. I don't know how to do it, but I'm going to do it. God help me; and some of you right now are praying for me to do it too. I wouldn't call you a virus, don't think that. I'll call you a helper T Cell. My!

That's why men like Phinehas, when that epidemic started in the camp, people were killed - 42,000 in one day. Phinehas, he was a killer T Cell. From the time he saw that virus inject that cell and manipulated that cell so it could reproduce itself - you get that - he came out with the javelin and he went in some bioengineering, and went in some genes splicing. Brother, he busted that thing and the plague stayed. He found the source of the infection and he broke the chain of transmission. Moses put them in quarantine and he said, "Take the sword now and kill everything." Is that right? Because that is what he had to do; and then he inoculated the rest to go forth into the promise.

That is why we have to be separated from organization. Total separation from all unbelief, because one hundredth percent of the Word will bring death; will bring death. Microbes.

I remember way back in 1986 I preached 'Viruses in the Age of the Germ Warfare.' Well I developed a more powerful microscope since then. So I'm still seeing those same germs, but I'm seeing others too; and I found ways to work with some chemicals here since 1986, that I can give even these little ones here the same immunity that we have, by the grace of God. Give them the booster shots this morning. Amen.

When a child is born right away the mother has to get them to the clinic because that child has to get certain shots because it is born into a world with some real terrible plagues on the loose. And they have to. Brother, I see my little girl come home, my little baby there about 8 months, with big lumps here, big lumps here - hard, that thing takes months before it gets back normal. It had me so upset. Then they went back the last time for a second set of shots and she came back with more big lumps after the first set went down. You think if I want to play stupid and just make a fuss over those lumps, not realizing that she is being inoculated and she is being given immunity for some of these things we can't even see with our natural eyes, that's invading the body day and night...

Let the musicians come. I'm going to close. I'll just make a couple statements here and I'll try to close. It's such a tremendous time, friends. Oh my! You know, when you get going in these kinds of things, you could never really finish.

I was reading this in a book written by a microbiologist. It said,
As soon as we are born and every day of our lives our bodies are like castles under siege, surrounded by swarming enemy troops all trying to breach the walls, enter and plunder the contents. Each enemy carries a weapon to assist him and each tries a different port of entry but just like fortified castles we are built to withstand the attack.

From the time you are born into this earth your body is under siege by armies and armies of viruses all trying to come into your body through different entries: some through your eye, some through you nose, some through food, some through different things, some through touching things, some through being bitten; so much of different things. And each enemy - each of those

viruses - carries a weapon to assist it as it tries a different port of entry. But like fortified castles we are so fearfully and wonderfully made. The God who made us knew what Satan was going to use, because all disease he said it starts in the fourth dimension. All disease come from. When you get down to the bottom of it, it is a life and that life is a perverted life. He said, "You know what starts cancer? One of your cells starts to backslide."

Hear the prophet in 1963 explaining something, when scientists didn't even get that microscope yet to even look at some of those things that they are seeing today with some of these later microscopes, and still can't fully understand. And here is a man in vision with a ministry to pray for the sick, equipped with gifts to discern and detect diseases. He could just hold people by their hand and tell them what kind of disease they had and tell them how long they had it, where it came from, how it developed and everything. He said, "When that cell backslides that germ gets into that cell." Well that is exactly what science said. They said this virus comes and injects itself into a cell, then it commandeers that cell. Then it has it's own plan and it's own objective and that plan is to reproduce itself and begin to grow, because he is coming to destroy that body.

When you look at some of these things, friend, and you see the age that we have come down to, and you realize that the Holy Spirit in this hour is going to have a church without sin, no sickness, no mind battles; a church without spot and without wrinkles. Satan would be cast out of here. Because there are only three battlegrounds. He had to be cast out of heaven before he came in the second battle ground - the human mind. He has to be cast out the human mind - that is where the battle wages; and wherever he wins the battle, he becomes incarnate in the soul.

That is why Jesus said, "Satan has no place in me," and he departed for a season. He knew the tactics of the enemy. He knew how to fight that enemy. He had the Immunity to resist that enemy. He had the resisting power inside of Him. Like Joseph, he had certain antibodies that Samson didn't have. Joseph had certain antibodies that David didn't have. When David was crying, "Purge me with hyssop," and "in sin did my mother conceive me." Joseph told the woman, "I will not sin against God, neither your husband. Go your way, woman." And, brother, when she grabbed him, he

left the clothes and he went running. Because when he went down there, he had never faced that virus in his father's house; but when he went down in Egypt, in the world, and he got down there in Potiphar's house, he met that virus and he had to deal with it. But you see, God used to give this boy his regular shots. Every time God called him out to the clinic, the boy was seeing visions, the boy was seeing things, building up an immunity; he had the kind of faith because the boy began to understand his position in the plan of God; and he was raised up out of the humanistic realm and he was walking in the realm of certain victory.

Look at Haman, that was an evil virus. He was a virus of epidemic proportion. Brother, he wasn't trying to kill one or two Jews; his plan was to exterminate all Jews. And that virus only got away because Saul was a make-believe virologist. Because when Saul was sent to take care of the Amalakites and was supposed to wipe them out completely, he spared Agag. Is that right? And that is why Haman the Agagite escaped and that virus got a new host and went to another country and lay there, and that virus got strong.

That virus got so strong and so deadly; the kind of political power and financial power he had at his disposal, brother, he had the capability of destroying all the Jews. But thank God for Doctor Mordecai and his intern, Hatach, who was reading Mordecai's medical journal and they realized that Esther was in a position that if she could get inoculated and then she can get the decree signed for all the Jews to receive the same inoculation, when the epidemic is scattered upon the Jewish nation, they would have an immunity that they would be safe, protected and secured when that time comes. As a matter of fact not just secured from it but they will have resisting power that they would be able to destroy that very virus that was coming to destroy them.

Athaliah – brother, the Athaliah virus was as deadly as the Jezebel virus, but God had an antidote called 'the Jehu antidote' specially bred for the extermination of the Jezebel virus. Is that right? And, brother, when he started that campaign he began to root out every form of Jezebel until God Himself realized that the thing was so potent; He decided to destroy the Jehu virus - the Jehu antidote rather, and just get rid of it. He used it for that job and destroyed it afterwards.

That Athaliah virus began to move and she brought the house of Judah down to one - the house of David rather down to one royal seed. But thank God for doctor Jehoida and his able nurse Jehosheba, and, brother, they moved quickly and they got this child separated. They found the source of the infection, they broke the chain of transmission - because he was next - and they quarantined this chap and then they began to give him the inoculation. And when they brought him out on display, he was as healthy and robust as ever. Thank God for a very watchful doctor who moved quickly and saved the house of David to fulfill the prophecy that the Messiah could come forth - the greatest Virologist and Immunologist that the world has ever known, brother, who once and for all brought an end to all sickness and disease; Who have the keys of hell and death and every thing else because when He destroyed it on Calvary and He rose triumphantly on Easter morning, brother, He had it. And this hour He has a team of virologists that He is sending around the world. Brother, He has them stationed in every nation. That sounds poetic. They are stationed in every nation. Somebody got that. Brother, they are there to make sure there's an immune church in this hour.

That Sanballat, Tobiah and Geshem virus tried to hinder the work, to weaken the church, to break their focus and render the work to a stand still. Brother, with Ezra and Nehemiah - those kinds of antibodies, Haggai and Zechariah - those kinds of killer T Cells, and then Joshua and Zerubabel - those kinds of builders and intercessors, that body was standing strong and they dedicated that house with joy. They contained that virus, they eliminated the thing, and the work went on. That Delilah virus that the Philistines developed specially for Samson. They studied this man's behavior.

You know today with viruses, certain families, certain races, and certain people have a certain genetic structure, and sometimes what might be potent against a certain race, other races may have an immunity to that. And where that might work good in a part of the world that is tropical it mightn't be so effective in some other part of the world where you have different seasons. It might die down when the winter comes and it may become ineffective.

So many times when the enemy is using a virus, he studies your environment, he studies your make up, and he studies what can penetrate you. He knew that David, at six in the evening likes

to go on the back porch with his binoculars. He knew that is the time to make Bathsheba take her bath right in the same place. Brother, he was being set up and he didn't even know he was being set up. The amnesia that set in on him, that even when Doctor Nathan came and began to read this man's medical chart and began to tell him his condition, he thought it was somebody else's chart the man was reading. When the man asked, "Are you David? You are the son of Jesse? You are king David? He said, "I'm talking to the right person." He said, "You see this chart, this is your chart." Brother, he had to find the kind of things that could break the hold of that virus around his life. He went back to the point of origin and said, "I was conceived in sin. I carried this thing inside of me all these years because of my birth, it traveled down with me."

Friends, I might have used some things here this morning that may seem a little far-fetched to some. But I hope it doesn't.. Even because of lack of time I just decided to cut it a little bit, but really I wanted to bring out to you that immunity is really to give protection. Immunized means to make somebody resistant to a particular disease, especially by vaccination, by inoculation. You can get this immunity this morning against sin, against lust, against pride, against doubt, against fear, against money, against women, against popularity; you could get this, this morning. The lust of the flesh, the lust of the eyes and the pride of life.

To immunize means to give somebody protection or exemption from something that others are subjected to, especially in a criminal matter under investigation. When somebody commits a criminal offence and they are under investigation judgement so that charges can be laid against them indictably, where evidence can be produced and put in court to know if they have a case; when they go through certain ones, they realize that you are not implicated, your name was called but you really have no part in this matter and you receive immunity from prosecution.

Well when He dropped down in Genesis 18, under the seventh seal in the time of the investigation judgement - 'Called and Sealed, in the time of the Investigation Judgement.' Before the literal judgement is executed, He drops down there and He is judging by His Book and He acquits you from guilt. He dropped all charges against you, and you don't have to come into condemnation. There is now no condemnation to them that are in

Christ Jesus who walk not after the flesh but after the Spirit. They receive a release from guilt and they receive an immunity. There is no way they could be prosecuted because He took our punishment. He died in our place and we accepted that and we were identified with that, and His righteousness was imputed unto us. And we stand before Him righteous and there is no basis upon which we can be accused. Who shall lay any charge to God's Elect, it is God who justifieth.

Immunized from judgement. Immunized from disease. Receiving a resisting power like Mordecai had. He refused to bow to Haman; that virus had no power over him. Haman thought that he was the worst virus, yet he couldn't affect this man at all. What kind of antibodies this man had?

Do you have the antibodies for fashion, young ladies? Many of you are at that age where you are going through your biological changes in your body, and where you need the Holy Ghost in your life more than ever right now at this junction in your life, if you have to go to your husband - when God give you one - a virgin. Do you think you have the immunity to resist men and the persuasion of men and the ways that men use to manipulate you? Are you a cell in the body that one of those viruses can come into and inject, manipulate you and then get an entrance into the body and begin to reproduce more and more copies of himself; and then you get infected and begin to infect others, and then it gets contagious and that spirit begin to move from one to the next?

When you want the Holy Ghost, what do you do? Go around Holy Ghost people, right? When you want a demon, what do you do? Go around demon possessed people too, right? And when you get delivered from that and you go back among the unbelief, what happens? It comes back on you. And when you are sick and you get healed and you go back among that unbelief and they say, "You didn't really get healed, girl. Are you sure you really got healed? Are you sure God delivered you"? And you start to get doubt in your mind, then what happens? You get sick again. Is that right?

Do you have the antibodies? Do you think your Christian life is just going along? Do you see there are things that Satan has infected you with and you carry the symptoms in you to show that you got infected, to show that your immunity is gone.

The church had lost her immunity. It fell into organization, but God had promised in the last days the true Word will come to restore the church, to bring back the same immunity, to bring back a sin free church, to bring back a church with the same kind of Holy Ghost to write the same Book of Acts in the last days. Do you see that overcoming power in your life? Do you have that communion with God? Do you find yourself craving for that fellowship? When you look at the thirst in your soul and the crave in your heart, what is that crave for? When you get the thoughts that bombard your mind, and battle for supremacy to control your will, what kind of thought it is? Is it the Holy Ghost knocking at your heart's door saying? "Surrender to God. Get up and pray. Read the Word. Go forward, you can be an instrument in the hands of God; that's why God called you. God wants to use you for His glory. You were born for a purpose."

Or is it like, "I like that in the world. So why we can't do that? So why is that wrong? So why God don't allow that? So why this?" And everything you want is something you see out there. Is it because you got infected - contaminated food? Are you watching too much movies? You are eating at the wrong table? You are eating all those loaded things that Satan has, spreading germs and bacterium inside of you, and is breaking down your spiritual health? You have time to open up yourself to those things? You sit there and get you own impulses anointed and influenced, and then you find yourself wanting to act out and behave according to what you see and what impressed your subconscious?

What kind of immunity do you have? Do you have something inside of you that say, "That will not influence me. I put my foot on that. I don't want any part of that. That's an unholy thing. That's death in a form, looking like pleasure and enjoyment. That can't deceive me. It's a devil behind that thing there trying to disrupt my testimony and bring shame to the name of God. That's something inside of me that's eating me down, and after a while I'll have no more principle, no more conviction, no more standards; all my immunity will be gone. I'll stand for nothing. I could get talked into anything and I could get talked out of anything. I'm just floating with the crowd. I'm no longer planted with my roots going deep down bringing forth my fruits in due

season where my leaves will not wither, with no blight or fungus in this tree.”

What kind of immune response do you see? The difference between life and death is a functioning immune system. If this church doesn't have real strong deacons with discernment, that know the Word, that are anointed with the Spirit, that love God, that love this body; to protect this body, to guard this body, who love God to keep it unleavened. If it's just a little clique in a corner, watching this one, could talk about that one, go over here and criticize this one; the same ones that they are in the body to protect and keep the body immune. If they get infected and turn against the body and begin to affect the body and weaken the body, the same body that they were built to protect.

If we as ministers don't have microscope and telescope then we are not even equipped for the war. Diseases would be rampant in the body and we will have no vision to see, to detect and to discern by the Word, to shine the Light and to see what we are looking at, and carry it in the Word and break it down and see how it affects the body; and once it's presence is identified, know what is required to neutralize that thing. We can preach a social gospel for a church that is talking about a Rapture and their lives are heading in the world with no faith and no resisting power.

You look at those Hebrew boys. They had resisting power. They said, “We are not going to eat anything from this king's table. We are not going to deal in this filth. We are not going to bow down to any of these things here.” That was the kind of attitude they had. What about you young men. What kind of immunity do you have? You are at the age where your mind could go in so many different directions.

Some of you old ones who by now should have had things under your feet, are you still fighting up with some of the old things? You seem like, ever so often when that thing comes back around, you get it again. Every time somebody sneeze, you catch the virus. Somebody come with this and you have no antibodies to say, “You see that, that has been dealt with already. We are not bringing up that. That is not glorifying to God. That matter is closed. I think, what we should do is pray for the person. I think that would be more pleasing to God.”

Do you know what is going to happen? You are going to have a healthy body, you are going to have a healthy church, that no matter what kind of disease - epidemic killing the Baptist, epidemic in the Methodist, epidemic among the Catholic, epidemic over here in the Pentecostal. You are going to have a church that is immune. When they come they will say, "How are these Christians so healthy? How these women and they looking like that? Where did these kind of men come from? Look at the young men. Look how they talk. Hear the attitude. What kind of crop is this? How are they so strong? How do they look like that? Where did this love and unity come from? What is it that you all do?"

A strong church. An immune church. Sin couldn't stand in that first age. But then one day the virus got a host and the church got infected. It looked kind of small, a little scattered, and before you know it, it was in epidemic proportion. Men had to go in the Word, God had to open the seals, men had to catch the mystery to combat that disease.

When Paul was writing to the Corinthian church it had all kinds of diseases. Some were saying that it had no resurrection. Some were saying that you could marry and remarry. Some were still getting drunk at the communion table. All kinds of diseases in the church; and, brother, he had to go there and get the right thing to inoculate a whole church. He said, "And it become an unleavened lump." Then he started to tell them about discernment of the body. Is that right?

In Galatians everybody started to get legalistic again, getting down in the flesh. All who was trying to outdo each other. He said, "You foolish Galatians, you are letting people from Jerusalem come down here and infect half of you all with this thing." He had to take men and re-vaccinate them, re-inoculate them. Is that right?

To the Ephesian church, he said, "Now build up your immunity, put on the whole armour of God, know the wiles of the devil in this evil day; and after you have done all to stand, stand." Amen. And he began to take them back and trace their DNA and show them the stock that they came from and the pedigree that they had. He said, "You have antibodies to fight off those things. Don't be overpowered by those things. You aren't hybrid. They don't have to baby you and spray you."

Brother, that's the same thing in this day. We have found the source of this infection. We have broken the chain of transmission. We have quarantined the people into the only provided place of worship. He rushed them out of blasphemous names into a place where He placed His name. The place of inoculation, so that they could build up their resistance and have the immunity to walk out there in an infested world; and have what it takes, on the inside, to repel everything that the devil wants to bring against them.

An immune church in this hour. What is the immunity? The Seal of God, the baptism of the Holy Spirit. What does It do? It makes them immune from judgement. It gives them resistance against all the viruses and the plagues that is moving outside there. It gives them a power on the inside to pull down strongholds and bring every thought into captivity. Amen. It gives them a resistance to repel anything that wants to invade them and manipulate them. Keep the body healthy. Keep the body free.

Let's bow our heads and close our eyes.

You say, I heard about Aids. I heard what small pox did. A few men crossed the Atlantic, a couple shiploads of them. They came and met a whole civilization here in the Americas, in the Caribbean. They came with a virus. And a few men with couple swords and one or two cannons that they didn't even need, to bring the kind of destruction and the proportion and the widespread destruction; that today those civilizations don't exist. They were wiped out by the pestilence, by the epidemic and by the viruses that they brought. It did more damage. A handful of people, host carrying an infectious disease. They were loosed among a population. The civilization was big and further advanced than Europe that they had back there. Yet today they are no more. They were able to enslave them and their remains are still held in slavery, religious slavery of Catholicism. It is not an ordinary thing, friend. That's the natural. All these things are in a spiritual form today.

Amos said, "There will be famine, not for water and bread but for hearing of the Word." If there is spiritual famine, there is spiritual pestilence. The church was not immune to that Nicolaitan doctrine, that Balaam doctrine; it went from depth to depth and it died. It fell into organization. It went into the depths of Satan where, when they came up they had a name that they lived and

they were dead. What started as a saying, by the time it was done, over sixty-eight million had died and Catholicism ruled the world. Think about it.

There is spiritual war. Paul fought with the sword of the Spirit. He had the whole armour of God. He had the shield of faith and he had the breastplate of righteousness. He was a messenger waging scriptural war on the earth to free churches. He told the Corinthians, "Some of you was effeminate, extortioners, drunkards." Every evil thing they were. But he waged scriptural war. He broke the infection. He set them free. He inoculated that church. But when they began to get away from the messenger they began to fall.

Some came preaching another Jesus, another gospel. As the serpent beguiled Eve, they picked up the same virus. Soon you had some going in the way of Cain, some in the gainsaying of Korah. Those viruses never die. They were still in the second exodus, that when he looked in the medical journal he identified the behaviour; he said, "That's the way of Cain; that's the gainsaying of Korah." The viruses were still alive. Some were still in the way of Balaam.

All those same viruses are still with us here in the last days. We see the conduct, we see the tactics and we see the strategies in religious men, in religious bodies. There's only one cure, friends. There's only one thing that could give us immunity against it. That's the baptism of the Holy Spirit.

As you sit there in your heart you say, "Lord, maybe I don't have a natural disease in my natural body but, God, I see so much symptoms of spiritual disease, and I never even thought I was infected with something. And all these things are symptoms in my life identifying that some demon spirit injected its life into me, and now I am bringing forth, I'm reproducing the life, the characteristic; it's like a parasite sucking my life, and bringing forth his own evil life when I am supposed to display the Token, to bring forth the life of Jesus Christ in this hour. God, I am coming for that vaccine this morning.

God, I need that immunity against lust, against worldly pleasure. I need that immunity, Lord. It seems that since I got infected my prayer life got weak, my reading got weak, my visiting the sick and these things got weak. It seems like I'm just going through the routine and ritual now. It seems like I am on the death

walk. But, Lord, I need the vaccine. I need the booster shot this morning, Lord.

God, I hear that the house is full of this toxin, this great serum - there is Balm in Gilead, and there is a Physician here. Oh God, You are the great Jehovah Rapha. God, I am healthy in my body but in my soul and spirit, I see that I compromise. I see that I don't stand with conviction. I don't speak out as I should any more. I realize there is a softness coming in. Something is dying, dear Lord. Now You put it under the microscope today. I didn't even realize all the things were symptoms of a germ eating down my spiritual life."

You pray in your own heart today. God will hear. God will hear. You be sincere. When Samson realized he was blind, wretched and miserable, he began to cry out to get Inoculated. "Just once more Lord!" Let me get some antibodies built up inside of me. Just once more!" It came, friends. It came. He was willing to pay the price to see full complete deliverance. You get that kind of desperation and you watch what God will do.

Gracious Father, we bow our hearts in Your presence. Lord, I had to kind of chop up the message. I feel a little bad about it, just scatter out the things, Lord, in such a way. I trust that You would take it and give the sense of it to Your children, Lord, that they can catch the thought, to see, dear God, what the inoculation of the baptism of the Holy Spirit in their life is designed to do. And what kind of repellent it is designed to bring within that life, and the kind of resisting power, the build up of the immune system, the discernment- on an individual level, and on a local body level, even the very body of Christ, internationally. Oh God, knowing that the difference between life and death is a functioning immune system. May we have a functioning immune system in this church, Father. May we have a functioning immune system in our spiritual life. May, dear God, we get another dose of the baptism of the Holy Spirit.

God, we come to You, the Chief Medical Officer today, as painful as it might be, Lord, give us the shot, Father. We don't want to go back out without It, Father. God, we realize how potent, how dangerous and deadly this disease is, that is moving today. We see all these churches that once had a revival. We see what happened to the Lutherans. We see what happened to the

Methodist. We see what happened to the Pentecostals. We see what is happening to many message groups, Father. We see what is happening to many individuals who once walked in Your presence, who once had a testimony, who once stood for things that is righteous. Today we see so many dropping their standard, becoming soft, being overtaken, invaded by everything that could pass by. We see the church and its condition. We see individuals and their condition.

God, may Your Holy Spirit, which is the answer to all these troubles, which, Oh God, can restore us to the kind of immunity that they had in the beginning when they were a sin free church, when sin couldn't stand among them, Lord. May we be that kind of teachers and that kind of doctors that could bring forth this kind of Immunity. May there be an immunization campaign, not just here, but out in the islands and out in the region. God, that we go forth to see everyone that is ordained to Eternal Life become inoculated. Out in Grenada, out in St. Vincent, out in Tobago and out in Dominica, Lord. Wherever they are and wherever You will call them, Lord. God, that we can go out there and search for the infection. We can go out there and break the chain of transmission. We can go out there and begin to quarantine and separate them from the unbelief and bring them under the revealed Word. And we can start to inoculate and build up the resistance and give the Immunity to them, Father, so that You will have a church here in rapturing condition.

May You grant it, Lord. We commit them into Your mighty hands. Let Your Holy Spirit deal with each and everyone as You see fit. May You undertake for us all. You know our condition, hear our cry, Lord. We look to You and we call upon Your name. Lead us, Lord; Lead us into Your truth. Take us deeper, Father, fill our hearts today. Seal us away, Lord. In the name of Jesus Christ we ask it for Your honor and for Your glory. Amen. Amen.

Let's stand to our feet.

Lead me Lord and I will follow,

Lead me Lord and I will go.

Think on these things. See all these natural things. There is so much more I would have liked to say and spend time on and polish up. Maybe another day, another time but I think you caught the thought already. Let me see if you caught what I was saying this

morning? You see what it is to be immune. Don't you desire to see an immune church here, a sin free church?

Millions and hundreds of millions now are dying with Aids, so many more infected, so many children being born already inherited the disease. And you know something? It is the most widespread epidemic man has ever had to deal with in the history of the planet, they say. And there are so many more emerging even deadlier and they have already begun to see that they can't even begin to understand. Do you think that would help people change their lives? While they are trying to change here, the television, the radio, the magazines and Hollywood are just blowing them away with more and more filth, so they just can't help themselves. They are ordained to perish - fodder for this atomic age. God will cleanse it with fire - the atomic bomb.

My brother my sister, if this church don't have an immunity, it will not go because it is an immune church that goes in the rapture. And any church that doesn't have the immunity, it is like a man in this world, once you come in contact with these things, you are touching the dead, you are mingling with the dead. You better have the ashes of the Red Heifer, because you become defiled and contaminated by contact, and the only way you can get purified is through separation.

And that is why in Israel when they had a leper, they quarantined and put him out. He couldn't come back in except he was examined to prove he hadn't got any symptoms before he could come back into fellowship. That's why in the church they excommunicated them and loosed them that they couldn't come back. God doesn't play with sin, friends. Let us be true to this Word.

Desire what is right. Let God fill your heart with real joy. Let the Holy Spirit come in your life and bless you, and if you have any virus, if you are a host for any germ, get infected with the germ of faith. Get infected with the germ of love. Get infected with the germ of joy. Be a compulsive reader of the Word. Be a compulsive worshiper and praiser of God and anybody you come in contact with, infect them and spread an epidemic wherever you go. Amen.

I guarantee you that Satan hasn't developed the serum yet to destroy that because the most powerful thing there is, is Divine

Love. You be the one that spread it - the epidemic of love. You be the one that when you meet somebody, when you come in contact with them, their faith rises; exhorting one another much more you see the day approaching. Spraying them with the repellent of predestination that they walk with their heads high, not down and beaten down and trampled upon by the Devil; but knowing their Father is a King and they are in a strange land. Knowing they carry the DNA and the antibodies of the King inside of them. And none of these things in this environment could break their will and oppress them and bring them into slavery; and even when they are in those conditions, they walk like a king's son. You still have your princely ways about you.

May God make you an agent, not for carrying disease, not for carrying fear but for carrying love, for carrying truth, for carrying the Light; and may God use you and make you a great disciple of His in this hour. God richly bless you. As we sing this song,

Lead me, Lord, and I will follow.
