# **A GLOBAL PANDEMIC AND A GLOBAL RECESSION PT.3**

TRINIDAD  
WEDNESDAY 08<sup>TH</sup> APRIL, 2020

**BRO. VIN A. DAYAL**

Praise His wonderful Name.

We are certainly happy to be back for service. We are thankful for God's grace towards all of us, and I trust that you too have been just staying in His Presence, staying under the Divine Influence of the Holy Spirit. It is what—we are all striving to stay there, because this is a time when we know the Lord is speaking to His children. The things that are happening all round about us, we see them and we know that these are signs of the endtime. These are signs that the Doors will close soon and we certainly want to be in a channel where God can speak to us, where God can meet with us, whether we are having service like this, whether we are on our own by the grace of God, in our little private space, I just trust that you have been taking that time to draw near.

As the Scripture said, "Let us draw near with a true heart in full assurance of faith." [Hebrews 10:22 -Ed.] Let us hold fast, (amen,) His Promise that He has given unto us. Let us not forsake the assembling of ourselves, much more as we see the Day approaching.

So I trust that when this time comes around, you will be right there at your post, by the grace of God, in anticipation that you can receive directly from Him; that we all can have a clear understanding at this time of the things that are taking place. And these kinds of services are not too much of preaching, but more like teaching, like a Bible study with you to bring the awareness, to bring the consciousness of what is happening. There is so much that is happening in the earth and there are so

many different spins that the media is giving to it, that people are giving to it, and there is so much, that we need to really hear from the Lord concerning these things.

And I trust that you are like those in Berea; they searched the Scriptures to see whether these things were so or not. They didn't go and search a magazine, they didn't just go and search something in the newspapers. They searched the Scriptures. Because the Scriptures are what reveal this God to us, reveal to us His plan, reveal to us His Church and the condition She will be in this Hour; reveal to us the promises He has prophesied for this Day concerning the nations, concerning the Church, concerning the world. God has spoken expressly for this latter time. Most of the Bible, the entire Bible, as a matter of fact, is written for this last day.

So let us now stand to our feet, draw near to Him. I'm certainly thankful once again, for the grace of God that we can continue steadfast, abounding, in the work of the Lord. If you have a special request, hold it in your heart. Believe Him. Believe with your heart and confess with your mouth, you shall never be ashamed.

As we go to prayer, we know there are saints all throughout the region and the extended regions, we take this time, everyone in their homes, the Holy Spirit... And that is one of the places I think you can be most comfortable, in times like these, to be in your own home and to be in your space there, because they are surroundings that you are familiar with and you are believing that the Lord can meet with you right there. And we are expecting that, by the grace of the Almighty God.

Father, we are thankful once again, to draw near unto You on this Wednesday night, Lord, midweek service, taking this opportunity, Lord, that we can dedicate this time, Lord, to gather together around Your Person, around Your Presence, around Your Word, that You can

make Yourself known and continue to make known to us, Lord, Your program, the things that are taking place, that we can know how to position ourselves in this late Hour. For when we know what is happening round about us, when we know why these things are taking place, when we see the signs identifying the time, we can have the expectation for the things that are allotted for that time. Then we can go to quickening those promises that You have allotted for this Hour, knowing that to every purpose under Heaven, there is a time and there is a season, and Lord, You have made the times and seasons clear to us.

We know we are here between the Gentile Prophet and the Jewish prophets. We know we are here, dear God, when we see, Lord, the pestilence, the judgments. For it is written under that Fourth Seal, that by these four things, You have given power to Death and Hell – the Beast and the image, Lord, to kill one fourth part of the earth. It seems strange that the human mind would, Lord, try to get a grasp of those things, but dear God, we realize that this is Your Truth. It is Your infallible Word and if the Word declares that You have given that, then You have given that, Father. There are no questions in our hearts and minds because we know the sovereignty of God, that all things are working together for our good.

And as we see these things happening, Lord, we can experience the reality of You keeping Your people. You said, “I will keep you in the Hour of temptation,” oh God, “because you have kept the word of My patience.” And like a great snare, it will come upon all the world, Lord, and that we can count it worthy to escape that which is prophesied. We have seen the Son of Man revealed from Heaven, and Lord, You said when we see all these things taking place, Lord, we know the time is at hand, Father, that we can look up and lift up our heads, knowing our Redemption draweth nigh. And truly we believe that our Redemption draweth nigh, Father.

Lord, we pray tonight that You will sanctify every heart, Lord, every brother, every sister, every family, dear God, in every place where Your children are gathered together. May You, the Almighty God, Who rules in the kingdoms of men, Lord, Who rules and is in total control over everything that takes place in this universe, that nothing can happen—only by Your permission, and what You permit, Father, is according to Your plan and Your purpose...

And we pray, dear God, that You would just have Your way tonight and it would be a wonderful time for us, that we can feel the Holy Spirit, the Angel of God, encamping round about us and it can cause the faith in our hearts to believe, Lord, and to ask with faith, believing that we have received what we asked for, and You said we shall have it. Oh God, You truly are the Giver of every good and perfect gift and in You there is no variableness or shadow of turning. Great is Your faithfulness. Your mercies are new every morning. Every day, Lord, You are faithful.

And even tonight as we gather around Your Presence, Lord, we just pray that You will take full and complete control. Your Spirit, Lord, will speak to every heart and You will do the exceedingly abundantly above all we could ask or think.

We commit ourselves for the rest of this time that we would gather together. May You lead and guide us. Order our steps in Your Word. For we ask it in the Almighty Name of Jesus Christ our Lord, amen.

Praise the Lord. You may have your seats.

We have a little song here, a special song. It is the first time, I think, that most of us are going to hear it, because—I heard it today. It is a song written by our beloved Sis. Kelisha [Sis. Kelisha Primus -Ed.] You know in these times as God anoints the saints and gives them something special, we have this opportunity to bring these things to you, by the grace of God, and you can enjoy, and be blessed, and be inspired, amen, even as

you hear it ministered unto you this evening. Glory be to God.

[Sis. Kelisha Primus sings *On The Wings Of Faith* –Ed.]

Praise His wonderful Name. We certainly were blessed and appreciated the song. God gave it to our precious sister yesterday, another masterpiece. He has given her so much of those throughout the years and we are always blessed. Amen. This is the Hour that God wants to perfect what is lacking in our faith.

I would like to invite your attention to 2<sup>nd</sup> Kings, Chapter 23, tonight. We want to take a little reading from there and I want to continue speaking on **“A GLOBAL PANDEMIC AND A GLOBAL RECESSION”**. This is the third part.

2<sup>nd</sup> Kings, Chapter 23. And you may remember Sunday’s message; I was speaking on that and I was reading out of 2<sup>nd</sup> Kings also on Sunday. I had read from 2<sup>nd</sup> Kings 6, verses 24 to 33 and chapter 7, verses 1 and 2, and now this evening, I’m still in the Book of Kings. Kings, Chronicles, Jeremiah, Ezekiel, Daniel, all these Books come into focus, because the things I’m speaking on is one subject since we started, and even though I read different parts of the Bible, (you know,) I want you to be conscious that it is the same scene.

Because Kings—you have Chronicles. Chronicles is mainly the kingdom of Judah and Jerusalem with the temple; and then Kings is the ten tribes. There were two—Israel was divided, the nation was divided into two kingdoms: Israel – ten tribes, where Ahab and Jezebel were over that, and then on the other side, you had Judah, and you had the prophets that spoke to both sides.

So when you read, as a Bible person and especially if you have retained my teaching down through the years, you will know I dealt with these things many times, and I always try to show you that the Kings, the Chronicles, the Prophets, you need to bring these together to catch

the scene. So as we go into this scene here, this is just more of what I've been speaking of.

I was speaking about the siege there, the economic siege, and now I want to bring something more in the same light. Amen. We were in the Book of—My Four Severe Judgments [[2020-0322 The Four Severe Judgments Of The Supreme Judge -Ed.](#)], I was in Jeremiah and Ezekiel with you. Well, Jeremiah and Ezekiel prophesied in the time when Zedekiah was king and when Nebuchadnezzar was king; these two kings, one of Judah and one of Babylon, and how they had great conflict. Because Jerusalem was prophesied by the prophets, God spoke through them, that the city was going to be burned, that it was going to be taken in captivity, and that is how Ezekiel... And we have the Book of Ezekiel because Ezekiel was one of the captives that went down in the time of Jehoiachin, and Zedekiah was the king that came in after him.

And so I... Sometimes if you are not going back and reviewing the things, a lot of the names you could get confused, and you will not be able to retain them, and in your mind you could think it is different things. So that is why, sometimes when we read I want you to catch a hold of it because some things are spoken in Kings that are not spoken of in Chronicles; some things are spoken in Jeremiah and Ezekiel that are not in Kings and Chronicles. So you need to see all to understand the picture of what we are talking about.

It is like if I'm telling you about America and Russia and don't mention the Vatican, and then I come and preach something about the Vatican and America, it is not a different thing. It is just showing you now another angle of the same thing. So in this way it is important for you to follow. And you have the time, you are home, you can follow these things, because I have spent hours and hours trying to refine some of these things to bring it to you, so when I bring it to you, we can sit and study as a people. Because I'm not studying Bible history back

there, I'm talking about what is happening present tense. So when you miss that, you are missing the focus that I'm trying to keep your mind there.

Because every day we are hearing news, every day we are seeing things, and while we see those things, it is telling us how late it is. If you were not seeing anything, if we just look outside and we just see, maybe the cars passing in the road, see what is going on inside of the house, we are home. If you look outside, you don't see anything going on in America if you look in the street, because this is not America, this is Trinidad. Do you understand? You are not seeing anything going on in Russia, you are not seeing anything going on in the Vatican. To see these things, you have to see the news in the world, because you can't stay from here and see in the Vatican. The only way you can see in the Vatican here, is through the fourth dimension; something you could read, that they can show or something being spoken of that they are doing. When they are doing that, then you know where you are.

So you can read news about Russia and know what is happening there. Well, that is how you know certain Scriptures are being fulfilled. You can read something about Israel and know what is happening there because the fourth dimension is opened and we can look and see how each nation is coming into their prophesied place, into their position.

Well, it is the same way with us. People in different countries can look in here and see believers catching a revelation and coming to their position that is prophesied by the Prophet. Because when the Prophet prophesied, he did not say 'Trinidad'. You can type in 'Trinidad' and you would not find it anywhere in twelve hundred tapes. Many countries like that, you could type in and you will not find them spoken of in the Message, but he will talk about a Bride, he will talk about a Bride from all nations, he will talk about a Bride in the earth, he will talk about the Bride in the Bride Age. Well then

these things are—when it is coming to pass, it is coming to pass in people, and those people will have the testimony of Jesus, where those things are coming to pass in their lives.

That is why “When the power of this Church rises, it will pull its brethren.” How will the brethren know that this Church is rising and the power is rising? Through the same fourth dimension. They can’t stay in India and look in here. They can’t stay in Kenya and Zimbabwe and South Africa and look in here. They have to look in here by way of the fourth dimension, by way of the preaching, by the way of the Message that is going forth.

So you have to understand that this is something you have to be keeping abreast with and be conscious and realize the things that are taking place, by the grace of God.

So we are going to read now, 2<sup>nd</sup> Kings 23, verse 27; breaking right in here, in a little scene.

*27 And the LORD said, I will remove Judah also out of my sight, as I have removed Israel, and will cast off this city Jerusalem which I have chosen, and the house of which I said, My name shall be there.*

Israel had already gone. They were already cast away and taken into captivity and were scattered among the Gentile nations, and now Judah is under a siege and Judah is getting ready to be taken into captivity as well. And when Judah was taken into captivity – this is the key – that was the ushering in of an Age of Globalization where it became a one-world government, a one-world religion and a one-world economy. That is the thing in the Bible that is prophesied to happen in this Hour. That is the Mystery under the Seals. That is bringing us back to the very beginning when the whole world was united under Nimrod and a forced worship came, and they were so powerful in that Day, they had a plan to go into Heaven, just like they have today.

All this space program and these things are a plan to escape the judgment that they see is coming upon this world: tsunamis, earthquakes, Climate Change, all these different things that are happening, diseases, pestilence. They know that the world cannot stand much of these things again. The world has been so destroyed by man; cut down the forests, thrown all their toxic waste in the ocean and these things. That is why they spend billions of dollars in space exploration looking for a place where they could find life, that man could migrate.

So you have to have an awareness of why these things are, that when we say we are in the last days... And Bro. Branham said, "The world is again falling apart." Because when we talk about the Millennium, we mean that this whole civilization will disappear under judgment, under the wrath of God. Just like the days of Noah have gone; we can't find it. It was covered under the water.

And today man knows that there was a great flood. All the history of the nations speak of this great cataclysmic change. Even the Calendar and the time and these things show to us the earth is not upright. The earth had been moved from its axis. That is why we have twenty-eight days in one month, twenty-nine days; we have some months with thirty days; we have some months with thirty-one days. Why? Yet the Bible shows us that it was thirty days all the time until it got disrupted. So all these things we know by geology, geological evidence and these things that there had been great cataclysmic changes on the earth. Through even some discoveries, they discovered things, modern things like the pyramid which was before the flood. When man sees this, it gives testimony, (like the sphinx and these things,) it gives testimony of science and knowledge that is in the world today. They cannot understand these things fully.

Here we are facing another judgment. That first one was destroyed by water; this one by fire. And these things that we are studying here are showing to us the characteristics, the identification of the time, of the events where we are, and what we should do, how we should prepare in the midst of these things.

So God is speaking here, just before the destruction of Judah, and they were taken into captivity.

*27 And the LORD said, I will remove Judah also out of my sight, as I have removed Israel, and will cast off this city Jerusalem which I have chosen, and the house of which I said, My name shall be there.*

You may have your seats. We will continue to read from there.

*28 Now the rest of the acts of Josiah, and all that he did, are they not written in the book of the chronicles of the kings of Judah?*

*29 In his days Pharaoh-nechoh king of Egypt went up against the king of Assyria to the river Euphrates...*

It is bringing us to a scene of war, war in the earth. Josiah took his armies and he was observing a war taking place between Pharaoh-nechoh king of Egypt and the king of Assyria.

*...and king Josiah went against him...*

This war didn't concern Josiah, but Josiah having good relations or maybe seeing an opportunity that he felt that this war could come into their territory, he went up against him.

*...and he [Pharaoh-nechoh] slew him [slew Josiah] at Megiddo, when he had seen him.*

*30 And his servants (which were Josiah's servants) carried him in a chariot dead from Megiddo, and brought him to Jerusalem, and buried him in his own sepulchre.*

It was a sad thing. If you read the book of Jeremiah, Jeremiah talked about this and Jeremiah tells you—Jeremiah wept when Josiah died because Josiah was one of the great kings. It was in Josiah’s days that the lost Book was restored. It was in Josiah’s time, he purged the land of all idolatry and these things. When that Book was restored and Josiah saw it, he wept and rent his clothes, and Huldah prophesied, “Because of this man’s attitude towards the Word, he alone will escape what is coming.”

Now you don’t read that in Kings here, but you read that in Jeremiah. You read that in Chronicles, because Josiah was a king of Judah, and the Book of Chronicles deals with Judah’s history. These are things you must understand concerning the Books of the Bible.

*<sup>30</sup> And his servants carried him in a chariot dead from Megiddo, and brought him to Jerusalem, and buried him in his own sepulchre. And the people of the land took Jehoahaz the son of Josiah, and anointed him, and made him king in his father’s stead.*

Now what we are seeing here is an election taking place, because the king is dead and now you have to have a leader of the country. And in those days, the throne of David came down through the house of David. It was Judah, “The scepter will not depart from Judah until Shiloh comes.” So in Judah, you have to have a king from the house of David. You couldn’t have any—because the kingship was by heredity and the priesthood was by heredity. You had to be a son of Aaron to be a priest, and you had to be a son of David to be king in Judah. In Israel, the ten tribes, they had all kinds of kings, but there was no promise of Redemption in there. The promise of the Messiah, when Christ comes, He is going to come through the house of David and of the tribe of Judah.

This is something—these things are lines in the Bible that you can’t lose sight of. If you lose sight of this, you

will just be reading things but you would not know the history of the Bible, you would not know the covenants, you would not know the promises, because all of this is set up in a particular order. I hope I'm not making that complicated for you, but you see, what we are studying here, you have to have it clear in your mind. That is why I'm trying to explain to you and I'm trying to show you it is something that needs you to think. It needs you to understand what you are reading.

Who is Jehoahaz? Who is Josiah? Why are they important? Who is Nebuchadnezzar? Who is Pharaoh-nechoh? If today, you do not know who Trump is, you do not know who Pope Francis is, you would not know anything that is going on. All you know is that you are living and you are going to some church, maybe a denomination or a Message church and if you do not know these things, you really wouldn't know what time you're in, because these are powers in prophecy, these are powers, political powers, nations, religious powers in prophecy.

Because under your Seals, White Horse means religion. The religion basically there, is the Catholic Church that from her comes the Protestants. It doesn't put in Hindu and Muslim and Buddhist inside of there, but we know they are in the earth, because these are non-Christian religions. The Bible is the Scripture that was given to the Jews and came down to the Gentiles through the early Church. Then the teachings in the New Testament were given there by the Apostles to understand that the Gentiles were part of the plan of God too and that the Bride will be a Gentile Bride from all nations. And that is why Israel is blinded until the times of the Gentiles are fulfilled. And when the generation that sees Israel come back in their homeland, that generation will not pass away until all of this be fulfilled.

So in your mind, you must know Israel, you must know the Gentiles, then you will understand what the

Book of Daniel is about, because the Book of Daniel is one of the big teachings on these things. Daniel shows us the Gentile kingdom, “Jerusalem shall be trodden down of the Gentiles until the times of the Gentiles be fulfilled.” See? That is why we had from Babylon, Medes and Persia, Greece, Rome, because this was revelation given to the prophet Daniel. And this is important, because when Jesus came, He came under the fourth empire. He was killed by Rome. And it is promised that that Roman power will rule until the End, when Christ comes back. That power will go out of existence in the battle of Armageddon.

So that is why that is important, because when you go to the Books of Revelation and Daniel, you must know who Rome is, you must know who Mystery Babylon is, otherwise, you wouldn’t understand End Time prophecy. The Seals are what opened these things, because the Seals opened the Gentile Age, the Church in the Gentile Age. But the Gentile dispensation started with Babylon, Mystery Babylon, Babylon back there, in the time of Daniel.

Then in the last days, we have a Mystery Babylon, which is that same Babylonian religion that came down, came into Christianity, interbred with Christianity, and has even been recognized today by the kings of the earth as the true religion because that is the one the kings of the earth bow to, and that is the one that is going to control all the other religions, is going to control the governments, is going to control the wealth of the world. That is the one that will head the ecumenical move, which is the inhabited earth.

The ecumenical move is what gathered—is what formed the image. The image of the Beast is what the Beast works through. And there is no Squeeze if there is no image of the Beast, because the image of the Beast is what is bringing the Squeeze. There is no mark of the Beast if there is no image of the Beast. Do you understand? So sometimes, you know, we talk things,

‘mark of the Beast, image of the Beast, Squeeze’, and these things and we do not understand that this is just more than using these terminologies. It is understanding the earth, the world powers today, the powers of the world in the earth today.

That is why, in the Book of Daniel, it showed you five toes on the left foot, five toes on the right foot. When they came together, they had ten toes. You have to know that those ten toes represented... It also had ten horns. Those were the heads of nations. We found out that those nations back there, that is the last part of the image where the Gentile kingdoms are to be destroyed, where the Rock cut out without hands is going to smite the image in the feet, and then grow into a Kingdom to bring in the Millennium.

So we are... Way back in '59, it was identified, when Khrushchev [Nikita Khrushchev, Former Premier of the Soviet Union -Ed.] took that shoe and beat it on the desk. You had five western nations and five eastern nations. This was a sign that we are in the End, we are at the last stage. And the last Messenger came and the last Seal, the Seventh Seal was opened, and a Message went forth to gather a Bride and call Her out and separate Her, while the nations were coming together as prophesied under the headship of that Mystery Babylon.

So all those things we know exist in the earth, but what they are doing and how they work, that is what we are trying to open here, because that is the antitype. And it doesn't tell you exactly what they are doing because the media is telling you ten thousand different things of what they are doing. But when you go back to the shadow, you see exactly how those things came in and how they are going to go out; the beginning of the Gentile dispensation and the ending of the Gentile dispensation.

That is why we are looking for a Super Church. Where are we getting that from? Daniel and they had faith to shut the mouth of lions, quench the violence of fire and

these things. We took on Sunday, how Elisha in the days after Elijah, a type of the Church, how they had prophecies, how they had a Supernatural economy and these things.

Over in the Book of Kings, we saw how Elijah before the translation, was being fed in a Divine economy. We saw how God through the ravens fed him. We saw how God through the widow fed him. We saw how God Himself came and fed him. We saw how he went in the strength and power of one cake for forty days. Why are those things put in the Bible? To show us before the translation where the Church will be. Because Elijah represented the translated saints also, not just the Prophet. Moses represented the resurrected saints. Elijah represented the translated saints.

So it is a great thing when you can hold the vision. And that is why the Prophet said, “Pray for revelation. You need it more than your own food.” These are things that you don’t hear it and it will remain. You have to stay with it, you have to read it, you have to meditate, you have to ask God to make it real, you have to see the connection, because piece is in Ezekiel, piece is in Jeremiah, piece is in Kings, piece is in Chronicles, piece is in Genesis, piece is in the Old Testament in different places, piece is in the New Testament. When you get the pieces, you have the jigsaw puzzle coming together to form the picture.

The entire Bible is like a jigsaw puzzle and the entire Bible is the expression of one goal and one purpose that God had in the back part of His mind. These things do not come—without the Holy Ghost, you can’t hold it. It takes the Holy Ghost to write it in the heart. It takes the Holy Ghost to quicken it and make it real, because without the Holy Ghost in operation, you can’t know and the teacher cannot be an outside teacher.

I could teach this day and night, it takes the Inside Teacher. When the Inside Teacher comes in – the Spirit of Truth, you will be so hungry, you would stay in that

Word and He will lead you and guide you into all Truth, you would get into fellowship with Him over the Things of God. You just have to see how the Word is a million miles different to church. It didn't say "If you abide in the church," but, "If you abide in the Word, ask what you will." The faith operates there. When that Word starts to quicken, by the Spirit in you, and you start to see that Word, the Light of that Word starts to come forth, it is a great, mighty thing.

So look. So now we are seeing this Pharaoh-nechoh, he went up and we saw how Josiah was killed. And then verse 30, we saw,

*<sup>30</sup> ...the people of the land took Jehoahaz the son of Josiah, and anointed him, and made him king in his father's stead.*

Now, this is great. Because what you are seeing is the people understanding the principle that all the kings, from David being the first king of Judah who had the promise of the sceptre... If you remember my message, *From A Bastard To A King* [2006-0521 -Ed.], you would know that David could not come into the kingship. Saul had to come first, because it took ten generations, four hundred years to run out before a king could come. And from Pharez to David became ten generations. And that was when God told Samuel, "Go now and anoint one of Jesse's sons to be king." The people wanted a king and God gave them a king from Benjamin, but there was no promise of a king from Benjamin. The king was going to come through Judah. But because of the hardness of the people's hearts, they wanted to be like the world and they rejected God as the king. So when Samuel felt rejected, God said, "They didn't reject you, Samuel, they rejected Me." Bro. Branham preached the message, *The Rejected King*, on these things.

So when you look there now, when David became king, then he had Solomon and then Solomon was king after David had died. You know Adonijah, Absalom, they tried to steal the throne. But the promise that God

gave was a promise that Christ was going to come, because Jesus was going to be the real King. David, Solomon and all of them were just types of the King. Josiah, a type of the King; Hezekiah, a type of the King. See? All of them were like the King in shadow.

But when Jesus came, they said, “Where is He that is born King of the Jews? Of the Jews. We have seen His star in the East and we have come to worship Him.” Why? Because out of Jacob will come a star. Where? Out of Judah in Jacob. Jacob had twelve sons. Which one of the tribes was going to bring the King? Judah. So I’m bringing you down the lineage to see how this unfolds.

In there we are seeing how in that Hour there was war, there was famine, there was pestilence, there were all these things. There was false worship, there was idolatry. All of these were in the land just like it is today. But these are the Scriptures that bring it out to show to us exactly. Because when you go into Ezekiel, you find when intercession comes to an end, you find when the sealing was finished, you find when they put the censer of fire to throw it on the nations. Daniel, that followed Ezekiel, you see where they set up the image and they forced the worship.

So all of that was happening as a result of the things that we are reading. And the reason I’m bringing you this way is, we have not yet come to the place to be forced to worship the image, where you can’t buy or sell, and these things. These things are coming in, in a measure; we are in it right now in a measure, through the stand even I made to get into...

Like a brother wrote me and told me, he said, “I misled the people. I carried the people into—I closed up the church and how could I close up the church? And God will deal with me on that and all these kinds of different things.” Well, I had to kind of put him in his place a little bit. You see?

You see, this is the thing. We have so many backseat drivers. We have so many critics at the side. We have so many people who sit in their homes and have their own ideas. I had to be very strong with the brother, because he is a backslidden brother living in adultery and all kinds of different things. I had to send him Hebrews 6 and Hebrews 10, “After you had tasted the good Word of God, you fell away and you cannot renew yourself unto repentance. And if you trample on the Blood that cleanses you and sanctifies you and you count it an unholy thing, there remaineth no more sacrifice for sin.”

You see, people kind of think they could sit and criticize and do what they are doing, but they don’t realize that it is what comes out of their mouths that defiles them. Then you have those who sit and find, “How could Bro. Vin do that? What did he do that for? Why did he do this?”

Who are these people? Did they meet God? Did God talk to them? This is the thing. We have so many of these kinds of things; silly women sitting there, not even seeing in the Bible. Are you a prophetess? If you are a prophetess, bring your gift and let us examine it.

Now you see, these are people who like to spread their influence among people and then mess up the minds of the weak. And here it is, you are laboring day and night to show things, the exactness of the Bible, and to see, they don’t even matter [it doesn’t even matter -Ed.] how many people around the world have been inspired and moved to see the things. They just sit and find, “Well, I don’t find so and I don’t find so.” It is like, “Who are you?” These are people who you baptized, people who you married, people who sat in the church all these years. It makes you wonder.

And look at the Hour that we are in. If they had any discernment and they understood what had happened from December to now, they would have realized that the whole church could have been caught, not having a clue, fallen apart, yet the Holy Spirit was there every

step of the way to show the Word, to bring the people here.

It is sad, you know. When you are seeing this and this Hour comes and meets you in a condition where you are blind, deaf, dumb and dotish, who is going to open your eyes? Where is the eye salve to anoint your eyes so that you can see? It is frightening.

I even had to tell the brother, I said, “You traveled with us. You served together with us, and here, look at the Hour we have come to. We are not young boys. We didn’t give forty-five years of our lives to play church. Do you think God is sending people with the Message around the world five times here, just for what? To joyride?” It just shows.

I had to ask the brother, I said, “Maybe you have amnesia?”

It is sad, you know. People have to be careful of what is coming out of their mouths. There are two mouths; you always hear me preach it – one between the Sixth and Seventh Trumpets, Seven Thunders came out of that mouth and one between the Sixth and Seventh Vial, three unclean spirits like frogs came out of that mouth. One is giving people faith to be changed. The other one is deceiving people and carrying them down into Hell. People have to wake up, you know. This is not a playing Hour. As you heard me keep saying, “This is your last chance to see it, if you have not seen it.” When you see things pull back so a little bit, it is because we are in a different world. And this is what I’m trying to bring to you.

Why do you think I’m talking about A GLOBAL PANDEMIC AND A GLOBAL RECESSION? I’m trying to show to you how laws are being passed, plans are being put into place and everything, while the whole world is locked down, and the world has become a prison.

I’ll get to it just now to show you; this whole coronavirus has the whole world, every continent, locked down, made it a global prison. Nobody can go—

everybody, in every country, social distancing, this here, that here, that here, and economies are breaking. All we are hearing is, “Trillions of dollars are pouring here, and pouring here, and pouring here.” Where is it coming from? Where is it happening? People should be glad that there is some Light to shine on the Word in this late Hour.

If these things are wrong, bring your light to me and show me where I am wrong and you have the right light. Bring it to me and show me. I’ll be glad for somebody to prove that this is wrong. But I know with the King James Version of the Bible, you can’t prove this is wrong. You have to get a different Bible. There is no uncertainty about this.

So watch. This is a change of government here in the nation.

Josiah didn’t go out through old-age and by being too feeble to rule. He was killed in the battle. So it became necessary to have a new king. And his son, one of his sons...

*...the people of the land took Jehoahaz the son of Josiah, and anointed him, and made him king in his father's stead.*

Now catch this. Watch something here. You are in the political realm here. Once you have a headship over government and a nation, this is the political realm. Once you have a priest over the religious part, that is the religious realm. Then once you have a prophet in the land, like Jeremiah and Ezekiel and they were... See, you had high priest in Jerusalem, you had king on the throne in Jerusalem. Each one had their realm that they were ruling over.

Then the Word wasn’t coming to the king, and the Word wasn’t coming to the priest, the Word was coming to the prophet. And that is the Spiritual realm, because that is what the Seal opened, and that is what the Mystery is unfolding, and that is where God’s thoughts

are going forth to the king, to the priest and the nation. Because that is God's voice. See?

When we look here, we see now, the people they came together in their democracy, whatever it was, and they made Josiah's son, Jehoahaz [king]. And the Bible said:

*<sup>31</sup> Jehoahaz was twenty and three years old...*

Verse 31,

*...when he began to reign; and he reigned three months in Jerusalem...*

Could you imagine that? He only reigned three months.

*...And his mother's name was Hamutal, the daughter of Jeremiah of Libnah.*

*<sup>32</sup> And he did that which was evil in the sight of the LORD,*

He was twenty-three years old when he began to reign, young fellow. And he reigned for three months.

*<sup>32</sup> And he did that which was evil in the sight of the LORD, according to all that his fathers had done.*

Young boy coming to the throne. He wanted to have his own style of ruling. He lasted three months.

*<sup>33</sup> And Pharaoh-nechoh [the same one who killed Josiah] put him in bands at Riblah in the land of Hamath, that he might not reign in Jerusalem...*

Now I want you to follow me closely.

*...and put the land to a tribute of an hundred talents of silver, and a talent of gold.*

What are you seeing there? You are seeing... How does Pharaoh-nechoh, the king of Egypt, come to Judah, that is a kingdom... The king died in battle under this same man's army. The people set up the king. But that king of Egypt came up here now and took this king and the queen and a lot of the princes and they and carried them away.

So watch.

*...and [he] put the land to a tribute...*

In other words...

*...that he might not reign in Jerusalem...*

He took him down from the throne. His father was king. He was of the house of David. The kingship is by heredity. But this king has nothing to do with any heredity; that is a Jewish thing. The point I'm making is, the spirit of imperialism, controlling smaller nations and giving them their policy that has nothing to do with their constitution and anything else. It is a change, it is a different kind of politics in the region.

Nobody is coming to tell the king of Egypt that he can't do that. Are you not getting what I'm talking about? I know you are not getting what I'm talking about.

"Guiadó [Juan Guaidó, Venezuelan Politician -Ed.] is the President of Venezuela!" That is what I'm talking about. How could a power say something about a nation that is not part of them, and wants to remove the elected government? That was the influence in the political realm before that Age of Globalization came in.

There were nations with a spirit of imperialism. They were seeing themselves that they have to take control of a certain region, and everybody in that region would have to come under them.

Like they see China, and Japan, South Korea and all these nations, Taiwan, well, they figure you are in the Chinese mainland and you are nearby. And China knows by her size, her wealth, her power, these nations who were maybe, in ancient China's history, all that territory used to be ruled by China, should come back under China's sovereignty. This is what is happening.

How does America cross the Atlantic and go into Iraq and set up their own—take down a government and set up their own government? How could they go quite Afghanistan there in 2001, after the Twin

Towers fell? And they went there, and it was a whole scheme saying, "It was terrorists from out there who came into America and did this, and now we are going to war. War on terrorism!" And that was just a scheme to come and take over, change constitution, control governments and different things to bring in a new Age. It happened. It is still existing.

Why didn't anybody bring those things to the International Criminal Court? Because they are the ones who are ruling everybody. The Bible said, "The fourth beast will devour the whole earth and break it up in pieces," which is Rome. She will rule the world; she will control the wealth of the world.

Now, it is one thing to say it because the Bible said it, but another thing is to see it and see how it is being done, and understand the times.

Why don't other nations rise up and say, "We are against the United States! They cannot do that!" Nobody says anything. Nobody says anything. All United Nations, they gave support to it. Understand.

Do you understand the Age? Do you understand the world? You have to go back in the Bible to understand that that is given.

What was the first verse I read? 27? Let me read it over.

*27 And the LORD said, I will remove Judah also out of my sight, as I have removed Israel, and will cast off this city Jerusalem which I have chosen, and the house of which I said, My name shall be there.*

But now I'm going to cast it away. So how did God cast it away? He didn't say, "Nebuchadnezzar is going to come and take it." He said, "I will cast it away." But it was God Who gave it to the king of Babylon. That is why Jeremiah said, "Put your neck under the yoke." When you don't see that now, you don't understand, "No, God gave this."

You could get vex—I get vex sometimes, when I see that kind of advantage and that kind of boldness of Rome. But then, the Bible said, “It is given.” God gave it! And no nation can rise against it! Then you understand really, God rules in the affairs of man.

Well, if God came down and called you, if God called me as His servant, if God gave me a revelation of the Word, do you know what kind of faith I could have if I really understand that, and be a servant of God in this time? Because that is the same God who said, “I gave that nation all of this,” yet they are not considered in Redemption. They are tares that will be burnt under judgment, but the Bride will be redeemed. How much more could we have faith that God opened things to us, to give us faith to be changed? Could you think that? Because, it is the same God.

Do you think they don’t know that that is given to them? What gives them the confidence then, to go and take it? What is giving them the boldness to exert their will on the other nations? They see when they do that, the other nations fall subject to them, and they understand why they don’t oppose them, why they don’t form another alliance. It is given. That proves that God is really working in the kingdoms of men. He removeth kings and setteth up kings.

Do you remember Daniel 2 and 4? “The Most High ruleth in the kingdoms of men, and giveth to whomsoever He will.” [Daniel 4:17 -Ed.] The Heavens do rule. God determines that. That should do something to a Believer. Because God said, “I will take care of My Church. I will keep you in the Hour of temptation. Because you have kept the Word of my patience.”

Look at how God kept Elijah. Look at how Jezebel hunted him down to kill him. But look at how God kept him and gave him the courage to go back out, “Don’t hide in any cave, go back out. Find Elisha, the

son of Shaphat and anoint him to be a prophet in your stead.” God!

When you start to see the Word of God and the reality of what the Word is, faith goes beyond reasoning. Faith drives fear out of your life, because, the Word said, “He that feareth is not made perfect in Love.” [1<sup>st</sup> John 4:18 -Ed.] That Love is God’s elective Love, that God revealed to you, you didn’t choose Him, He chose you before the foundation of the world. That is God’s elective Love. And faith works by Love.

If you really understand that faith works by Love, can you say you have the Love of God in your heart and don’t have faith? It is impossible. Because the Love that God puts in the Holy Ghost. He shed abroad the Love by the Holy Ghost in your heart. He gave you a Spirit of Love, a Spirit of Power, and a Spirit of a sound mind. Not a spirit of fear and bondage. That only comes when you are uncertain, you are indecisive, you are insecure, you are not sure, you are wondering.

You might be an insignificant person like the little widow of Zarephath, on your last. It looked like you were the most—or like the widow with the two boys who were going into captivity and she only had a drop of oil. It looked like she had nothing and like they were destined to suffer hardships and die in that condition, in poverty. Do you think so? God sent Elijah to one and He sent Elisha to the next one.

God sent Elijah to us. All of this is because I learned from Elijah. I heard Elijah’s voice, 1973, *Looking At The Unseen*. I heard the voice of the Prophet saying, “Sail on, sail on.” And just like Abraham, in search of another land... That is still real here in 2020. That is what keeps me going, because that same Word unfolded to this.

And though that little widow of Zarephath looked so insignificant, that prophet came there, and she saw the Spoken Word create food in her house in the

time of famine. That widow of Zarephath [with the two boys -Ed.] saw that same Jehoram that I was speaking of Sunday, that evil murderer, 'the son of a murderer' as Elisha called him, coming to take the children into captivity.

But Elijah [Elisha -Ed.] taught the woman how to work with the Oil, and she was able to pay her debt, and had enough to live off the rest. Because she had gotten teaching on how to work with the Oil that was in her house. To see how miraculous God moved to them in an hour when they had so little, it was like a squeeze, an economic squeeze on them, yet they overcame the situation. Look at the Power of God that we are talking about. Look at the simplicity in which God worked.

Just like in Hattie Wright's house, same thing. Poor woman, but the Holy Spirit dropped down inside of there. Of course. She could have had a million dollars fallen on her lap if she had asked for that, but she asked for something Eternal. You see?

So, watch. I'm showing you the move in the realm of politics here.

Verse 33,

*<sup>33</sup> And Pharaoh-nechoh put him in bands at Riblah in the land of Hamath, that he might not reign in Jerusalem;*

He locked him up. This man came and took that man and put him in a prison. Like how they went in and took Saddam Hussein [Former President of Iraq -Ed.], found him down in a hole and pulled him out. Do you understand?

*...and put the land to a tribute...*

Now, this is something here, you must catch too.

*...of an hundred talents of silver, and a talent of gold.*

What is this? Your Third Seal. This is economic policy. A tribute is a taxation. It is a stated sum, or other valuable consideration paid by one sovereign

state or state to another in acknowledgement of subjugation or as the price of peace, security, protection or the like. A tax paid by a subject to a sovereign. It is called a tribute.

In other words, when he comes now, if you have to continue here, every year or every six months or whatever the arrangements he stipulates are, so many talents of gold, so many talents of silver must come up.

That is like the IMF and World Bank. It is the same thing that we have today. That is how they privatize your national assets. So it is, "Restructure your economy." The Pitch Lake is gone, the oil is gone, all these things are gone. Why? It is because of debt that they are owing. And it is like, you have to restructure. You have no other choice, because you will get sanctions and your entire nation will go down into problems.

The point I am making with this is, watch in the days before that image came and that forced worship, watch the spirit in the earth by the nations that were the big predators contesting for influence over regions and resources.

Why is China buying up all the lithium in Bolivia? Why do they have billions invested in Venezuela? Look at where China is. Why? Because as a big nation and what it produces, there are other nations that they know have certain things that they have need of.

But then America doesn't want China here, and America doesn't want China there because it is too close to America. And America doesn't want another big country... And then Russia comes now, and Russia, these countries are socialists. They have doctrine like Russia. And Bolivia has doctrine like Russia.

So that was why they went in there. What did they do? They took Evo Morales [Former President of Bolivia -Ed.] and sent him out, "Otherwise, we will shoot you." And

the president elected, had to move away. Then they told the next one [Nicolas Maduro, President of Venezuela -Ed.], “You have to go.” And they put a fifteen-million-dollar bounty on the man’s head. And they put a ten million on the rest of the people close to him in the government.

How does a nation that is talking about democracy, and wants to rule the world, and stands as the nation that once was a lamb, coming up from the earth... But then the Bible tells us, “But after it spoke with the voice of the dragon.” And that dragon that it is speaking with, in her was found the blood of the saints and the martyrs of Jesus. And this nation that is supposed to be—where Protestants fled for freedom of religion, came and turned down the greatest vindicated Message. “And that nation,” the Prophet said, “has passed Redemption.” He said, “I don’t pray for it anymore.” He said, “She turned down the Word.” And that church of that nation was indicted for the second crucifixion of Jesus Christ.

Go and read *The Indictment* [[1963-0707 -Ed.](#)]. Go and read *Warning Then Judgment* [[1963-0724 -Ed.](#)]. Go and read *What Shall We Do With This Jesus Called Christ?* [[1964-0126 -Ed.](#)] See what he was talking about. See which nation he was talking about. That nation.

That nation has rejected Jesus Christ. That nation sold out to Catholicism. Because that is the power that backs that nation financially. That nation is owned by Rome, and that nation is now the servant of the Vatican, who goes forth with the military power in conquest to terrorize nations; terrorize nations, while they are talking about democracy.

This is the Day the Seven Seals are opened and is uncovered. That is how we know that there had to be a Messenger to call the Bride out, “Come out of her, My people.”

All those Protestant nations who came together to reject the vindicated Message, *What Shall We Do With*

*Jesus Called Christ?* they came together and like the Pharisees, and the Sadducees, and the Herodians and they came together to crucify Jesus. And they couldn't do it for themselves, so they gave support to the Roman power, who could do it. That has happened. That has happened in this Day.

The person asked me, "Why did we close down the church?" It just shows how many people don't understand. He said, "The time will come that you will have to stop preaching." I'm still preaching. Do you think I don't know the time will come when I will have to stop? Could you imagine I'm sitting here trying to give you a nice little sweetie message right now, and not telling you really what is happening? I'd be a deceiver myself. And I'm saying these things at the expense that I could be carted off somewhere. This is the reality. This is the reality.

What am I showing you here? The imperialistic spirit upon nations. In other words, they see themselves as empires, not a country, empires to rule over nations. That's why they have over eight hundred military bases in the earth. That is why they say they are the only super power there is, and the whole world must bow to them.

Who did this Coronavirus really come from? I showed you that in the last couple services. It is the beast from the sea and the beast from the earth that are deceiving the world. It is these two powers, it's Ahab and Jezebel. These are the ones who each has a bomb to receive, according to prophecy. California when it goes down... California, if you don't understand geography, is on the West Coast of North America. Millions will die, and then a tidal wave will go plumb into the state of Kentucky. And the Sixth Seal opened with a great earthquake. Do you understand?

This is the time, while we are locked down, (we are in the cocoon, so to speak,) when you come out of

here, your change has to be irreversible, you know. You will no longer be that creature, you will be transformed into a New Creation that could fly away. Understand.

Verse 34:

*<sup>34</sup> And Pharaoh-nechoh made Eliakim...*

He took down the other one, put him in prison and he took another one of Josiah's sons now.

*...the son of Josiah king in the room of Josiah his father, and turned his name to Jehoiakim, and took Jehoahaz away...*

Did you forget how they took up Aristide [Jean-Bertrand Aristide -Ed.], President of Haiti, in the middle of the night, and dropped him in South Africa? And how they went into Panama, and took Manuel Noriega, President, and dropped him in a jail in France? That is in the Bible, that is what we are reading. How do you do these things to elected presidents and they?

Watch these powers! I'm reading here in the Old Testament, you are seeing that here. When are you seeing that? Did you see that fifty years ago? You couldn't see that fifty years ago. You are seeing that now. Why? Because they have broken the world, they have taken control of key resources, they have developed weapons, and have satellites in space, weaponized space, things that track missiles, and these things. And now they feel so empowered. They can bring the whole world subject to them. They can impose their will upon everybody, "You can't buy or sell. We control everything."

That is how you are understanding Revelation 13:16 to 18 down there. And all those who do not worship the Beast shall be killed. Not threatened, not locked up, killed, it said in the Bible. Read and see if It said, "killed." Because they have that power. Who is going to stop them?

Didn't the Bible say, "Who is able to make war with the Beast?" It is given to them. That is God's way of

executing judgment also, because God Himself is going to turn around and judge them. He uses them to inflict things on those who sinned away their day of grace. And then God comes now upon them also, and brings judgment. Why? Because God is sovereign. God rules over everything. And all these things that are happening, in the midst of there, there is a people being redeemed, there is a people growing in faith, there is a people coming to see and understand the time, and the season, and the Age, and see the economics and these things.

Look how it is coming to the place where you can't buy or sell just now, except you have the mark. Look how it is coming to the place with a cashless society. All of these things are coming. It is already—it is just to implement, you know. It is the systems that they are refining. It is coming, like when you are building a new system, you have to get the train line, you have to get the carriages to move the thing from one to the next. Well, their thing is under construction. From the time you see it is finished, and it is proven and it works, that is it.

That is why I'm telling you all of this here is not just about the virus. That is why I am saying, "Pandemic but recession," under the cover of pandemic; control of the wealth of the world, all trade and commerce, because that is where you have to go to control the wealth, so that you can't buy or sell. That is how the big, big nations and they will have to come and cower too. You can't buy or sell except you have the mark. That means it is appointed her to take control of the wealth of the world. And that is the prophecy in the Bible. The Bible shows Laodicea, rich and increased with goods, she in the last days...

That is why the Kings of the earth bow to her. She props them up. That is why they are talking about all these trillions of dollars and different things to put into small businesses, and for people who don't have

a job between here. When they are done, it is rich and poor, bond and free, great and small, no in-between; when money fails, when the people become property of the State.

We are in the present-day destruction of the money system. These things have happened before and they are happening again. That is why I told you Ezekiel was seeing the pestilence, Ezekiel was seeing this, he ate the Book. I showed you Elisha in the days after Elijah, the Church, watch it there, and the economic recession. An Ass's head was sold for eighty pieces of silver, dove dung for five pieces of silver. What caused it? The siege. They locked down everything, created inflation, created recession by design, famine by design.

The Bible put these pictures to show to us the Hour that we have come to. Quickly, let us go on a little quicker.

So first we see the economic policy: Third Seal, IMF, World Bank. What is that? Putting nations that they brought into subjection to them, because they have control over the region, and they put them into taxation, and now they have to pay that tax. When they can't pay that tax, they jerk the chain. They make them privatize all their things.

You see today you use different words. This nation at one time had wealth, but now it is poor, it has nothing. Where did it go? Because of the corruption, because of the debt. That is why they could tell them, "You can't be in anything with Venezuela. Out. Sign it over here to us!" Who is going to resist them? Who are you going to ask to help you to resist them? This is what I am trying to show you here in the Bible.

Look at how Pharaoh-nechoh was having influence. When the king of Babylon came, he moved and stopped coming back. Russia came down there with two big planes, could drop a bomb, but look at what is going on now. And look, while they are doing

that, all those battleships are going out there, and the country spiked more deaths.

Last night, twelve Southern States in the US, (that is down in the South among the black people,) sixty-five thousand cases confirmed, seventeen hundred deaths. Just yesterday, that is in twelve Southern States. It just did so and spiked. Do you think it is just showing up there just like that? Understand, they are destroying wonderfully. They are devouring the earth. They are breaking it up in pieces. What do these words mean? Could you see it being done? Don't you think that is wonderful destruction? Most of the people think, well, maybe it jumped from bat soup onto somebody and it came up the food chain, and you know, it came on human beings and like I said, "It has a visa to go around the world so fast, in so many different countries." Is that possible? Does that have its own intelligence to do that?

This is the god of this evil Age blinding the minds of the people with all kinds of lies, that the people cannot tell truth or error; and that is for the natural man. The real Church cannot be so. Do you know why? The Word has been opened. Seven Seals have been taken off the Bible and everything for the last days is inside the Book, because the whole Book is written for this Hour. The only place that had light... When darkness was all over Egypt, where had light? Among the children of Israel who were under the prophet. Moses, born a proper child, given two signs to confirm his commission, sent him, Pillar of Fire, Pillar of Cloud, went down there, impersonators rose up and these things. But he separated the church, had her under the shed blood of the slain lamb. Only they had light.

Are we in that time? Are we in that time? Did the sun go down and the moon not shine and the stars begin to fall from Heaven, that day on Calvary when God was delivering His Son? Like when God was delivering His son Israel from Egypt, (go on your Sixth Seal, I'm

quoting the Sixth Seal,) and when God was delivering His son in Egypt, all the plagues were falling in the land, all the pestilence, all the disease, all the economy was being broken and the children of Israel, they were eating their bread in haste. They were getting ready to go out.

They were warned that that was coming and they were given a place of safety by applying the shed blood of the slain lamb in the form of a cross, in obedience to the Word of the prophet. And God, who sent the prophet to deliver them, honored the Word of the prophet, that He gave the prophet to speak to the people. And that was where their security laid, not in anything else, in the Word of the prophet. That was their security.

What is going to be our security in this Hour? We don't do this, we don't do that, we run here, we do this, we join here, we go and get all kinds of different things. No, no, no. Do you think it is social distancing and all of these different things, can't shake a hand, can't do this? No. Under the Blood of the slain Lamb, the Word correctly applied, the Word of the Prophet; it was where their security was.

Listen to the Prophet here. *Lean Not Unto Thy Own Understanding* [[1965-0120 paras 77-79 -Ed.](#)]. Now, that's the entire church age... "To the church of Laodicea, you are naked, blind, poor, miserable, and don't know it." Sitting in her riches, ten thousands times ten thousands, and thousands of members, wealth of the world in her hand, almost. Putting it all together, to date, with the Catholic church and the Protestants, together, as they're going together, they got the wealth of the world.

[1965, *Lean Not Unto Thy Own Understanding.*] He said, *We are busted in this nation, [the USA] just about. We are borrowing on tax that'll be paid in forty years from now, they tell me, so they said on Life Line.* [program on the radio where they were bringing that news] *Taxes, we're spending now, [which was 1965] will be paid forty years from now...*

Sixty-five and forty would be 2005. In 2008, there was the subprime mortgage crisis, and now in 2020, twelve years after 2008, that mortgage crisis, it hit again and they are going into a global recession. The point is, in 1965 he said, “They are spending the money now that will be paid forty years from now.”

He said, *...My little grandson, if Jesus tarries, the taxes that he will pay when he is forty years old, we are spending on it now.*

Sixty-five and forty, that’s 2005. In 2008 was the subprime mortgage crisis. Bro. Branham said, “My grandson, if he lives to that time,” he said, “we are spending now the money that would be back there.” In other words, that generation in 2005, it would have so much poverty in that nation, because the nation would be bankrupt.

Well in 2008, they had recession almost like the great depression in 1929, and up till now they haven’t gotten out of that, that is why it is in this condition, and now is 2020. In other words, his grandson and they lived right there during that time. I lived in that time, you lived in that time there. We all know, I preached, *Behold You Have Kept The Word Of My Patience* [2007-1130 -Ed.], *I Will Keep You In The Hour Of Temptation* [2007-1202 -Ed.]. We were in Dominica when the earthquake took place. We called home, “Prepare for the meetings.” The Holy Spirit dropped the thing down. That tile fell off the Central Bank. Then came December 31st, same thing with the Central Bank there; came right into this. Can’t you see? Now we are in 2020.

Where is America getting that money from? Their debt is twenty-four trillion. And then they are talking about giving a few trillions for the people with small businesses, small people who are locked down and can’t go to work, and can’t pay their rent, and can’t do different things right now; a package for them. Are you understanding what we are talking about? How are they doing this? Do you know how many economies in the

world are falling apart now that people can't go out to work? They are home, locked down. Can't you see what is coming out of this? This is getting ready to get more severe. Right now we are having a joy. Just now, a couple weeks down the road, you are not sure if it will have food in any of those places outside there, you know. Understand the picture.

He said: *...we are spending on it now. Sending to foreign aid, and our own Indians [these Native American Indians] and things starving to death; trying to buy fellowship. You don't buy fellowship. You don't buy a friend. No, but that's what we are doing. That's the way we are set up, taxing people to everything they can get onto, tax, tax, tax, [he said.] And we'll not be out of war debt...*

But look at how much war debt they have gone into since. Since the time after the Prophet, you had—he went '65. 1967, you have all those years of war in Vietnam. Then '50 to '53 you had war in Korea after World War II. Then you had war in Vietnam, '67. Then you had all these other wars that they fought; war on terrorism and all these other wars and these things.

So when we look and see, he said, *...we'll not be out of war debt for hundreds of years yet, I suppose, that we been throwed into by politicians.*

He is just giving you facts and showing you how the United States is bankrupt and the only way to come out of it is the Catholic Church. But he is showing you how the tax—how politicians tax people. Pharaoh-nechoh set up a taxation on them. I told you, that is like the IMF and World Bank; borrow to do this, borrow to do that, borrow to do this, borrow to do this. The borrower becomes a slave to the lender. They trap you into debt that you can't pay. That is how they bring you under their control and they restructure the whole region, because you and all the others, they lend you, and you kind of—these little banana Republics and these kinds of little, small roadside politicians, you know, (like

myself, a roadside preacher,) and you have roadside politicians, who went into politics, who went into preaching. And you have them there and you think they are doing something, but before you know it, they are under control.

At least I could say for forty-five years, it never had anybody here. [Bro. Vin moves his hand over his head -Ed.] There was no man to rule over me for forty-five years. And for forty-five years, I never told anybody to follow me. I preached the Word. God had to show you that I am saying what the Prophet said. I never put that down anybody's throat. I just tried to live a Christian life and walk normal. What God gave me, I tried to share with people; went out in the service of God, used the gift just for the edification of the Bride.

There is no man under me either. I have a little flock here and they have to know, as Jesus said, "I know My sheep and My sheep know Me." There are a lot of people who come around here, but He said, "I know My sheep and My sheep knows Me," Jesus said. There were five thousand and seven thousand. In the Upper Room, there were one hundred and twenty, who had the ear to hear what the Spirit was saying.

You see it is not a political thing. It is not trying to get the crowd to follow you. You can't even take care of yourself and maybe twenty-five people, and you are trying to get people to follow you? I can't even take care of myself properly, much more to try to sit to think—and then there are people now who are looking at you, thinking that you can solve all of their problems. Some of them are like, "Bro. Vin, I have a problem here. Bro. Vin..." Half of the time I can't even respond, because I can't live in people's lives. God has not sent me to live in people's lives. God promised people the Holy Ghost, He will live in their lives. He will follow them. He will teach them.

When a man thinks that he can solve people's problems, he is just ambitious. Could you know what

somebody is thinking? Do you think it was the Prophet telling those people what they were thinking? God even asked him that, He said, "Do you think it is you telling people what they are thinking?" If God didn't give him a vision, he would not have known anything about anyone. Because there were times when people came and robbed him the same way too. Because anybody can come along—he felt sorry for a person, he was a human being, he had feelings. But the thing is, all a man can do is surrender himself to God, and God is the One who will determine what He will do through a man. That is why everybody has a place in the Body. We are cut out differently, we are natured differently, we are anointed differently and we are placed differently. Nobody can be the next person. And we are all designed for something, and the Holy Ghost who chose us and predestinated us and designed us for that place, He is the One Who determines what He will do through us. In the end, that is what comes to pass, nothing else.

People get carried away with their ambition and their desire, and want to do this and want to do that, and then with their imagination, sees themselves so big and makes themselves so over-important. Bro. Branham said, "Do you want to know how important you are?" He said, "Come, let everyone come, put your finger down in a bucket of water and see when you pull out your finger, who will have a thing remain to show that you have some impact or influence." It is not there. It is when we learn how little we are and how insignificant we are, and we can't do anything of our own selves, it is not him that willeth nor him that runneth, it is not by might nor by power; when we know how we are nothing, then God can do something with us. That is the key. God's strength is made perfect in our weakness. God brings us perfectly weak so His perfect strength can be manifested in our weakness.

Do you know that is why people have not progressed too much with God? Too much ambition, too much

desire, too much false vision, everybody is seeing themselves, they are going to be this, they are going to be that. He said, "Just learn how humble you can get." God wants empty vessels. And God has to pass you through things to empty out everything – like Bro. Branham on Hurricane Mountain. After that Hurricane Mountain experience, he said, "I can't even cross the road without God helping me. I can't even drive my car without God helping me." God brings us to these kinds of places.

So he is talking about the tax here. I am reading this quote because Pharaoh-nechoh put them under taxation. And Bro. Branham is showing now, as a Prophet, he is showing what this nation comes to, until she is so bankrupt. Why? She got herself operating in a certain way that now, when the nation becomes bankrupt, she has to go to the Catholic Church to bail her out. Then she becomes owned by the Catholic Church. And that is what the prophecy is. That is what the prophecy is.

It actually happened. It is so today. She became the servant of Rome, and all these nations became her servants and indirectly the servants of Rome. Because Rome uses her with her military power to take control of regions and break it. And Rome, who controls the others, makes them keep quiet while this nation forces her will upon other nations. Do you think that is new? That is what I am reading here, to show you that that was always so. Pharaoh-nechoh went up, he took this king, he threw him in prison, he took the other brother and put him there. When this other brother came in, the king of Babylon came and he took him and carried him to Babylon and put up his own king.

What are we seeing? Kingdoms setting up their own governments. They are controlling the politics of nations. You heard me say over and over that they gave us Independence in 1962. In '74, they made us a Republic. Do you think we are on our own? That is just

appearance to get the feeling that you are something. No. See, politicians don't believe this kind of Truth, you know. When you go to the Bible, you realize who is controlling the world, who are the nations in prophecy, who is given...

Daniel had four kingdoms. The first three, you add the time together that each one survived—each one ruled... This last one is for two thousand years. That is the prophecy. It was wounded and it was revived as Papal Rome. And it became more powerful, controlling kings and merchants and princes and nations today, and holds the wealth of the world because she is around for two thousand years.

When you can't see the prophecy and you can't see the Word, you see a different world, and once you see a different world, you are out of sync with God. You are looking for an event, the Rapture, and your signs are supposed to be around you; signs in the sky, signs in the nations, signs in the Church, signs in nature, to know that we are in the last days, the flashing red light—signs in Israel. Why are you looking for signs there? Because that is the only way to understand the prophecy. And when you understand the prophecy, then you are really knowing your time and your season. Then you are knowing—you have to find in the Scripture now and see how others who were translated went. What was it that they saw? What was it that got them ready?

What got Enoch ready? What got Elijah ready? Remember Elijah, translated saints, was seeing Ahab and seeing Jezebel, (you know,) was seeing their wickedness; how Jezebel was writing letters in Ahab's name and sealing it with Ahab's seal. Everybody was thinking that it was Ahab doing that, but it was really Jezebel doing that. She was the power behind the throne. Ahab was just a figurehead. He needed her wealth, because he was bankrupt. It was a political maneuver – the marriage, the union between Jezebel—

because she was pagan. She didn't get converted. She took the nation and brought the nation into idolatry. Understand that.

America has been brought into idolatry, not Christianity. They are not a Christian nation. Christian nation, and they all came together, all the Protestants, Jezebel's daughters, with Jezebel to reject the Message, and had been indicted to be burnt with fire? Come on. See the Bible in the reality. See the Bible in the reality. See?

When we get to Bible teaching and we see... Look at the tax. Look at how Trinidad's money isn't worth anything. What do you think is causing that? Look at the economy. Look at the debt we have. Those people were not seeing that it was—all those things were being done—that economic policy that was set up there where Pharaoh-nechoh, they had to give him 100 talents of silver and a talent of gold. He put the land under tribute. This is a power influencing the politics there and designing the system by what they can live, what they can do, what they can borrow, what they cannot borrow, what they can have. Because they of themselves need that help.

Well that is a description of the whole... The Caribbean is a region that is made up of islands that never had anything. They were always... When they were not governed by the Spanish, they were governed by the French; when they were not governed by the French, they were governed by the British. Now they are governed by the Americans. It was always people who were governed.

Watch the politicians that we have. Watch the great things we have that are built, the special buildings that we have built. Did Trinidadians build it? Chinese came and built it. Watch when we had the problems, political problems and these things, coup and different things, Americans came to help. Watch when we had problems with law and criminal cases, it had to go to England.

What do we have? Watch the cars we are driving, they are imported. None of those are manufactured here. Watch the clothes people are wearing and everything, and they consider... They are things that other nations produced.

You see, people could get a false sense of security, a false sense of belief that is not reality. It is just in their mind. It is just in their mind.

Who fixed our dollar, that it has to be seven to one US? Us? Who fixed it? They fixed that... [Bro. Vin laughs -Ed.] They have a principle by which they fix these things in a nation. Do you know that Grenada's money is more powerful than ours? Do you know Barbados's money is more powerful than ours? We have gold—not gold, black gold, we have oil, we have natural gas. How is it that their money could be more than ours?

Who is running these economics? What would our children... If we have to die, what are our children and our grandchildren going to be? Bro. Branham said his children, by the time they are forty years old, they will be in such poverty, because they back there in the '60s were spending the money that would have been there for them. So when that generation leaves and is gone, they are leaving this generation in debt and hardship and under the control of other nations. That is the point. Because they wasted the money in giving it away, in fighting wars that were irrelevant, supporting the wrong set of people, trying to buy friendship. He said, "Now, the Nation has come down to such a place." Look 2008, look 2020, look at the condition of America. Watch the condition of America.

Let me tell you. Do you think the Vatican supports America in everything? No! Do you think Jezebel just loves Ahab, that when she sees Ahab she gets kind of giddy and, you know... No. She has no love. Everybody is a means to an end. The Vatican is breaking America down to a third world country, you know. When she brings it down there, it means it has no more resistance.

Have you ever seen how Trump said, “We will make America great again?” Look at the man. Look at the man. “Make America great again.”

Look Obama [Barack Obama, former US President -Ed.] came and they legalized same-sex marriages and these things. Do you realize what is going on? Do you know how much sin that brought upon the nation? It made it as Sodom. It sped it up. And they dignified it by calling it ‘human rights’, ‘sexual preferences.’ Do you know why? They don’t believe in any God. They are god themselves, they don’t believe in any God.

So that’s why these things that we are pointing out to you here, all this taxation, I’m showing you the spirit of imperialism upon the dictators, having no respect for international law and using the military power, which is your Second Seal. Second Seal is what? War, taking peace from the earth. Could you have war without a military power to take peace from the earth? No. That is the military. Who has the greatest military? Who brings more terror on other nations? The US. Who has surveillance systems? The US, China too. All these big powers, that is what they have.

Because in this day, it is about control. No Government wants just to be a Government. They want control. They want control of the masses. They want control of everybody’s privacy. They want control of every email, every phone call. They want control. They are spying on other nations too. They want to know everything about the other nation. In the Age of computer hacking, they want to hack into everybody’s system to know what secret file they have, what secret weapon they have, what news they have about them, themselves.

This is the Age. There never was an Age like this. This is all those Ages that it had previously, in one big Age; the fullness of sin and evil and these things. There were evil people all throughout the Ages, there were all these

kinds of things in measures, but in this Age, it became global.

After they used the military power, that spirit of imperialism, an anointing of dictators—they call themselves Prime Ministers and things, but they are dictators, you know. They call themselves Presidents but they are dictators; controlling all trade and commerce, forcing the elected leaders of the nation into submission, as they restructure regions for the advancement of their own empire.

All these regions here are being restructured. Do you think where they found all this wealth, gold, (well Guyana always had gold and diamond,) now they have found all this oil, do you think they could be on their own? Do you think Trinidad is on their own with all this oil that they already have under their control, and the asphalt?

Let me tell you something. Politicians without revelation, trying to make themselves something, they carry their nations into places, leave them in such debt through their own ambition and desire to rule, without consciousness of the world... [Blank spot on tape -Ed.] ...blunder into things. By the time they lose an election and they come out, they leave the country in so much mess; a previous Government. When the next one comes now, it is a quagmire. And so they are going on.

So after a while, everybody is just trying to fix themselves when they come, especially in these small islands. Well, the bigger islands realize, “You all are like troublesome little children, so you all have to be governed.” So they found ways to bring all these islands subject and brought them like little extensions of their own territory.

What do you think is happening there? That is what Pharaoh-nechoh was doing, that is what the king of Babylon was doing; taking these territories. That is what God even told them, “All of you nations, put your necks under the yoke of the king of Babylon. I have

given him everything: every tree, every beast in the field, everything, all the people, I have given it to him.” That is now. That is now.

The nation was being broken economically by the power that conquered them, but the people of the nation only saw it as the government taxing them, you know. When Pharaoh-nechoh put that taxation on them, the economy... The Bible said, “He came, Jehoiakim, and he began to tax the people.” Well they find now, “How are you only taxing on this...?” Like Mr. Imbert came, tax on this, tax on that, tax on this. You are not seeing the thing in the back, where through all their blunders and previous government blunders too, that the country is in so much debt with the IMF and World Bank, that they do not know it is Rome. So the people now said, “Well, the tax has to go up on this and the tax has to go up on that.” And then the salary is small already, so that is a yolk and a pressure upon the nation.

What do you think happened to Bolivia? Morales started to get the people free, started to bring in different things, but he wasn't bringing in Americans. He was bringing in Chinese, he was bringing in different countries to come and invest and do different things. Well they didn't like that. “In our backyard?” They consider that as their backyard. Look at what Maduro and they are doing. He is bringing Chinese and Russians and they are investing their things. “What? You want to shift the balance of power in the region? You opened a door for these powers to come in here and get big? That can't happen, we're going to war.”

So all of these things that are happening here is something that is going on there. Now that is something in the world that—because this is a region, and we live in this region. We could either suffer really badly when they bring down a squeeze on the region economically, when they start to bring sanctions... It is not that the region doesn't have or can't do better. When they bring sanctions, your money freezes, your trade and your

commerce, you don't have any market for your goods, so it stays there. And they are doing that now as a bigger power, to teach you a lesson. It is like a whipping on a child, "You sit there and think that you are important and you are not important. You are subservient to us." Because they are the empire.

This is the empire. They put their imperialistic spirit on the whole region. From North America with Canada, United States, Mexico, all the way to Chile, two continents, North and South America – Central America linked them together, all what they call 'the Americas', they must control that. Because these are the two continents between the Atlantic Ocean and the Pacific Ocean, so they have no competitor inside of there. On the other side of the Atlantic Ocean, you have Europe. On the other side of the Pacific Ocean, you have Asia. So the geopolitics and the plan they have for the world and to set up their empire, they are making sure that they control this part of the world, that nothing comes in here to compete with them.

This is why things are getting tough. Because we don't have US citizenship. We are Islands, and our Governments, they don't have a clue how to develop these countries. They are thinking—what they are calling development, is throwing the country into all kinds of debt and then they leave the people in such a squeeze that the life of the next generation, let us say the ones from fifteen years down, what they may have to face in life to get a job and to do different things, they can't do that in this kind of world that is here now.

They will have to—This whole region is going to be restructured. These things are to restructure this whole region. It is not a thing about health. That has nothing to do with these people. It is control of resources, of trade routes, of the wealth and these things. They are going to pull—did you see how the king of Babylon, he took the best smiths, he took the best people in the arts, he took the chariot makers, he took all the scientists

like Daniel and they? All the different bright people, they take them and bring them into the Americas, bring them into their place, the big countries. And then to a person who is down in this kind of little Island thing, that is a big thing for them. "What! It is only five of us in the Caribbean, you know, who are selected for that work up there." They see it like a prestigious thing.

Well the Caribbean isn't going anywhere, because this is why the king of Babylon came and took everything that was of substance and worth and he carried it into Babylon, and left just the poor people to plant cassava and bodi, and pak choi, and dasheen and these things in the region. Look and see in the Bible, that is what they did. When you have people who learned languages and all these kinds of different gifted people, they had men to screen them. "Do we need that? Do we need that?" We will send them to one of our territories. We will send them here, we will send them here. This is just like a nursery growing things, that they come and look and see, "We want this, this, this, this" and they take it.

Remember long ago they used to talk about brain drain? All the people who were nurses, different things, and everybody went up in the States. Well, when they went up there, it was like, "Oh God, we have advanced, boy! Look at this big city, look at so and so, and so." They went up there and got sick, they started to die. They started to get into sin, their lives started to fall apart, because they were not built for there.

You are from a country down here, a little Island down here. You are breathing good air, you are free, you could move around, but you don't want to live at that standard. You are seeing too many things on television so you want what you call 'the better life', but it is not the better life. You go up there, it is more sinful, it is harder.

Just like how they took churches from here and tried to carry them up there. Before you know it, people

started to backslide, who fell apart, who went into adultery, all kinds of things, who were trying to hold down three jobs to survive and different things. Everybody ran, they thought they saw a door open. They can't come out of that up to this day. They can't come out of that up to this day. Why? Leadership, understanding. Because nobody was seeing God's purpose. God's purpose.

When those churches were falling apart and they came up Abel's Country here, and they walked in the compound and they saw what God did in the time when people were running from recession to go into the foreign countries. To eat what? Hamburger, fast food, American fast food? I saw people who had big jobs in Petrotrin and those places, go up there, in one of those Asian stores; all the clothes were in a heap and you had to go through the heap because it was getting cold and somebody was trying to pull out a sweater to see if it could fit them, somebody was trying to pull out this.

And I stood up and I was watching them. I said, "But look at this. What is this?" This man had a big nice car, big work in Trinidad, they came up here to live in Canada. They never came in a little winter to begin with. Hardship; they didn't know how to live and adapt in a city like that, the kind of life. No one stands and talks with anybody, everybody is busy. Everybody has their rent to pay, different things, bills, bills, bills and just going. Good people fell through the cracks. Uninspired leadership. No. We have to see and understand these things.

We will finish this quotation and close with this.

*...You don't buy fellowship. You don't buy a friend. No, but that's what we are doing. That's the way we are set up.*

He was talking about the situation in America. Look at the Prophet watching America's system and government, because he already saw the thing in the vision, since in '33. That woman is going to come in

here, that Jezebel is going to lead this nation into its destruction. He said, “Look at Roosevelt, he carried them into British war. It was Britain’s problem and they threw the nation into war, and then look at what the country had become. Then it set it up for the Catholic president, Kennedy, to come in, to bring that Jezebel in control of the nation.”

And when the Prophet was speaking these things out, they were seeing him as a critic. They were seeing—all those Pentecostal people were saying, “Oh, what is going on with him? Like he is a wild man.” Because nobody knew prophecy in the Bible. All they knew was speaking in tongues and jumping around, and saying they were feeling the spirit and these things. And the thing to really raise you up to have real revelation of your time and your season, and your promise, and the Word, and the plan for the Age, and the Anointing for the Age and these things, they knew nothing about these things; reformer church, reformer Age.

That is why if you don’t know this by revelation, you will never know the reality of what these things are. You will always think, “What could we really know in Trinidad? We live on a little island, what do we really know? Could we really have confidence that that could be right?” That is what made most of the people turn this down here in the country, back in the early days, when that was coming out.

It was like, “What is he trying to say? Trumpets, Vials? What is he getting... He is putting those people in the tribulation.” Because they were influenced by people from upstate and they were seeing these people like they were so great, and who walked with Bro. Branham and who did this, and who was there, and who met Billy Paul and who talked to Billy Paul on the phone and... What did it produce? Where did it go? Where did it go? See? This is the thing.

He said, ...*You don’t buy fellowship. You don’t buy a friend. No, but that’s what we are doing. That’s the way*

[hear it] *we are set up, taxing people to everything they can get onto, tax, tax, tax.*

When you find ‘tax’ in the Bible, you will find it is nations that are controlled by another nation. When Caesar Augustus passed the taxation at the time there, it was like an oppression on the people. And Bro Branham now, was seeing America had become like that because they were living off a debt to be paid forty years. Then he said, “Look at my grandchildren and they, look at the kind of world we are leaving for our grandchildren, what kind of debt they will be faced with.” But look at the debt now, the debt now is twenty-four trillion already. That was before the Corona started. There is no way to come out of this. The whole nation and all the people are owned by Rome now.

If they are like that and we look to them, what happens in all this Caribbean here? Who governs us? Them! Who are the big churches down here? Anglican and Catholic. The Beast and the image. This is the thing. This is the thing. See, it is easy to talk, but if you are not seeing the reality... You are living here. It is not a religious thing alone, because you will be faced with it. You have to eat, you have to live. The nation here, where all that influence with ISIS and ISIL, and all these things are, down inside of here too, when people are leaving here to go and fight jihad and all kinds of things quite there, and they have a whole bunch of them still in a Venezuelan jail and can’t come out yet, and the government has nothing to do with them...

*...we’ll not be out of war debt for hundreds of years yet, I suppose, that we been throwed into by politicians. And now we shouldn’t be that way. There is no reason for us to be that way.*

You see, sometimes people just pick up news off the news media and talk, without any insight of what they are talking about. Hear the Prophet, you know. He is a Prophet.

*But the churches, themself, has become rich.*

He said, “The nation has been thrown into debt by politicians for hundreds of years to come.

He said, *But the churches, themselves, has become rich. “Pretty near the wealth of the world,” says the Bible, “lays in the Catholic church.” That’s why Russia run her out, why Russia excommunicate. That was the very grass roots of communism, because the church taught to be something, there wasn’t no more from the rest of the world.*

Because they all had a money spirit. Don’t you see Pentecostals today? Five offerings they take up in one service; everybody wants to be a covenant partner. It only shows the shallowness of the people who are claiming to be Christians. Yet they are thinking now, they sit there in those meetings with their pens and they sit there and Joel Osteen [American Pastor –Ed.] and they are talking, and Benny Hinn [Televangelist –Ed.] and they are talking and they are thinking... And John Hagee [American Pastor –Ed.] and they are talking and they are thinking that they are getting some special truth and you see forty thousand, fifty thousand, sixty thousand – T.D. Jakes [American Bishop –Ed.] and they. What are they telling the people? Nothing. Nothing. Blinding the people, yet all of them with diamond rings, private jets, this here...

When you look at them, they are not even spiritual, they are more political than anything else. When you watch their friends, they are bunching with politicians and the ‘up and ups’. [Influential people in society. –Ed.] That is what got David duPlessis and Demos Shakarian in the Vatican. They didn’t want to hang around a hunter, a hillbilly who couldn’t even talk, with a seventh grade education. They wanted to go to the Vatican and they were trying to tell him, “Brother, I tell you, the move is on.” Nobody... It didn’t have any Pillar of Fire, they didn’t have any Pillar of Cloud, they didn’t have any discernment, it didn’t have any Spoken Word; all of that, they went there in the Vatican. Why? Because they

got close with politicians, they felt like a better class of people.

You see, civilization, you know. Let somebody get a little better job, a little better car, a little better house, wear a little better clothes, there is a kind of false importance that comes on them. That is why you could come through here at any time, I will have on a t-shirt and sneakers or slippers. Because, do you know what it is? The real riches are gold tried in the fire, the character of God. People get this kind of false sense of importance, like they are so, you know... Do you know who their friend is? Do you know who they play golf with? Do you know who comes and sits and talks with them, and chat? Oh my goodness! After a while, they just can't be where they used to be.

[1965-0120 paras 84-87 -Ed.]

*...Jesus said, "Let every man's word be a lie, and Mine be the Truth. Matter whose it is, Mine be the Truth!"*

*Now how do we know what's Truth? When the Bible declares that something will happen, that something is going to take place, and it happens that way.*

*Now, the Bible said, "In her was the wealth of the world: gold, silver."*

*Now, if we're on the gold standard, and we are broke, now what is going to happen? What is going to happen...*

Hear the Prophet, he's asking, he is trying to show these people from the Bible: America, its condition, how she had to go to Rome.

*...You know, the rich people of this nation, these big factories, and whiskey men, and tobacco men, and so forth like that, is not going to stand to change the currency, so the only thing we'll have to do is borrow it. And there's only one place we can borrow it. And when we do, we sell our birthrights out to it...*

Look at this man, so clear. The Seals were opened, 1965, he was standing there, everything was uncovered to him. He was seeing exactly how the thing was set, a trap set to bring the nation into that condition to sell

out her birthright, to go to Rome and borrow the money, and become a slave to Rome. Because when you are borrowing that money, you are not borrowing that like some smart thing, you know. When they are done with that, they own everything, they hold the deeds to that, they own all of this. They moved all that gold out of Fort Knox to the Vatican, you know.

*Now if we're on the gold standard, and we are broke, now what is going to happen? [See?] ...And there is only one place we can borrow it. And when we do, we sell our birthrights out to it. That's right. Then what are you going to do? You are owned [You are owned] by it, that system.*

If America is owned by that system, who are we? All that money that passed to build that—you know that money that they built all these SAPA and NAPA [Trinidad's Southern & Northern Academy for the Performing Arts -Ed.] and all these things, you know it was all that money that built all these places. That was depending on oil that we—and natural gas, that we were going to get those things going and we will be able to pay that when we start to get the revenues that this will generate. Everything starts to get privatised now, so who owns it? How are you getting it back? Do you understand?

Let me tell you, if it doesn't even have a real squeeze coming for the rest of the world, we are going to be in a squeeze. We are going to be in an economic squeeze too. Because just now, like Zimbabwe and these countries, the money moved where you could have bought bread and now you are paying hundreds of US dollars for a bread, you know, when the economy was under Mugabe and they. Yet, there are gold and diamonds and things in the nation.

See, people do not see. They are not seeing the Age. When Pharaoh-nechoh came he moved this one from government, he put up the one he wanted, he changed the man's name and all. When the king of Babylon came, he took this one down and he put up this one, and carried the rest in chains to Babylon. That is what

is happening now. This is the spirit. When America moves, they don't ask if that is in the law. Who could charge George Bush? [43rd U.S. President -Ed.] You never heard him get called to the International Criminal Court.

Look, they had the case with Epstein [Jeffrey Epstein -Ed.] with all the trafficking of young girls for all those big high profiled prime ministers and presidents, and Prince Andrew and all of them; it disappeared, they couldn't find the key [Bro. Vin laughs -Ed.] to the prison neither could they find—I think the two cameras malfunctioned or something. Just like that? In the cell where he was? And next thing, he was dead and then they tried to say it was a suicide, he killed himself. And then all the evidence was showing [Bro. Vin laughs -Ed.] that somebody came in the jail, they were let in and they killed him. They have one law for some people and another for the others.

And when they came, Prince Andrew, you can't—he is the royal family so you can't do him a thing. Special things, they are untouchables, yet there were young girls, twelve years, young fourteen years, that this man was trafficking for all of them. You have Clinton [Bill Clinton -Ed.] and Trump [Donald Trump -Ed.] and all of them that used to be on the flight manifest going to the sex island. All the evidence is there, all the proof is there, yet you can't touch them. See the world for what it is. Watch the world. This is the Day that we have come to. This is the time.

He said, "You are owned by the system." Do you mean you could own real estate and all the people, (just like how you can buy a company and you have the workers in the company that remain when the company changes hands and some other company had to relinquish their hold on it, because it was too much expense for them, and they couldn't manage it properly, and they don't have the revenue, so another company comes in and bids and buys it. And then they just change the logo, change colour and continue to operate under a different

name,) do you mean they do countries that too, and regions?

Look at how all these—some of the Caribbean islands, we had CARICOM [Caribbean Community -Ed.]; no CARICOM ever came out. The most you have in CARICOM is some electrician or mason might get a thing to come down here and work on a wall for somebody, and different things. When the time came, and the real politics started, they went to LIMA group; Pompeo came down, America was putting pressure, the Prime Minister and couple people, Mottley, (and other Prime Ministers) from Barbados tried to make a stand and they said, “You all want to make a stand? We will bypass them,” and they did their things. When they came here now, they had to force them to submit.

Why? Because they do not know what they are dealing with. The taxation, the privatization of assets, of resources and these things through the IMF and the World Bank and these things, they do not know that this is the lender. They do not know that the lender is Revelation Chapter 13. They do not know that the bailiff who comes to collect that thing and repossess when you can't pay, and privatize, is the US – the bailiff working for the Vatican. They are changing regions, changing the map. They change the map.

We are going to find out just now. We may even come under a different name, classified differently, because we see that right here in these recent times and now with this Coronavirus, this is the cover where it gives them... They put the whole world, they put the whole world—just let me show you this.

A global siege and conquest is in full effect upon the nations of the earth. Who is doing it? The king of Babylon and his host. What is your Fourth Seal? Hell following Death; an army, while that group is riding, they are conquering everything. Coronavirus is the catalyst for this global siege and conquest that is taking place. Do you know what catalyst means? A person or

a thing that precipitates an event or change. This virus which has been loosed from the vial in a laboratory upon unsuspecting nations on every continent, has served as the catalyst to rapidly transform the world into a global prison.

In Africa, you are in lockdown; that continent is made up of many different nations. You are in Latin America, that is a continent made up of many different nations. You are in the Caribbean, this is a chain of islands in the Caribbean Sea. It is called the West Indies, and what they call CARICOM. All these islands that were grouped together are on lockdown. Whether it is a country, whether it is a continent, whether it is an island, the whole world has come to a place where they all are governed by the same principles at this present time.

Precipitate means to hasten the occurrence of; to bring about prematurely, hastily or suddenly, to precipitate an international crisis. So a catalyst is a person or a thing that precipitates an event or change. It hastens and brings about suddenly an international crisis. This one little virus, invisible, nobody can see it. But the more we hear and the more news they give us, and the more data and information that comes out and... Until they have started to realize that this is not no one thing anywhere. This is regions picked out and they are loosing this in the earth. This has to do with a new world, the new world that is going to emerge in this Hour. Understand this. Prepare; the only thing to get you out of here is the Rapture. The only thing to take you out of here is Rapturing Faith. May it be the hunger of our souls today, Rapturing Grace to be changed and taken away.

I trust by the grace of God, that in this time and season that we are living in, we will take some time to steal away with Jesus, to talk to Him about your future, your very soon future. Don't sit there and think that we are just under a little thing and we are coming out of this. No. This is not designed for you to go in and come

out. This is designed for them to create a condition, pass the laws and by the time it resurfaces, you don't have a choice.

They will tell you where you fit and what you will have to do. Outside of that, you will have to stand against the system. To stand against the system, means your life. It means to say, when you come out of this, it is a kind of preparedness. It is like, "If God be God, serve God." See? It is kind of, "Choose this Day whom you will serve," when you come out of this. And you must have the conviction in here. Know this.

So do not get in a false security and feel like, we are in the Squeeze now. No. You will get a rude awakening; this is going to get more severe, more severe and more severe. Don't put yourself into a false dream. Face reality, have conviction. This Bride, when the Squeeze comes, She will be pressed out, and when She is fully pressed out, then watch the Third Pull. The Third Pull isn't coming until She is fully pressed out. That pressing out is to bring Her into the Word Image, where all human—anything that is contrary to the Word must be purged away, that we can become an instrument in God's hand, to display His victory and show the reason of His death.

So God bless you, my beloved children in the faith. Dig your heels in and get ready for the long pull. Get conditioned in your mind, in your heart with revelation, with Scriptural understanding. Let the Love of God fill your heart for the Lord Jesus Christ and for each other. And think of what it was—because we have the examples in the Bible—what the apostles and they had to go through but God stood with them; what Daniel and they with the false worship had to go through, but God stood for them. Remember these things have happened before, but this time the things are in the fullness that are coming here. That is why we were given the fullness of the Word and the fullness of the Spirit is to be poured out in a people in this Hour. You have

received the earnest until the Redemption of the purchased possession, while we work the Dynamics in a measure, while the Headstone is coming down for that full surge in a people, in this Hour.

And while that is happening, the world is shaking. *Soon Cometh The Earthquake*, [2008-0706 -Ed.]. This place is going to go into chaos. You are not going to leave one bright sunny day, it will be a world reeling, falling apart. As people start to rebel in America, you are going to see. They have already moved all of these things for martial law, they have started to put down martial law in these cities and these things here. It is going to be something. You see, American people are not accustomed to hardship, and what is happening in the country, people already want to rebel and come out. Notice, everything that happened up there is being put on all the surrounding nations within the region that falls under the umbrella of those things.

May God help us. May we find, "He that is in us, is greater than he that is in the world." I'm not trying to scare you, I'm just trying to bring you to reality. Because the Prophet said, "It got so dark that when that elevator was going down the cavern, the girl started to scream, the boy had to say, "Fear not. There is a man here." She couldn't see the man but he started to say, "The man is here who can turn on the light." So if you think it is dark, you haven't started to feel the darkness yet. It is going to get darker with this, and that darkness will be scary. It will be scary, because we are talking about supernatural devils that are loose. It was demons of hate that killed six million, in Hitler's time. Those same demons are now loosed in the Ecclesiastical realm. They were loosed in the realm of dictators, in the realm of politics that came upon Jews to kill them. Here they are, to bring a Squeeze upon the true Church, same demon powers.

So understand this. This is not a kind of waltz thing and go out. No. That would be understanding it the

wrong way. We were already told—go to Feasts of Trumpets, he said, “Those in the United Nations...” When you see they passed those kinds of same sex laws, when you see they passed the type of laws where they can come in, search, take possession of buildings and everything, when you see those laws are passed already, you know that that kind of spirit that made those laws is who is going to enforce those laws.

See, the laws made and the laws enforced are two different things. “At the opportune time,” he says, “you will see how strong that control is.” When they are finished with that media, people like us will be hated and exposed in a way that people will want to deliver you up and say, “Yes, there are some of them in this village, there are some of them over there, there are some of them who believe this over here,” because you will become the public enemy. This is where this is going.

So that is why, in these closing days of time, we strengthen each other. Our cry is, “Even so, come Lord Jesus.” That is how the Book of Revelation ends. “Even so, come Lord Jesus,” because we are seeing we don’t want to be in this world anymore. If you are seeing things in this world that you are longing for or you like; think, be sober. Be sober, have a clear mind and think of the Hour, think of the prophecies that were spoken and these things.

If you are looking for Spoken Word, just remember, that is for being formed in the Word Image. Just remember, that is after you are pressed all out, so don’t bring things prematurely and kind of say, “We are there already and we are ready to go.” Are you ready to go and you are not tested yet, fully? You haven’t met the state yet and you are ready to go? No. Don’t get into wishful thinking, get into the real.

Because those Jews, they woke them up in the morning, they had them on a train and they dropped them in places; they were missing in the night.

Understand. I'm not trying to scare you, I'm just trying to tell you what the Prophet said. I didn't say that, he said that. He saw these things, it is in the Word and I'm just reiterating the Word.

I'm saying, do you know why they were not scared? The Spirit of God was with them and in them, "Greater is He that is in you." It has to have in this Hour, "In that Day, you will know I in you and you in Me." That is a knowing we must have in this Hour. And then, when the conditions come, we must see that One Who we say is in us, it would be He in us, overcoming the things.

And if we have to give our lives, we will realize that we are not afraid of death either. Because Bro. Branham said, "If a bomb blows up right now, in a few seconds I will be in that theophany. It was that real to him, when he went there and saw what it was. He said, "I used to be afraid of death, but now I can't be afraid of death, not with what I experienced." It is something we have to experience, real. Now we want the Spirit of God to draw close to us. Draw me nearer, nearer blessed Lord. Let us pray.

Thank you, Lord. Thank you, Jesus. Blessed be Your wonderful Name. Seeing the momentum that is being built up, seeing the extension of this plague and the inroads that are being made, knowing dear God, that there are evil powers behind these things at work with a motive, with an objective, with a goal to achieve, seeing the deception and the blindness through the electronic media, desensitizing the people, taking away their level of awareness, causing them Lord, to look in another direction; to see what it is being presented to the people – like when the Nazis told the people, "Take off your clothes, it is just a shower you are going to get. Your dormitories and these things have already been provided, but these are the rules, 'go and get a shower, then you change and you will go to your places.'"

The people went so sincerely, thinking that they were going to turn on a shower and water was going to come,

but they found themselves locked up in a room and being gassed; six million. They went like sheep to the slaughter, not knowing, not suspecting anything. The words that they used: “They are relocating them, giving them their own place and taking them out where they can work and do different things, just a programme to resettle people,” yet it was a systematic destruction that was planned to exterminate the people.

Those people didn't know the Hour, they didn't know the prophecies, they didn't know what was coming and what was being planned and designed for them, but we know, Father, as your Bride. You have given us the Seven Seals. You have uncovered the enemy's scheme. You have shown to us the deceit, it is going to be a repeat performance of all diabolical, cunning and cruelty. Lord, we want to have this kind of awareness. We don't want our people to be confused, we want them to be awakened. Seven Thunders were to wake up the Bride; wake us up to the deceit, wake us up to the Hour, wake us up to the enemy that is behind these things, that Jezebel who has already been drunk with the blood of over sixty-eight million; the Beast that came out of the earth, a vehicle, oh God, to break up the earth in pieces and devour it. “That fourth beast destroying wonderfully,” oh God, “wearing the saints out,” the Bible said.

Lord, how we look to You, Father, that You would make these things real to us, that You would keep us alert, watchful and vigilant. As Peter said, “The enemy is like a roaring lion.” They looked and saw that Roman power, that was military Rome, Pagan Rome back there. It is the same power today, Father, just changed into its Papal form, it just changed the outward texture but it is the same evil spirit, oh God, more shrewd, more cunning, more diabolical. All these years of experience, over two thousand years and yet, oh God, joined itself to the mightiest military power in the earth, such an arsenal of biological, chemical, and nuclear weapons,

Lord, a surveillance society, bringing down the might and power upon nations, breaking them, restructuring them, restructuring regions.

God, the only help we have, is Your help Father. We are grateful that You, the covenant keeping God, with who it is impossible to lie and knowing that Your promises are yea and amen, and knowing that You put examples in the Bible, like You were there with the Hebrew boys in the fiery furnace and with Daniel in the lion's den, oh God, You were there with the widow of Zarephath and the widow with the children, oh God, the two boys, meeting their needs; solving their problems, being present amongst them, with the apostles, like with Peter in the prison, when they had planned to kill him and all these things...

And You are that same God. We want to walk closer with You, Father. We want to be more conscious of Your Presence. We want to be more surrendered to You. We want to be more filled with Your Holy Spirit. We want, dear God, that Word to become Spirit and Life within us in such a way, oh God, that we could be so yielded and submitted and surrendered, Lord, so given over to You.

Oh God, may You help us in this late Hour, Father, to understand what these times are, and what is being done, and what is the objective and the purpose, Lord, the hidden motives and intents behind these things by these powers. Had we not known that these powers were laying in prophecy and uncovered and identified to us in Revelation Chapter 13, Lord, we could have been fooled by the media but because of the opening of the Seven Seals, we see these powers. We see them in shadow. We see them in symbol form. We have seen them in operation down through the Ages, oh God, and we see them here in these last days in the fullness.

Lord God Almighty, we pray that You would continue to reveal Yourself, Lord, in this time where You can visit us and make Yourself more real to us, where we desire to walk closer and want to be under Your Headship, and

want to be under Your Leadership, and under Your Influence in every way, Father, that You can strengthen us in might and power in the inner man, that our faith will not fail, dear God. We will not faint in the time of trial and testing but we will find, oh God, that the Word is becoming Spirit and Life within us, Lord, It can bring the human spirit, Lord, in subjection and then the soul controlling the spirit and the spirit controlling the body. Oh God, that soul so Quickened and formed in the Image of the Word, oh God, energized with the Dynamics of the Holy Spirit, that Lord, we can stand and be victorious in this Hour.

May You help us, dear God. May you continue to bless every family, Lord God, the elders amongst us, Lord, the officers among us, Lord God, all the administration that has been laid out, so that we can stay as a unified team, the Church united under one Headship, oh God, the body fitly joined and compacted together; Lord that we can become so sensitive, Lord, so aware, Father, so strengthening one another, so provoking one another to love and good works, Lord, so vigilant and alert, Lord, as we go about Your business Father in this Hour.

May You grant it, Lord. May You bless each one, Father. May You visit and may You, through the Supernatural working of Your Holy Spirit, Lord, that You can manifest Yourself, oh God, in Your great wonderful works that You have done in times passed.

We see how You came to Daniel and they, Lord, and gave them dreams. And in the time of Joseph, Lord, and gave understanding of the future and what was coming and the systems. Lord, we see in the Old Testament, by faith, all those great warriors of the faith. By faith, Lord, Abel and by faith Enoch, and by faith Noah, and by faith Abraham, and Isaac, and Jacob, and Joseph. Lord, by faith Moses and Joshua, and Rahab and Lord, throughout the Bible those who, Lord, out of weakness were made strong, Lord, those who You had visited and

You showed Yourself to in such a way. You took fear away from them and You made them—like You told Ezekiel, “I will make your forehead hard and adamant.” Lord, and they who were tortured but didn’t accept deliverance, Lord God, they saw that no matter what You had assigned for them Lord, they stood there so gallantly and were so noble because of Your Presence, like Job, how he went through those things Father, and stood so strong in that testing.

Oh God, we know that You have ordained us to live in this Day and then You revealed to us the challenges that would come in this Day, and all hell is against this Truth, but oh God, that You would be with us and in us, even to the end.

We take You at Your Word, Father and we find consolation that You are our refuge, You are our hiding place, You are our abiding place, that Lord, to You, we have fled for refuge, oh God, to abide under the shadow of the Almighty. Oh God, that nothing, no pestilence, no sword, no beast of the earth, dear God, Lord, no famine, nothing Lord, can be able to touch us; that You would keep us through these things. And Lord God, that you can give us such a strong consolation, an anchor of the soul, a hope steadfast and sure. May You grant it to each one, Father, we pray in this Hour, Lord, that we will find consolation in the refuge, oh God. We will find peace and the abiding Presence of the Holy Spirit. Lord, each one Father, would be able to testify of Your nearness, of Your peace, of Your comfort, oh God, of Your Presence.

May You grant it, Lord. We commit them into Your hands, Father, oh God, and may You continue to work among the body of believers, Lord, in Your great Supernatural way, Lord, with Your wisdom and Your knowledge, and Your faith, and your discerning of spirits and Lord, in dreams and visions. You said, “I will pour out My Spirit; and the old men will dream dreams and the young men shall see visions, and your sons and

your daughters shall prophesy.” We are looking, Lord, for everything in the arsenal that You have planned, that we would be able to have access to and use and operate, Lord God, against any challenge that would come upon us. Your Supernatural Spirit, oh God, and Your Divine Presence with us, Lord, will furnish to us the things we have need of, to master every circumstance that would confront us.

We believe in You and we trust in You, and we commit each and every one into Your all-sufficient hands and we pray that Your Holy Spirit, Lord, would continue to rest, remain and abide with us, Lord, in the precious Almighty Name of Jesus Christ, for Your honour and for Your glory, we ask these things.

Keep Your Word in our hearts, and as we would look and see the spirit at work in the realm of religion, in the realm of politics, in the realm of economics, in the realm of information and these things, Lord, how the whole world is united together in this Hour, Lord, to bring a persecution upon Your Elected people. But Lord God, You promised to be there with us and we know that the same God that is with us tonight, the same Presence that we feel when we kneel to pray, the same One that when we read the Word and meditate upon it in the day time, is the same One that would be there to give us what it would take to master every circumstance and anything that would rise up against us and make us victorious over it.

We believe that, Father. We confess that in Your Presence tonight. And Lord, may we leave with that assurance, Father, as we bring this meeting to a close. Thanking You, Lord, once again to be here in Your Presence, Lord. We look forward to the next time we would gather. May Your Holy Spirit continue to be with Your children in every place. We ask these things in the Almighty and all-sufficient Name of Jesus Christ our Lord, amen and amen.

So God bless you, precious saints. God's peace be with you. Continue by God's grace encouraging each other, keeping each other close in your hearts as we continue forward arm in arm, heart to heart. May God keep us under the leadership of His Spirit, in the Name of Jesus Christ.

Thank You, once again for being there and standing and remembering all the saints throughout all the region, not just the Third Exodus Assembly clan, but all the believers in different parts of the world. Let us remember them in prayer, because in some nations, you know, the kinds of governments, the kinds of circumstances, they will be confronted with these things, maybe before some of us in these areas. Some are already facing some of it. So let us just be in prayer with an open heart, with a clear vision of the Bride around the face of the earth, this great Invisible Union of the Bride of Jesus Christ.

Thank you, once again. We are dismissed. Amen.
